PRIVATE CONTRACT No. 4459

Elevations are in feet above U. S. C. & G. S. Sea Level Datum of 1929.
This Drawing and the data herein are hereby made a part of the specifications.
Work shall be constructed according to specifications on file in the office of the County Engineer and shall be proceeded only in the presence of the County Engineer.
Before work can be started, the contractor must obtain a permit to excavate in County street from the L. A. County Road Department, 108 West Second Street and a permit to cover construction excavation and second plans from the County Engineer, Room 324, 253 South Broadway.
If work is to be done in a city's highway, a permit must be obtained from the City of Los Angeles, 215 West 1st Street, 473 South Spring Street.
Approval of the work by the County of Los Angeles does not constitute a representation as to the accuracy of the location, or the presence or non-presence of, any underground utility, wire, or structure within the limits of this project.
Note:
No representative of the County Engineer will survey or layout any portion of the work.
All locations shall be made in these plans without approval of the County Engineer.

1. Use standard manhole frames and covers, S-117, except as noted.
2. Use standard strength pipe, except as noted.
3. Use cement mortar for all vitrified clay pipe joints.
4. Resurface all trench within paved area to meet L. A. County Road Department or California State Highway requirements, as applicable with detail.
5. Excavate four feet of sewer at point of intersection with pipe as per Sp-119.
6. All structures shall be built under Plans No. 104, except as noted.
7. For allowable bearing use Formula No. 1, Sp-119, Sec. 54.

NOTE:
THE CONTRACTOR SHALL NOTIFY THE CONSTRUCTION AND STORM DRAIN DIVISION BY TELEPHONE, HANSSON 9 4747, EXT. 367, AT LEAST 24 HOURS BEFORE STARTING ANY WORK UNDER THIS CONTRACT.
