4. Part II, Sample Contract, Section 7 Service Fees and Billing, Item C.3 Billing, has been revised as shown below:

3. Billing

CONTRACTOR shall bill COUNTY monthly for COUNTY Services performed during the preceding month by invoice (original and a copy) in a form satisfactory to Director. COUNTY will pay County Service Fees to the CONTRACTOR within 30 days of receipt and approval of a properly completed and undisputed invoice. If CONTRACTOR is certified by COUNTY as a Local Small Business Enterprise, COUNTY will pay

CONTRACTOR in accordance with Board of Supervisors Policy No. 3.035, Small Business Liaison and Prompt Payment Program.

The **itemized** invoice shall contain a reference to the **name of** Service Area and Environmental Programs Division, Residential Franchise/Garbage Disposal District Section. CONTRACTOR shall submit invoices to:

County of Los Angeles Department of Public Works  
Attention Fiscal Division, Accounts Payable  
P.O. Box 7508  
Alhambra, CA 91802-7508

**For weekly or daily Abandoned Waste Collection**, CONTRACTOR shall bill COUNTY based on either per incident, **foot**, ~~or per mile~~, **day**, or **receptacle collection**, as indicated in Attachment 7-3 Task 2 Service Fees of Exhibit 7. ~~If CONTRACTOR encounters more than four cubic yards of Abandoned Waste at a single location, CONTRACTOR may take photos of the waste and claim a higher fee for that location. These special circumstances must be itemized separately on the invoice. The higher fee~~  
**The rate** shall be calculated as follows:

**a. *Per Incident Weekly Collection***

- (1) **Expected Number of Incidents, Volume Up to Four Cubic Yards**

CONTRACTOR shall claim a fee equal to the expected number of incidents rate for four cubic yards of volume.

CONTRACTOR is required to record the location of each incident and submit with the monthly invoice. CONTRACTOR is not required to provide evidence of Abandoned Waste removal unless Director requests.

- (2) **More Than Expected Number of Incidents**

CONTRACTOR may claim a fee equal to the more than expected number of incidents rate.

CONTRACTOR is required to record the location of each incident and submit with the monthly invoice. CONTRACTOR shall take and submit photos of the waste to claim a higher fee for that location.

These special circumstances must be itemized separately on the invoice.

(3) More Than Four Cubic Yards

CONTRACTOR may claim a fee equal to the more than four cubic yards rate for a volume greater than four cubic yards.

CONTRACTOR is required to record the location of each incident and submit with the monthly invoice. CONTRACTOR shall take and submit photos of the waste to claim a higher fee for that location. These special circumstances must be itemized separately on the invoice.

~~CONTRACTOR may claim a fee equal to the single incident rate for each four cubic yards of volume. For example, a pile that extends across a home's entire front yard may be 12 cubic yards and therefore eligible for three times the normal rate for an incident.~~

*b. Per Mile Hot Zone Daily Monitoring and Collection*

(1) Monitoring Original Locations

CONTRACTOR shall claim a fee equal to the Monitoring Original Locations for every linear foot within the zone, each day.

For example, for a \$2 rate for 500 feet, CONTRACTOR may claim  $\$2 \times 500 \times 22 \text{ days} = \$22,000$  per month. CONTRACTOR is not required to provide evidence of monitoring unless Director requests.

(2) Monitoring Additional Hot Zones

If Hot Zones are created or expanded greater than the length indicated in Item 16.A.2 of Exhibit 16, CONTRACTOR may claim a fee equal to Monitoring Additional Hot Zones for the additional distance only.

**CONTRACTOR is not required to provide evidence of monitoring unless Director requests.**

**(3) Waste Collection from Original Locations**

**CONTRACTOR may claim a fee equal to the Waste Collection with four cubic yards or less from Original Locations rate.**

**The four cubic yards volume refers to the total amount of waste at a single incident, not the total collected in all Hot Zones. Waste separated by more than ten feet shall be considered a separate incident. CONTRACTOR is not required to provide evidence of Collection unless Director requests. CONTRACTOR is required to record the location of each incident and submit with the monthly invoice.**

**(4) Waste Collection from Additional Hot Zones Waste**

**If Hot Zones are created or expanded greater than the length indicated in Item 16.A.2 of Exhibit 16, CONTRACTOR may claim a fee equal to the Waste Collection with four cubic yards or less from Additional Locations rate for the additional distance only.**

**The four cubic yards volume refers to the total amount of waste at a single incident, not the total collected in all Hot Zones. Waste separated by more than 10 feet may be considered a separate incident. CONTRACTOR is not required to provide evidence of Collection unless Director requests. CONTRACTOR is required to record the location of each incident and submit with the monthly invoice.**

**(5) Waste Collection with More Than Four Cubic Yards**

**For any incident larger than four cubic yards, CONTRACTOR may claim an extra fee equal to the Waste Collection With More Than four cubic yards rate. Waste separated by more than 10 feet shall be considered a separate incident. CONTRACTOR shall take and submit photos of the waste to claim a higher**

**fee for that location. These special circumstances must be itemized separately on the invoice.**

**c. Public Receptacles**

**CONTRACTOR shall claim a fee equal to the number of Collections made from Public Receptacles during the month, regardless if it is from a standard or solar powered compactor. CONTRACTOR is required to record the number of Collections and submit with the monthly invoice.**

~~CONTRACTOR may claim a fee equal to \$50 for every four cubic yards of volume beyond the initial four cubic yards. For example, a pile that extends across a home's entire front yard may be 12 cubic yards and therefore eligible for an additional \$100.~~
