 FURNISHED BY  
 UNITED STATES GENERAL LAND OFFICE  
 WASHINGTON D.C.

Lines Run By George H. Perrin 1896.

Copied from Photographic Copies  
Furnished by  
U. S. General Land Office  
Washington, D. C.

Survey commenced August 2nd, 1896, and executed with a Kennel and Kaser Transit No. 617, with solar attachment— the horizontal line having two double verniers reading to 1' of Arc.

The instrument was examined and listed on the true meridian at San Francisco and was approved by the Official Examiner of Instruments, Joseph Gale, as per Certificate No. 19, on file in office of U.S. Surveyor General of California.

At the cor. for Townships 2 and 3 North, Ranges 16 and 17 West, in Latitude 34°17' West; Longitude 118°39' West, at 10 hrs. 15 mi. P.M. by my watch (Pacific Coast Time). I observe Polaris and follow it until it reaches its Eastern elongation in accordance with instructions in the Manual and mark the line thus determined by a tack driven in a wooden plug set in the ground 5.00 chains North of my station.

At 6.30 A.M. I lay off the Azimuth of Polaris 1°29.9" to the west and mark the true meridian thus determined by cutting a mark on a rock in place west of the point determined before day-light.

The magnetic bearing of the true meridian is N 14°34' West which is reduced by table on page 100 of the Manual gives the mean magnetic declination of 14°31' E. August 4th, 1896, at 8 h. 6 mi. A.M. Corrected local mean time. Latitude 34°19' North. Longitude 118°36' West.

I set off Declination 17°01' North and determined my course by solar compass.

Subdivisions of Twp. 3 N. R. 16 W., S. R. N.

For the reasons given in Note on Page 5, I discontinued my notes for the present. Land broken and mountains. Soil, thin rate. No timber. Dense undergrowth of Choptal. August 6th, 1896.

August 7th, 1896. At 8 1/2 A.M. Corrected local mean time. Latitude 34° 20' North, I set off destination 16-11' N and determine my course by Solar Compass. Counting from proper point. N 0-1' W. bet. Secs. 17 and 18. Descend in creek bottom. Leave creek, course N 5° W. and along bank of same. Enter dense Choptal. Cross creek 1/2 m. wide, course East and Ascend. Sheep Hill. Top of Spur trends S 80° E + 300 ft. above cor. and Descend. Cross Canon, course S. 89° E + 300 ft. below spur and Ascend.

40.00 Set a sand stone 18x18x12 ins. 8 ins. in the ground for 1/2 sec. Cor. Marked 1/2 on N. face, dug pits 18x18x12 ins. N. and S. of stone 3/4 ft. dist. and raised a mound of earth 3/4 ft. base 1 1/2 ft. high W. of cor. Top of Spur trends East + 300 ft. and descend over rough broken land through dense Choptal. Cross Ravine, 15 ins. wide, course S. 75° E 290 ft. and ascend. Intersect South line of Temple Oil Mine 15.55 chs. East of S. W. cor. Set a sand stone 18x18x12 ins. 12 ins. in the ground for cor. to Secs. 7, 8, 17 and 18. Marked with 4 notches on S. and 5 notches on E. edges and raised a mound of stone 2 ft. base 1 1/2 ft. high W. of cor. 600 ft. Land broken and mountains. Soil thin rate, rocky. Timber Oak. Dense undergrowth same and Choptal.

40.66 East on a random line bet. Secs. 8 and 17. To a point 25 ins. South of old 1/2 sec. cor. which is a partially decayed post in rock mound. I set a new post 3/4 ft. long 3/4 ins. sq. with marked stone 24 ins. in the ground. Marked 1/2 S. on N. face and rebuilt the mound of stone 3/4 ft. base 1 1/2 ft. high W. of cor. This is impracticable. Thence, I ran, S. 89° 40' W. on a true line Descend in Choptal. Cross Creek 5 ins. wide, in deep canon 4.35

A white oak 30 ins. diam.  
Bears N. 69° E 55 lks. dist.  
Marked  
W.O. 1/2 S.N.T.  
No other trees within limits.  
This witness corner is 1.00 chs. S. 0° 1' E of proper point  
for corner and on top of high hill.  
Descend.

15.76 Ascend through Temple Oil Mine  
Intersect North line of Temple Oil Mine and South line of  
Temple Oil Mine known location  
5.75 chs. West of S.E. cor.  
Top of Spur trends S.E. + 300 ft. above Sec. Cor. and continues  
Ascent.  
As the proper point for Sec. Cor. fall on steep side hill,  
not a suitable place for corner,  
I set a live oak post 3 ft. long 3 ins. sq. with  
marked stone 24 ins. in the ground for  
Witness to Sec. Cor.  
Marked W.O. 1/2 S. on W. face, dug pit  
18 inches ins. N. and S. of post 3 ft. dist. and raised a  
mound of earth 3/4 ft. base, 1 1/2 ft. high, W. of cor.  
from which,
