

# NEWS RELEASE

TOPANGA, CA. (Jan. 10, 2025) — Los Angeles County Waterworks District No. 29, Malibu, and Las Virgenes Municipal Water District are working together to maintain continuous water service for our customers while supporting critical firefighting efforts. Despite the extraordinary demands placed on the water system by the size and intensity of the Palisades Fire, we are committed to ensuring a reliable water service.

Wildfires require significant amounts of water to protect lives, homes, and structures, which can temporarily strain the system. Our dedicated personnel are working around the clock to manage these challenges safely and effectively.

We appreciate your patience and understanding during this dynamic and intense situation. We will continue collaborating with first responders to protect you and your community while maintaining essential water services.
