The Honorable Anthony J. Portantino, Chair
Senate Committee on Appropriations
State Capitol, Room 2206
Sacramento, CA 95814

Dear Senator Portantino:

SUPPORT – ASSEMBLY BILL 332 (ASSEMBLY COMMITTEE ON ENVIRONMENTAL SAFETY AND TOXIC MATERIALS) AS AMENDED ON JUNE 29, 2021 – HAZARDOUS WASTE: TREATED WOOD WASTE: MANAGEMENT STANDARDS

The Los Angeles County Solid Waste Management Committee/Integrated Waste Management Task Force (Task Force) **supports** Assembly Bill 332 (AB 332), as amended on June 29, 2021.

Alternative Management Standards (AMS) for the handling of Treated Wood Waste (TWW) were adopted in the State regulations {Title 22 of the California Code of Regulations (CCR), Section 67386.1 et seq.} pursuant to Assembly Bill 1353 (Matthews, 2004) to effectively manage TWW and allow for the disposal of TWW in a composite-lined portion of a solid waste landfill. The AMS sunset on December 31, 2020, and as a result TWW, must now be managed as Hazardous Waste. The many additional Hazardous Waste management requirements, including transport to and disposal at a Class I hazardous waste landfill will significantly increase the costs of proper handling and disposal which could lead to an increase in illegal dumping of TWW. AB 332 would incorporate appropriate sections of the 22 CCR 67386.1 et seq. that sunset on December 31, 2020, to facilitate a clear and reasonable path for the proper management and disposal of TWW while protecting the environment. The bill would require the Department of Toxic Substances Control to notify the Legislature on the safe management of treated wood waste in accordance with the hazardous waste control laws if the provisions of the bill are repealed.

The Task Force is in support of such a measure because while treated wood products have many beneficial uses, their proper management and disposal require this act to take effect immediately to protect human health and safety as well as to prevent further contamination of our environment and waste stream.

Pursuant to Chapter 3.67 of the Los Angeles County Code and the California Integrated Waste Management Act of 1989 (Assembly Bill 939), the Task Force is responsible for coordinating the development of all major solid waste planning documents prepared for the County of Los Angeles and the 88 cities in Los Angeles County with a combined population in excess of ten million. Consistent with these responsibilities and to ensure a coordinated and cost-effective and environmentally sound solid waste management system in Los Angeles County, the Task Force

The Honorable Anthony J. Portantino

also addresses issues impacting the system on a countywide basis. The Task Force membership includes representatives of the League of California Cities-Los Angeles County Division, County of Los Angeles Board of Supervisors, City of Los Angeles, waste management industry, environmental groups, the public, and a number of other governmental agencies.

Based on the foregoing, the Task Force **supports** AB 332. If you have any questions, please contact Mr. Mike Mohajer, a member of the Task Force, at MikeMohajer@yahoo.com or at (909) 592-1147.

Sincerely,

Margaret Clark, Vice-Chair
Los Angeles County Solid Waste Management Committee/
Integrated Waste Management Task Force and
Council Member, City of Rosemead
