SEE PLAN NO. S-a-64

Before breaking into any existing structure and before final acceptance of this work, County Sanitation District should be notified in order that required inspection may be made.

NOTE: Grades to which this improvement is to be constructed are shown on Plans and Profile. Grade points for top of curb, center line of street or center line of alley are shown by circles on profiles. At all points between designated points the grade shall be established so as to conform to a straight line drawn between said designated points. Elevations are in feet above U.S.G.S. Datum or mean sea level. This drawing and the data hereon are hereby made a part of the Specifications. Work shall be constructed according to Specifications on file in the office of the County Engineer and shall be prosecuted only in the presence of the County Engineer. Before work can be started, the contractor must obtain a permit to excavate in county streets from the L.A. County Road Department, 211 So. Main Street, and make a deposit with the County Engineer, 828 L.A. County Engineering Bldg., sufficient to cover the cost of construction inspection and record plans. If work is to be done in a State Highway, a permit must be obtained from the State of California, Division of Highways, 420 So. Spring Street after making the deposit with the County Engineer. Approval of this plan by the County of Los Angeles does not constitute a representation as to the accuracy of the location of, or the existence or non-existence of any underground utility, pipe or structure within the limits of this project.
