

DEPARTMENT RESURVEY OF THE  
SOUTH BOUNDARY OF FRAGMENTAL  
T. 9 N., R. 16 W.

J. S. 0408.

Book G  
Pages 2-9  
Wm. F. Jeller  
April 1934

Copied from notes on file at the United States Cadastral Engineer's Office, Glen Dale. Copied and compared by A. O. Johnson and W. H. Blackmer, June 22, 1936.  
1/26/2005

N.B. The WC monuments set in 1934 were relocated also in 1934 to positions in close proximity to the County Surveyor's monuments as of this date, the Blm can find no evidence that the monuments were moved, NOR the reason why.

DEPENDENT RESURVEY OF THE SOUTH BOUNDARY  
OF FRACTIONAL T. 9 N., R. 16 W.

CERTIFICATE OF APPROVAL

Office of U.S. Supervisor of Surveys  
Denver, Colorado, May 24, 1935.

The foregoing field notes of the dependent resurvey of the  
boundary of Rancho La Lobera, from Cor. #17 to Cor. #26; dependent  
resurvey of the exterior and subdivisional lines of T. 9 N., R. 16 W.  
of S. B. M., in State of California

Executed by (William T. Teller) U.S. Transmitter under special  
instructions dated Nov. 16, 1933, having been critically examined  
and the necessary corrections made prior to their certification  
by the engineer, the said field notes and the resurvey therein  
described are hereby approved.

Frank M. Johnson

DEPENDENT RESURVEY OF THE SOUTH BOUNDARY  
OF FRACTIONAL T. 9 N., R. 16 W.

This line was originally surveyed by Deputy R. W. Norris

in 1855. In 1855 Deputy Norris made a resurvey of the line.

In 1931 the line, at the time a part of the boundary between Los

Angeles and Kern Counties, was surveyed by the engineers of the

Los Angeles Co. Surveyor's Office.

From the corner of Township 8 & 9 N., R. 15 & 16 W.

West on a random line between Township 8 & 9 N., R. 16 & 17 W.,

searching for evidence of the Norris survey and setting temporary

quarter corner and section corners, at the record distance therefore,

I find no trace of the survey or the corners thereof to,

A point 5.12 chains North of the quarter section corner of 5 & 32 845.67

T. 8 & 9 N., R. 17 W., which is an old earth mound from which

A cottonwood 40 inches in diameter bears N. 10° 00' W. 5.68

chains distant. The markings are rotted out. A seep, no flowing

water, bears S. 26° 00' W. about 6 chains distant. (Record calls

for spring).

The corner to Sections 19, 24, 25, 30 on the line between

Township 8 N., R. 16 & 17 W. is a concrete monument 6 inches

square at surface of the ground, with a brass tablet 3 inches

in diameter marked

LOS ANGELES CO.  
T. 8 N.  
8 24 | 8 19  
8 25 | 8 30

This monument was set in place of the stone corner of Sections

19, 24, 25 & 30 and is accepted as the corner, whence I ran North on

a random line between T. 8 & 9 N., R. 16 & 17 W. searching for evidence

of the original survey, and setting temporary corners at the record

distances for the corners of the original survey. I find no trace

of the original survey to,

A point 5.12 chains East of the point at 18.00 chains between

Sections 1 and 6 T. 9 N., R. 16 & 17 W., as described in the record of

the original survey, which point is marked with an old stone mound,

740.21

DEPENDENT RESURVEY OF THE SOUTH BOUNDARY  
OF FRACTIONAL T. 9 N., R. 16 W.

from which

A pinon, 28 inches in diameter bears S. 81° 30' E. 62 links

distant, marked IX XVI XVIII B 1

A pinon 20 inches in diameter bears S. 6° 30' W. 83 links

distant, marked IX XVII XVIII B 1

The proportionate point for the corner of T. 8 & 9 N., R. 16 W., as based upon the retracements described above, falls within 4 links of the corner of the same T. 8 & 9 N., R. 16 & 17 W., as established by L. A. Co. Inasmuch as this corner has been used in locating numerous claims to the South, and in view of the slight variation of the two points, I accept this corner, as established by L. A. Co. as the corner of Township 8 & 9 N., R. 16 & 17 W. Retracement of the South boundary of T. 9 N., R. 16 W. shows the proportionate points for the 1/2 section and section corners thereon to be occupied by substantial monuments, bearing brass tablets, marked and described by Los Angeles County Surveyor's Office. These monuments, set at the proportionate points become the corners of the sections for which they are marked. Witnesses corners, hereinafter described were established at each 1/2 section and section corner.

From the corner of Township 8 & 9 N., R. 15 & 16 W. which is a concrete monument 10 inches square, set to ground level, and occupying the position of the original corner of T. 8 & 9 N., R. 15 & 16 W. with a brass tablet 3 inches in diameter marked

KERN CO.  
T. 9 N.  
R. 15 W. | R. 16 W.  
S. 11 | S. 12  
LOS ANGELES CO.

Lying at the surface of the ground, alongside the monument are several pieces of the old mesquite stake.

DEPENDENT RESURVEY OF THE SOUTH BOUNDARY  
OF FRACTIONAL 1/9 N., R. 16 W.

For description of witness corner see notes of East boundary

of section 36.

Thence from the corner

S. 69° 54' W. on a true line between Sections 1 and 36.

Over nearly level desert through mesquite and low sage.

18.40 Foot road bears Northeast and Southwest

40.25 Set an iron post 3 ft. long, 1 inch in diameter, 30 inches in the

Ground for a witness 1/2 section corner with brass cap marked

1/2 0 1/2  
1/2 8 1/2  
1934

raised a mound of stone,

3 ft. base, 2 ft. high, north of corner.

40.27 The 1/2 section corner at the proportionate point

A concrete monument 6 inches square, set to ground level

with a brass tablet 3 inches in diameter, marked

KERN CO.

DEPARTMENT RESURVEY OF THE SOUTH BOUNDARY  
OF FRACTIONAL T. 9 N., R. 16 W.

At a point west 6 links distant set an iron post 3 ft. long,  
3 inches in diameter, 30 inches in the ground, for the witness corner  
of Township 8 & 9 N., R. 16 & 17 W.; with a brass cap marked

T 9 N	
R 17 W	R 16 W
S 36	S 31 W
S 1	S 0 0
1934	

Raised a mound of stone 4 ft. base, 3 1/2 ft. high, South of  
corner.  
Land, nearly level.  
Soil, loam, rocky in places; 2nd rate.  
Timber, none; undergrowth, sage, mesquite.

DEPENDENT RESERVEWAY OF EAST BOUNDARY OF  
T. 9 N., R. 16 W.

This line was originally surveyed by Deputy R.W. Morris

in 1855.

from the corner of Townships 8 & 9 N., R. 15 & 16 W., as

hereinafter described.

North on a random line between sections 31 & 36.

39.94 A point 17 links East of the  $\frac{1}{2}$  section corner. Thence from  $\frac{1}{2}$  Sec. Cor.,

North on a random line between sections 31 and 36 and sections 25 & 30.

119.64 A point 60 links East of the corner of sections 19, 24, 25 & 30.

Return to the corner of Townships 8 & 9 N., R. 15 & 16 W.; thence

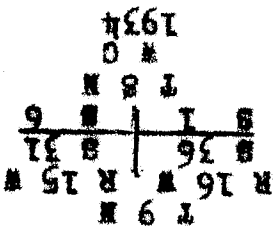

North  $0^{\circ} 15'$  West on a true line between sections 31 and 36.

Over nearly level desert, through sage and mesquite.

0.06 Set an iron post 3 ft. long 3 inches in diameter, 30 inches in the

ground, for the witness corner of T. 8 & 9 N., R. 15 & 16 W., with brass

cap marked

Raised a mound of stone

3 ft. base, 2 1/2 ft. high, west of corner.

8.60 Poor road, bears N. 60 $^{\circ}$  E. and S. 60 $^{\circ}$  W.

39.94 The  $\frac{1}{2}$  section corner of sections 31-36, a badly decayed juniper

stake, 3 inches square, 1 ft. long, bearing the markings  $\frac{1}{2}$  S

lying in old mound of stone.

In the center of old mound in place of stake

Set an iron post 3 ft. long, 1 inch in diameter, 28 inches in ground,

with old juniper stake alongside, for the  $\frac{1}{2}$  section corner, with

brass cap marked

Raised a mound of stone

3 ft. base, 2 ft. high, west of corner.
