

Compton/Woodley Airport Monthly Newsletter

June 15, 2024

From the Airport Manager

Latanya Collier (lcollier@pw.lacounty.gov)

As summer quickly approaches and temperatures inevitably will rise, please make yourselves aware of heat illness prevention. Remember to stay hydrated and feel free to come into the terminal building to cool down. We want to make sure that our operations staff as well as our tenants are being as safe as possible.

As a reminder, the annual customer service survey has been extended until June 30, 2024. It is available in the airport office or online at <https://pw.lacounty.gov/go/avisurvey>. Please take some time to tell us how we are doing by providing your feedback, which will allow us to improve user experience at the airport.

Airport Ops & Admin

We have begun conducting the annual hangar inspections. Be sure to look out for the hangar inspection notice arriving at your mail box or in-box with details on when to expect your inspection. Please be prepared with current aircraft insurance, aircraft registration, and current renters/liability insurance for the contents of your unit.

Please remember:

- Compton/Woodley Airport's wash rack use is strictly for aircraft washing only.
- There is no overnight vehicle parking on the airport.
- Please ensure that aircraft are stowed in hangars or tie downs only and **NOT** between the rows.
- It is strictly prohibited to dump any trash not generated at the airport.

UL94 Unleaded Avgas Available Soon

Swift's UL94 unleaded aviation gasoline will be available soon. Once available, fueling services for UL94 will be on Monday through Sunday, from 6 a.m. to 10:45 p.m.

In order to purchase UL94 for your aircraft, you will need to obtain a Supplemental Type Certificate (STC) for your aircraft and have the STC placard properly displayed on your aircraft. UL94 will only be dispensed into properly certified aircraft. It will not be dispensed into containers or other vehicles and equipment.

Hangar Inspection and Insurance Requirements

The hangar inspection program is intended to verify that hangars that are rented for aircraft storage are used for that purpose and to ensure the safety of all airport tenants. Aircraft must be airworthy with a current annual inspection or there must be a plan in place to bring the aircraft airworthy within a reasonable period of time.

Storage of hazardous materials is not permitted, as outlined in the lease agreements. Fire extinguishers must be certified and easily accessible. Hangar electrical systems should not be modified and electrical devices should be unplugged when not in use.

Finally, proof of proper general liability, automobile liability, and property insurance must be provided annually by all aeronautical and non-aeronautical storage tenants in accordance with the terms of your lease. If you have any difficulty securing the necessary insurance, please contact our office for assistance. We are committed to working with you for the protection of all tenants.
