The land in advance consisting of rough and broken mountains devoid of valuable timber with soil unfit for cultivation

I discontinue the line

Land mountainous

Soil 2nd rate.

Timber & undergrowth of Pine, Oak & Chaparral.

May 24th, 1880

-----  
The land that I have surveyed in this Township is mountainous.

The soil 1st & 2nd rate.

Timber and undergrowth consists chiefly of Oak and Chaparral with fine body of Pine in S.E. & S.W. parts of Tp.

A fair proportion of grazing and agricultural lands is to be found in parts surveyed.

The Tp. being well watered by Peru Creek and its Tributaries.

That part of the Tp. I did not survey, consisting of rough and broken mountains devoid of valuable timber with soil unfit for cultivation.
