

**DOUBLE SCALE**

- 1. Use Standard Masonry Frames and Cuts - 3-8-117
- 2. Use Standard Strength Pipe, except as noted.
- 3. Use Concrete Manhole for all Manholes except as noted.
- 4. Resurface all trench within Fixed Area to meet L.A. County Road Dept. requirements.
- 5. Enter all spots at ponds, at manholes, with Files, as per 5-8-117.
- 6. All structures shall be Brick Sewer Structures, 5-8-104.
- 7. H.C.'s to be constructed with masonry of Property Line 5' below curb grade, unless so noted.

Note: Sanitation District must be notified before work can start.

Note:  
No representative of the County Engineer will survey or lay out any portion of this work. The survey or any necessary representation shall be done by the County Engineer or his assistants and Stationers, as at these Connections and Y-Branches, and shall provide stakes for them at their proper locations, with stationing plainly marked. Any change of location shall be requested in writing by the owner, and shall be subject to the approval of the County Engineer. No revisions shall be made on these Plans without approval of the County Engineer. Approval of this plan by the County Engineer does not constitute a representation as to the accuracy of the location of the sewer or any structures or any underground utility, and no structure shall be built or any dig made without the approval of the County Engineer.
