

**Sustainable  
Investment**

**To Ensure Reliable  
Water Service for**

**Acton, Antelope  
Valley, Kagel Canyon,  
Malibu & Topanga,  
and Val Verde**

**OUR  
GOAL:**

To provide reliable, high-quality water and responsive customer care in a cost-effective, sustainable, and environmentally responsible manner

Water is essential to every part of our daily lives. We drink it, cook with it, clean with it, bathe in it, and we even play in it!

A properly maintained water system is essential for your health and well-being.

## FACT!

**Bi-monthly water bills help cover the costs of operations, repairs, and maintenance to keep water service reliable for Districts' customers.**

Los Angeles County Public Works, on behalf of the Los Angeles County Waterworks Districts, provides services that ensure safe, clean, and reliable water to over 260,000 people in Kagel Canyon (Dist. 21), Malibu and Topanga (Dist. 29), Val Verde (Dist. 36), Acton (Dist. 37), Antelope Valley (Dist. 40), and operates and maintains the water system in Marina del Rey.

We are making long-term investments to ensure that our water system is well maintained. It's been over a decade—and in some cases nearly two—since the last general rate increase for the Waterworks Districts.

To keep up with rising costs and maintain reliable service, Public Works is proposing a water rate increase beginning in 2026.

### How You Can Participate:

- **Attend a community information session:** Check our website for updates.
- **Attend the Public Hearing:** Date and meeting information will be available on the website and in a mailed public notice.
