- **Floodplain Management Plan – Finalize Objectives**
- **The Floodplain Management Plan (FMP) Committee’s Charter**
- **FMP Milestones**
- **Public Outreach**
- **FMP Part 1 – DRAFT**
- **Repetitive Loss Area Analysis (RLAA) Part 1 – DRAFT**
- **Critical Facilities & Infrastructure**
- **Next Committee Meeting**

FMP Review

Objectives:

1. Work cooperatively with **other** public agencies with responsibility for flood protection, and with stakeholders in planning for flood and inundation hazards.
2. Utilize best available data, science, and technologies to improve understanding of the location and potential impacts of flood hazards.
3. Provide state, County and local agencies and stakeholders with updated information about flood hazards, vulnerabilities, and mitigation measures.

FMP Review

Objectives (continued):

4. Educate proponents of projects in known flood hazard areas about the potential flood risks and the need for mitigation measures to minimize flood risk.
5. Consider open space land uses within known flood hazard areas.
6. Where feasible and cost effective, prioritize environmentally friendly natural systems including green infrastructure when reducing flood risk.

FMP Review

Objectives (continued):

7. **Encourage and support efforts** to retrofit, purchase and relocate structures in known flood hazard areas, especially those known to be repetitively damaged.
8. Provide flood protection by maintaining flood control systems.
9. **Implement flood response plan during and after a flood event.**
10. Consider climate change in planning for flood and inundation hazards.
11. Promote community resilience through education on flood risks, insurance and mitigation, and effective floodplain management regulation.

The FMP Committee's Charter

- **Open Floor to Comments**
