## Monthly Newsletter

April 15, 2024

### From the Airport Manager

Danny Hagle ([dhagle@dpw.lacounty.gov](mailto:dhagle@dpw.lacounty.gov))

On behalf of airport management, Fox Airfield is happy to introduce our first Monthly Newsletter to all airport tenants, users, and stakeholders. As we continue to work on innovative methods to provide the best service possible, we'd like to take this opportunity to welcome all of our airport tenants, users, and stakeholders, to become more involved in engaging your airport management team (Danny Hagle and Adam Sikorski) as well as our Operations team (Bob, Lee, Mariano, and Mark). This will help us create dialog and brainstorm ideas on how to provide quality products, services, and facilities and identify areas for improvement. We welcome all suggestions, thoughts and comments.

### Airport Ops & Admin

The airport has recently experienced an increase in volume of trash dumping at the dumpsters. This is a friendly reminder that the airport dumpsters are not intended to be utilized for trash generated outside airport grounds and in no cases should be overfilled or should waste be left outside of the dumpsters.

Please be aware that overnight parking in the parking lot for the Airport Terminal Building and parking outside of assigned spaces on the airport is not allowed. Unauthorized vehicles will be towed.

To report unauthorized dumping in the airport dumpsters or to make arrangements for temporary parking on the airport when necessary, please contact the airport manager at (661) 940-1709.

In the coming months, MH Aviation will be take over the retail fuel services from the County. They will continue to provide full- and self-serve 100LL and full-service Jet A at competitive pricing.

## Rents and Fees Study Update

Los Angeles County Public Works engaged an appraiser to conduct aeronautical and non-aeronautical rent studies for facilities at the five County airports. The aeronautical studies included an analysis of information and data for similar hangars and tiedowns at national, regional, comparable, and competitive airports. The non-aeronautical study included a survey of off-airport self-storage rental properties in the vicinity of the airports.

FAA policies and procedures require that airport sponsors charge a fair market commercial rental rate for non-aeronautical use of airport storage facilities. These rates have not seen an increase since 2019. Public Works intends to request approval from the County Board of Supervisors to increase rental rates for the use of airport facilities for non-aeronautical storage purposes to be consistent with the fair market rents determined through the study. Not all rental rates will see an increase, some will decrease. Public Works is continuing to review the aeronautical rent studies and will make a determination in fall 2024 as to whether any aeronautical rent increases are necessary.

The aeronautical rent studies and the non-aeronautical rent study with proposed new rental rates may be viewed at the following links or QR codes.

<https://pw.lacounty.gov/go/non-aero>

If approved by the Board of Supervisors, the new rental rates for the use of airport facilities for non-aeronautical storage purposes will be effective later this year. Any change in your monthly rent will be reflected in your monthly statement at that time.
