REMARKS

The land East of the Rancho Los Nogales in this fracl. Township is hilly and broken, but has good grazing. There is a strip of land along the Eastern Boundary of the Rancho Los Nogales about 8 chs. wide, which is good arable land of first quality soil. The same may be said of the land lying between the East line of Rancho La Puente and the Western Boundary of Rancho Los Nogales. The N.W. corner of the Township, the land is sandy and covered with a growth of sage.  
Soil 2nd rate.  
The N.E. portion is undulating table land, with soil 1st rate.
