OFFICE OF THE DISTRICT ATTORNEY
LOS ANGELES COUNTY
International Bank Building

Los Angeles, Cal., June 15, 1910.

Mr. I. B. Noble,
County Surveyor,
Los Angeles, Cal.

C.F. 300

Dear Sir:

In response to your inquiry as to what rights the County has for highway purposes in that certain strip of land marked right of way shown on map filed in Superior Court case No. 25637, Arnaz vs. Arnaz, I beg to advise you as follows:

The said action just referred to was an action for partition. Section 2618 of the Political Code enumerates the various kinds of public highways, and includes in such enumeration roads made such in actions for the partition of real property. Section 764 of the Code of Civil Procedure, relating to the matter of partition, provides that the referees may "whenever it will be for the advantage of those interested, set apart a portion of the property for a way, road or street, and the portion so set apart must not be assigned to any of the parties or sold, but must remain an open and public way, road or street, unless the referees shall set the same apart as a private way for the use of the parties interested, or some of them, their heirs or assigns, in which case it shall remain such private way".

From the foregoing reference to the law it is clear that a public highway may be established by proceedings in a partition suit. On examination of the files in the case above mentioned it appears that an interlocutory judgment was made therein appointing a referee in partition and directing him to set apart necessary portions of the property for ways, roads and streets, which portions "shall not be assigned to any of the parties, but shall remain public and open ways, roads and streets". The report of the referee made in pursuance of this judgment states that it is to the advantage of the owners of the land that a roadway should be located along the lines of certain lots as shown and designated on the map annexed to the report, and to that end states that the referee has set apart "for road purposes" certain land described and has not assigned the same to any of the parties. The referee also states that the roads as shown on the map are sufficient for the public wants and the private wants of the owners of the lots.

By the final decree of partition this report was confirmed and adopted in full in all respects, and it was provided that the partition so made should be effectual forever. The effect of these proceedings is to establish as public highways the strips of land designated in the referee's report as roads and ways. The map, however, shows a considerable extent of roadway which is not included within the description made in the report itself. It appears from the report that the referee contemplated that the roads laid out by him would be widened and extended upon other property not involved in the partition suit, and the map delineates where the roads are to be so widened and extended. The only portions of the roads involved in the case, and hence made public highways, by the proceedings, are those portions within the

exterior boundaries of lots A, B, C and E, as shown on said map.

Yours very truly,

HARTLEY SHAW,

Chief Deputy District Attorney.
