

BELFLOWER

(1) Use Standard Manhole Frame & Cover 5'-0" Ht.
 (2) Use Standard Strength Pipe (except as noted)
 (3) Use Cement Mortar for all vitrified clay pipe joints
 (4) Surface 27' trench within 7' of trench to meet Los Angeles County Road Department of California State Highway Requirements
 (5) All structures shall be brick, Dwyer Structures 5'-10"
 (6) 4'-0" x 4'-0" sewer at points of interference with water pipes 5'-10"
 (7) Stoppers to be installed with joint compound by manufacturer of its plant Specs. Sec. 3348
 (8) Concrete manholes to be cast and less than 2' in depth with concrete Sew. Specs. Sec. 65
 (9) Existing House Connections with invert of property line 5' feet below curb grade (except as noted)

NOTES:
 No representation of the County Engineer will sweep or level any portion of the work.
 The owner or his authorized representative shall furnish the County Engineer with good sheets and stations of all House Connections and Y Branches and shall provide station locations of these connections with stations plainly marked. Any change of location shall be requested in writing by the owner with representation.
 No revision shall be made to these plans without approval of the County Engineer.
NOTE:
 Provide stakes on the property lines or property lines produced at right angles to the sewer line at the center line of each manhole.
 Install wire 4 tags per Specs. Sec. 48.

NOTE:
 Grades to which this improvement is to be constructed are shown on Plans and Profile. Grade points for top of curb, center line of street, or center line of alley are shown by circles on profiles of all points between designated points the grade shall be established so as to conform to a straight line drawn between said designated points. Elevation are in feet above U.S.G.S. Datum or Mean Sea Level. These drawings and the data hereon are hereby made apart of the specifications. Work shall be constructed according to specifications on file in the office of the County Engineer and shall be prosecuted only in the presence of the County Engineer. Before work can be started the contractor must obtain a permit to excavate in County Streets from the L.A. County Road Department, 108 W. 2nd St. and make a deposit with the County Engineer, 818 L.A. County Engineering Bldg. sufficient to cover the cost of construction, inspection and record plans. Approval of this plan by the County of Los Angeles does not constitute a representation as to the accuracy of the location of, or the existence or non-existence of any underground utility pipe or structure within the limits of this project.
