The Honorable Gavin Newsom

Dear Governor Newsom:

REQUEST FOR SIGNATURE – SENATE BILL 244 (ENROLLED ON SEPTEMBER 7, 2021) – LITHIUM-ION BATTERIES: ILLEGAL DISPOSAL: FIRE PREVENTION

The Los Angeles County Solid Waste Management Committee/Integrated Waste Management Task Force (Task Force) respectfully requests your signature on Senate Bill 244 (SB 244), as enrolled on September 7, 2021. SB 244, if enacted, would prohibit a person from knowingly disposing of a lithium-ion battery in a container or receptacle that is intended for the collection of solid waste or recyclable materials unless the container or receptacle is designated for the collection of batteries for recycling. Additionally, the bill requires the Department of Resources Recycling and Recovery in consultation with the Department of Toxic Substances Control to develop a guidance document on the proper handling and disposal of lithium-ion batteries and products that contain lithium-ion batteries. The bill also requires the Department of Forestry and Fire Protection to develop a model protocol and training for identifying best practices for preventing and suppressing fires caused by lithium-ion batteries and requires solid waste enterprises to adopt a protocol with procedures for the same purpose.

The Task Force supports the proposed legislation because its goals are to reduce the number of lithium-ion batteries that are being inappropriately sent to solid waste landfills by consumers; to increase the recycling of lithium-ion batteries; and to identify best practices for the detection, safe handling, and suppression of fires that originate from inappropriately discarded lithium-ion batteries and products.

Pursuant to Chapter 3.67 of the Los Angeles County Code and the California Integrated Waste Management Act of 1989 (Assembly Bill 939), the Task Force is responsible for coordinating the development of all major solid waste planning documents prepared for the County of Los Angeles and the 88 cities in Los Angeles County with a combined population in excess of ten million. Consistent with these responsibilities and to ensure a coordinated and cost-effective and environmentally
