IN RE SURVEY OF LAS VIRGENES ROAD.

A.- 131&176

Report of County Council was presented and read, as follows:

"In the Matter of the Resurvey of the Las Virgenes Road (sometimes known as the Kleman Road), I would respectfully report that I have caused a survey to be made following the present traveled wagon track as nearly as practicable, and would recommend the adoption

of the same, except in three places as follows:

- 1st. At the school house I would recommend the adoption of the former survey made in 1896.
- 2nd. From Kleman's gate to the first angle in fence south of gate, would recommend the new fence to be taken as the westerly line of road.
- 3rd. I would recommend a cut off near the south end of the road which would better the road and at the same time leave more land on the easterly side, and also by means of a bridge about 36 ft. long or less length, if bulkheaded at each end over a small wash, would allow the stock to get to water from the pasture on the east side of the road."

And on motion of Supervisor Hanley duly seconded and carried, IT IS ORDERED, that the survey of the Las Virgenes Road, with the changes as specified in the report of the County Surveyor herein recorded, be and the same is hereby adopted, and the following described land be, and it is hereby ordered declared a public highway, to be known as LAS VIRGENES ROAD, which shall be 40 feet in width, being 20 feet upon each side of the following described center line:

Supplement to map of Tract No. 1100 (M.B. 18-66), State of California, County of Los Angeles

I, Thos. H. James, a resident of said county, licensed surveyor, being first duly sworn, do depose and say: I am the surveyor who laid out and platted the lands included within and now officially known as Tract No. 1100 (M.B. 18-66). That by inadvertence and mistake the road 66 feet wide along the northeasterly side of

lot 1, as delineated on said plat was shown thereon as lying equally on either side of a certain line marked "Center of 66 foot road per partition map recorded in Superior Court Case No. 965 "and that in fact said road lies wholly on the S.Wly.side of said line; further that said center line is in fact the N.Ely.side of said road as now and for many years established, and is also the S.Wly.line of the land of G.A. Sanford and coincident with the fence of said Sanford referred to in the suit in partition being Case No.965, District Court of said County.

MACLAY

M.R. 37-5

RANCHO

Red dots shown at street corners on this sketch indicate location of old stakes found by S.G. Chamberlin (City Engineer of San Fernando) in 1917. The side lines of Taylor Avenue per these old stakes are 100 feet apart.

SUGGESTIONS FOR STATEMENT OR LETTER FROM JUDGE R. M. WIDNEY
CONCERNING MACLAY RANCHO, LOS ANGELES CO., CAL.

Stating position, as one of those who originally subdivided the MacLAY Rancho, and who personally superintended the surveyors.

That Taylor avenue was ordered to be laid out as a street 100 feet wide and all others to be sixty feet wide.

That it was an oversight on the part of the surveyor not to have marked the width of streets on the recorded plat.

That the northeast and southwest lines of those blocks bordering on Taylor avenue are 1363 feet in length instead of 1383 feet which is the length of other blocks in the vicinity not adjacent to Taylor avenue.

That in subdividing blocks bordering on Taylor avenue:

Give such information that will help the present owners to establish their lines, especially where the distances mentioned in deeds amount to 1383 feet across the block, instead of 1363 feet, which is all that actually exists on the ground, and where the northeasterly one half or the southwesterly one half of the block was sold as one piece by the owner of the block.

The erroneous distances must give way to the actual distances of (1363 ft.) on the ground.

The foregoing statement is correct.
