September 21, 2017

The Honorable Edmund G. Brown, Jr.  
Governor, State of California  
State Capitol Building  
Sacramento, CA 95814

Dear Governor Brown:

**REQUEST FOR SIGNATURE - ASSEMBLY BILL 1158 (CHU)  
ENROLLED SEPTEMBER 19, 2017: CARPET RECYCLING**

The Los Angeles County Solid Waste Management Committee/Integrated Waste Management Task Force (Task Force) respectfully requests your signature on Assembly Bill 1158 (AB 1158). If enacted, AB 1158 would create a multi-stakeholder advisory committee that would be required to make recommendations to the carpet stewardship organization(s) on their stewardship plan(s) and require the stewardship organization(s) to respond to the advisory committee's input. Among other things, this bill would establish a 24% carpet recycling rate goal by January 1, 2020. It further, prohibits the carpet stewardship organization from expending any assessment funds for activities related to engineered municipal solid waste conversion, as defined in Section 40131.2 of the Public Resource Code, or cement kilns to burn carpet, penalties imposed by regulatory agencies, and litigation against the State.

AB 1158 is a step in the right direction to improve the State's carpet stewardship program. Currently, the carpet industry's stewardship organization, the Carpet America Recovery Effort (CARE), is the sole organization appointed by the State to run the carpet stewardship program. CARE submits plan updates to the Department of Resources Recycling and Recovery (CalRecycle) for approval, to demonstrate how the industry will achieve the current carpet recycling goal which in current statute fails to achieve "continuous meaningful improvement". As a result, in December of 2016, CalRecycle disapproved CARE's Proposed Plan for 2017-2021, and had already found the program failed to successfully implement the goals for six continuous years. Certainly, there is a critical need for improvements to the original statute as there has been no improvement in carpet recycling since the development of the carpet stewardship program.

As indicated by CalRecycle, CARE has not "sufficiently addressed reasonable consumer access to recycling services in critical population centers in California, nor made sufficient

effort to establish and grow critical California infrastructure for long-term carpet recycling". CalRecycle's disapproval of the plan also indicates that CARE has not taken all possible steps to boost market development, stating that "the plan neglects a key market development strategy that is within the control of the carpet manufacturers which is to increase their own use of post-consumer carpet materials in manufacturing new carpet".

The Task Force is a strong supporter of product stewardship, a member of the California Product Stewardship Council (CPSC), and was actively involved to ensure the enactment of Assembly Bill 2398 (AB 2398, 2010) which enacted the carpet stewardship program. Unfortunately, it's evident that the statute is deficient as the outcome has been much less than expected, and AB 1158 will allow for the needed improvements to the carpet stewardship program.

Pursuant to Chapter 3.67 of the Los Angeles County Code and the California Integrated Waste Management Act of 1989 (Assembly Bill 939), the Task Force is responsible for coordinating the development of all major solid waste planning documents prepared for the County of Los Angeles and the 88 cities in Los Angeles County with a combined population in excess of ten million. Consistent with these responsibilities and to ensure a coordinated and cost-effective and environmentally sound solid waste management system in Los Angeles County, the Task Force also addresses issues impacting the system on a countywide basis. The Task Force membership includes representatives of the League of California Cities-Los Angeles County Division, County of Los Angeles Board of Supervisors, City of Los Angeles, waste management industry, environmental groups, the public, and a number of other governmental agencies.

Based on the foregoing, the Task Force supports AB 1158, and respectfully requests your signature on this legislation. If you have any questions, please contact Mr. Mike Mohajer, a member of the Task Force, at [MikeMohajer@yahoo.com](mailto:MikeMohajer@yahoo.com) or at (909) 592-1147.

Sincerely,

Margaret Clark, Vice-Chair  
Los Angeles County Solid Waste Management Committee/  
Integrated Waste Management Task Force and  
Council Member, City of Rosemead
