Note: This line referred to as "deed line" is parallel to Los Angeles City Boundary and distant northerly therefrom 382.54' - said distance being obtained by assuming bearing of N 31° 45' E. to be true and calculating distance perpendicularly to City Boundary.
 By using the angle obtained from the two courses of "East" and "N. 31° 45' E." given in the deeds and calculating perpendicularly to the City Boundary the distance becomes 382.76 or 1.78 less.
