SURVEY No. 6627

This survey was made with a C. L. Berger & Sons transit No. 28625, with horizontal limb 5 ins. diam., having two double opposite verniers, and full vertical circle 5 ins. diam., having one double vernier; the verniers read to one minute of arc. The instrument was in good condition at the time of the survey and all adjustments were in good order.

All azimuths in this record were determined by the method of deflection angles referred to the meridian determined by the following observation:

September 12, 1957, at a point about 900 ft. southwesterly of the NW. cor. of sec. 28, T. 5 N., R. 14 W., S.B.M., in latitude $34^{\circ}29'30''$ N. and longitude $118^{\circ}21'30''$ W., I make a series of six observations upon Polaris for azimuth, three each with the telescope in direct and reversed positions, observing the star at eastern elongation, and reading the horizontal angle from a point on a base line approximately 300 ft. dist., northward NW. to Polaris.

Mean time of observation, 120th meridian standard time	=	8h25m p.m.
Declination at mean time of observation	=	$89^{\circ}03'49.27''$
Mean horizontal angle from reference point to Polaris	=	$34^{\circ}55'30''$
True bearing to reference point	=	N. $36^{\circ}03'40''$ E.

The lines were measured with a Lufkin steel tape 500 feet in length, graduated to hundredths throughout, and a Lufkin steel tape 100 feet in length, graduated to hundredths throughout; both tapes were known to be correct at the time of beginning the survey.

All lines and connections of this survey were run by direct methods as shown by the calculation sheets herewith submitted.

The magnetic declination observed at each corner of the survey gave a uniform value of 15° E.

Feet

OVERSIGHT NO. 2 EXTENSION LODGE

Beginning at Cor. No. 1 of the Oversight No. 2 Extension lode.

Set an iron post, 16 ins. long, 2 ins. diam., 12 ins. in the ground, surrounded by a mound of stone, with brass cap mkd. 02E-1-6627; from which

The point for the original public land survey corner of secs. 20, 21, 28, and 29, T. 5 N., R. 14 W., S.B.M., identical with Cor. No. 1 Sur. No. 6068 Enterprise lode, bears N. $76^{\circ}32'$ W., 2890.77 ft. dist.

Point for $\frac{1}{4}$ sec. cor. of secs. 28 and 21, T. 5 N., R. 14 W., S.B.M., as established by the County Surveyor of Los Angeles County, a circular brass plate, 3 ins. diam., embedded in concrete, and properly marked, bears N. $0^{\circ}26'$ E., 601.75 ft. dist. (This position for the $\frac{1}{4}$ sec. cor. is not recognized by the Bureau of Land Management as having been properly established.)

No other local bearing objects or bearing trees available.

LOCATION

This survey is located in the NW $\frac{1}{4}$ and NE $\frac{1}{4}$ sec. 28, T. 5 N., R. 14
W., San Bernardino Meridian.

The survey of the Oversight Extension No. 2 lode is identical with
the amended location as marked on the ground.

EXPENDITURES

The improvements and the value of the labor and improvements made
upon or for the benefit of the lode location embraced in said mining
claim by the claimants or their grantors are as follows:

- No. 1 The discovery point of the Oversight No. 2 Extension lode is marked
by a stone monument, 2 ft. diam. at base and 2 ft. high, in which is
posted a copy of the amended location certificate, is on the lode
line 58 ft. from a point on line 3-4 300 ft. from Cor. No. 3.
No value.
- No. 2 A shaft, the center of which bears N. 75°10' W., 470 ft. from Cor.
No. 2 Oversight No. 2 Extension lode; 5x6 ft., 18 ft. deep.
Value, \$120.
- No. 3 A core drill hole, the center of which bears S. 70°45' E., 654 ft.
from Cor. No. 4 Oversight No. 2 Extension lode; 2 ins. diam., 64 ft.
deep.
Value, \$192.
- No. 4 A core drill hole, the center of which bears S. 75° W., 570 ft. from
Cor. No. 1 Oversight No. 2 Extension lode; 2 ins. diam., 80 ft. deep.
Value, \$240.
- No. 5 A core drill hole, the center of which bears S. 19°49' W., 62 ft.
from Cor. No. 1 Oversight No. 2 Extension lode; 2 ins. diam., 80 ft.
deep.
Value, \$240.
