1/4 SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 300-41A
SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1928 by proportion 3 miles north, 1 mile south, 1 mile west and 1 mile west. See C.S. 8732 and F.B. 300-82, 115, 116, 118
1/4 SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 300-116
SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1928 in the location of the old original mesquite bored hub found lying on the ground. See F.B. 300-101, 108, 116, 117
1/4 SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1928 in the location of the old original notched mesquite stake found lying on the ground with its point still in place & replaced the point of the original stake with a 1/2" slate - See F.B. 102-67-77 the 1/2" slate was replaced with the present monument in 1928 F.B. 300-117
SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1927 by proportion 3 miles north and 1 mile south - See C.S. 8732 and F.B. 300-70, 71
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 300-82
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 replacing the old original mesquite stake found standing rock mound and an old original section corner. See F.B. 300-107
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1927 by proportion 3 miles north and 1 mile south - See C.S. 8732 and F.B. 102-70, 116 F.B. 300-70 — F.B. 243-93, 138
1/4 SECTION CORNER
By proportion between adjacent Section Corners set 2" iron pipe in concrete 12" below surface. See F.B. 487-134
SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked. In 1916 the Co. Road Dr. found the original section stone described here. Early F.E. Slate broke 11" long & 3" wide & 1" thick in 1916 replaced with the present monument. See F.B. 300-81, 82 F.B. 487-134
SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 replacing the old original section stone found standing rock 2 1/2 ft. high & 2 ft. wide & 1 ft. thick on west face. See F.B. 300-106, 107
SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1927 by proportion 3 miles north and 1 mile south - See F.B. 243-93, 138
1/4 SECTION CORNER
By proportion between adjacent Section Corners set 2" iron pipe in concrete 12" below surface. See F.B. 487-134
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 300-81
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners See F.B. 300-106
Found 2" iron pipe set in concrete This pipe was set in 1921 by Co. Surveyor by proportion for the W. Section Corner - See F.B. 65-20 In 1928 it was found to be 2.3' out of proportion between adjacent Section Corners & so it was removed and reset 3.3' south of here F.B. 300-69
SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1927 by proportion 3 miles north and 1 mile south - See F.B. 65-20 - F.B. 300-68, 69 — F.B. 243-93, 115
1/4 SECTION CORNER
By proportion between adjacent Section Corners set 2" iron pipe in concrete in 1928 - F.B. 300-68 F.B. 243-93
1/4 SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 487-134
SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 in the location where the old original sandstone corner stake was found lying on the ground - See F.B. 300-82, 115, 116, 118
1/4 SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 300-82
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners See F.B. 300-81
SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion 2 miles east, 1 mile west - See F.B. 300-66, 80 F.B. 487-135
1/4 SECTION CORNER
Found 2" iron pipe set in concrete, This monument was set in 1921 by the Co. Surveyor by proportion 1/2 miles east and 1/2 miles west - See F.B. 300-64 F.B. 487-135
SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked. This monument was set in 1921 by proportion 1 mile east and 2 miles west See F.B. 65-17 and F.B. 300-66, 67 — F.B. 487-135
1/4 SECTION CORNER
A 2" iron pipe set in concrete This monument was set by Co. Surveyor in 1921 by proportion 1/2 mile east and 2 1/2 miles west See F.B. 65-19 — F.B. 300-67
TOWN SHIP CORNER
A 3" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1921 by proportion 3 miles north, 3 miles south, 3 miles east and 3 miles west See C.S. B-837-2 and F.B. 65-20 F.B. 300-66, 124 — F.B. 243-93
1/4 SECTION CORNER
By proportion between adjacent Section Corners, Set 2" iron pipe in concrete in 1928 F.B. 300-69 — F.B. 243-93
Set iron stake — F.B. 487-130
The above monument found obliterated by road under and cob stone in Nov. 1941. Replaced same Nov. 18, 1941 with a 2" iron pipe set in concrete 12" below surface with brass cap marked F.B. 811-162.
Found 2" iron pipe set in concrete with brass cap marked. This monument was set in 1921 by Co. Surveyor by proportion 2 miles east, 1 mile west - See F.B. 65-17 and F.B. 300-64, 80 F.B. 487-135
1/4 SECTION CORNER
By proportion between adjacent Section Corners, Set 2" iron pipe in concrete 12" below surface with brass cap marked. F.B. 487-134
Found 2" iron pipe set in concrete with brass cap marked. This monument was set in 1916 by Co. Surveyor by proportion 2.8 miles east, 1 mile north, 1 mile west. See F.B. 65-17 This monument was found 0.1' south of the true position of the corner. Re-established F.B. 811-162
1/4 SECTION CORNER
By proportion between adjacent Section Corners, Set 2" iron pipe in concrete 12" below surface with brass cap marked. F.B. 811-162
1/4 SECTION CORNER
By proportion between adjacent Section Corners, Set 2" iron pipe in concrete 12" below surface with brass cap marked. In 1916 the Co. Surveyor by proportion 2.8 miles east, 1 mile north, 1 mile west - See F.B. 65-17 This monument was found 0.1' south of the true position of the corner. Re-established F.B. 811-162
1/4 SECTION CORNER
By proportion between adjacent Section Corners, Set 2" iron pipe in concrete 12" below surface with brass cap marked. F.B. 487-134
1/4 SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 300-41A
SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1928 by proportion 3 miles north, 1 mile south, 1 mile west and 1 mile west - See C.S. 8732 and F.B. 300-82, 115, 116, 118
1/4 SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 300-116
SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1928 in the location of the old original mesquite bored hub found lying on the ground with its point still in place & replaced the point of the original stake with a 1/2" slate - See F.B. 102-67-77 the 1/2" slate was replaced with the present monument in 1928 F.B. 300-101, 108, 116, 117
1/4 SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 300-116
SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1927 by proportion 3 miles north and 1 mile south - See C.S. 8732 and F.B. 300-70, 71
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 300-82
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 replacing the old original mesquite stake found standing rock mound and an old original section corner. See F.B. 300-107
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1927 by proportion 3 miles north and 1 mile south - See C.S. 8732 and F.B. 102-70, 116 F.B. 300-70 — F.B. 243-93, 138
1/4 SECTION CORNER
By proportion between adjacent Section Corners set 2" iron pipe in concrete 12" below surface. See F.B. 487-134
SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked. This monument was set in 1916 by the Co. Road Dr. found the original section stone described here. Early F.E. Slate broke 11" long & 3" wide & 1" thick in 1916 replaced with the present monument. See F.B. 300-81, 82 F.B. 487-134
SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 replacing the old original section stone found standing rock 2 1/2 ft. high & 2 ft. wide & 1 ft. thick on west face. See F.B. 300-106, 107

A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1927 by proportion 3 miles north and 1 mile south - See F.B. 243-93, 138
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 487-134
1/4 SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 300-82
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners See F.B. 300-81
SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion 2 miles east, 1 mile west - See F.B. 300-66, 80 F.B. 487-135
1/4 SECTION CORNER
Found 2" iron pipe set in concrete, This monument was set in 1921 by the Co. Surveyor by proportion 1/2 miles east and 1/2 miles west - See F.B. 300-64 F.B. 487-135
SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked. This monument was set in 1921 by proportion 1 mile east and 2 miles west See F.B. 65-17 and F.B. 300-66, 67 — F.B. 487-135
1/4 SECTION CORNER
A 2" iron pipe set in concrete This monument was set by Co. Surveyor in 1921 by proportion 1/2 mile east and 2 1/2 miles west See F.B. 65-19 — F.B. 300-67
TOWN SHIP CORNER
A 3" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1921 by proportion 3 miles north, 3 miles south, 3 miles east and 3 miles west See C.S. B-837-2 and F.B. 65-20 F.B. 300-66, 124 — F.B. 243-93
1/4 SECTION CORNER
By proportion between adjacent Section Corners, Set 2" iron pipe in concrete in 1928 F.B. 300-69 — F.B. 243-93
Set iron stake — F.B. 487-130
The above monument found obliterated by road under and cob stone in Nov. 1941. Replaced same Nov. 18, 1941 with a 2" iron pipe set in concrete 12" below surface with brass cap marked F.B. 811-162.
Found 2" iron pipe set in concrete with brass cap marked. This monument was set in 1921 by Co. Surveyor by proportion 2 miles east, 1 mile west - See F.B. 65-17 and F.B. 300-64, 80 F.B. 487-135
1/4 SECTION CORNER
By proportion between adjacent Section Corners, Set 2" iron pipe in concrete 12" below surface with brass cap marked. F.B. 487-134
1/4 SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 300-41A
SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1928 by proportion 3 miles north, 1 mile south, 1 mile west and 1 mile west - See C.S. 8732 and F.B. 300-82, 115, 116, 118
1/4 SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 300-116
SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1928 in the location of the old original mesquite bored hub found lying on the ground with its point still in place & replaced the point of the original stake with a 1/2" slate - See F.B. 102-67-77 the 1/2" slate was replaced with the present monument in 1928 F.B. 300-101, 108, 116, 117
1/4 SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 300-116
SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1927 by proportion 3 miles north and 1 mile south - See C.S. 8732 and F.B. 300-70, 71
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 300-82
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 replacing the old original mesquite stake found standing rock mound and an old original section corner. See F.B. 300-107
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1927 by proportion 3 miles north and 1 mile south - See C.S. 8732 and F.B. 102-70, 116 F.B. 300-70 — F.B. 243-93, 138
1/4 SECTION CORNER
By proportion between adjacent Section Corners set 2" iron pipe in concrete 12" below surface. See F.B. 487-134
SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked. This monument was set in 1916 by the Co. Road Dr. found the original section stone described here. Early F.E. Slate broke 11" long & 3" wide & 1" thick in 1916 replaced with the present monument. See F.B. 300-81, 82 F.B. 487-134
SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 replacing the old original section stone found standing rock 2 1/2 ft. high & 2 ft. wide & 1 ft. thick on west face. See F.B. 300-106, 107
SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1927 by proportion 3 miles north and 1 mile south - See C.S. 8732 and F.B. 243-93, 138
1/4 SECTION CORNER
By proportion between adjacent Section Corners set 2" iron pipe in concrete 12" below surface. See F.B. 487-134
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 300-81
1/4 SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners See F.B. 300-106
Found 2" iron pipe set in concrete This pipe was set in 1921 by Co. Surveyor by proportion for the W. Section Corner - See F.B. 65-20 In 1928 it was found to be 2.3' out of proportion between adjacent Section Corners & so it was removed and reset 3.3' south of here F.B. 300-69
SECTION CORNER
A 2" iron pipe set in concrete with brass cap marked. This monument was set in 1927 by proportion 3 miles north and 1 mile south - See F.B. 65-20 - F.B. 300-68, 69 — F.B. 243-93, 115
1/4 SECTION CORNER
By proportion between adjacent Section Corners set 2" iron pipe in concrete in 1928 - F.B. 300-68 F.B. 243-93
1/4 SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked. This monument was set in 1928 by proportion between adjacent Section Corners - See F.B. 487-134

SECTION CORNER
Found spike & tin, set cover & 2" iron pipe 12" below surface - This note set by Bond Dept in 1928 - by proportion a mile north & 3 miles south - See Road Dept FB FR 137-141,225 FB 487-210 — 156 FB 487 — 157

Found 6"x6" concrete monument Set by Co Rd Dept - FB 487-156

Set 1/2" x 8" stake - FB 487-156

1/4 SECTION CORNER
By proportion between adjacent Section Corners - Set 2" iron pipe in concrete with brass cap marked — FB 487-158

SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked — This monument to be set below surface - The Co. Rd. Dept in 1918 set a 2" iron pipe here by proportion 3/4 mile north and 3 miles south - See Rd Dept FB FR 137-221,225 - The tin Dept corn was replaced with the present monument in 1927 - See FB 487-124,131,136

Found two 3/4" reinforcing steel rods set in concrete 12" below surface - The Road Dept in 1918 found a piece of ornamental iron ore mound, hoop over which set the tack - See Rd Dept FB FR 137-121 — FB 487 — 139

Set 1/2" x 8" stake - FB 487-158

1/4 SECTION CORNER
By proportion between adjacent Section Corners - Set 2" iron pipe in concrete with brass cap marked — FB 487-160

SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked — The Co. Road Dept in 1918 set a 2" iron pipe here by proportion 3/4 mile north and 3 miles south - See Rd Dept FB FR 137-221 - The Rd Dept corn was replaced with the present monument in 1927 - See FB 102-72 — FB 487-159,161,162

Set 1/2" x 8" stake - FB 487-159

1/4 SECTION CORNER
Found 2" x 2" x 6" reference stone for the County Surveyor's 1/4 corn on the line between Secs 5 & 32 - The corn was established by the Co. Road Dept in 1918 by proportion between adjacent Section Corners - See FB 102-73 — FB 487-162

Set 1/2" x 8" stake - FB 487-159

(12' x 16') 1 story frame house - Not shown in notes of Road Dept Survey of 1918 per Rd Dept FB 137-221 Evidently built after Township Line was established in 1918

1/4 SECTION CORNER
Found 3" x 3" reference stone for the corn on the line between Secs 5 & 32 - The corn was established by the Co. Road Dept in 1918 by proportion between adjacent Section Corners - See FB 102-74 — FB 487-163

Set 1/2" x 8" stake — FB 487-159

1/4 SECTION CORNER
A 2" iron pipe set in concrete by the County Surveyor in 1923 by proportion 1/3 mile east & 1/3 mile west — See FB 16-25

ROCKY BUTTES

TOWN SHIP CORNER
Found 2" iron pipe set in concrete with brass cap marked — The Co. Road Dept in 1918, found the original Scribed Charred stake standing in place here and replaced it with a 2" iron pipe and built mound at earth & rock outcrop base - See Rd Dept FB FR 137-219 - The Rd Dept pipe was replaced in 1925 with the present monument - See FB 54-14 — This corner falls on the north east corner of Rocky Butte — FB 487 — 149

SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked, - Set in 1923 by proportion 1 mile east & 1 mile west - See FB 54-28 FB 487-159,162

Found 5/8" x 24" Rebar with plastic cap stamped "LS 5330" 0.2' above ground, 0.2' East of fence line

Found 5/8" x 24" Rebar with plastic cap stamped "LS 5330" 0.2' above ground, 0.2' East of fence line

SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked - The Co. Road Dept in 1918, found the original 24" x 6" stone here and replaced it with a 2" iron pipe set in the original hole to the pipe - See Rd Dept FB FR 137-122 - The Rd Dept pipe was replaced with the present monument in 1923 - See FB 209-60 — FB 300-74,84

1/4 SECTION CORNER
A 2" iron pipe set in concrete 12" below surface with brass cap marked - The Co. Road Dept in 1918 found the original 24" x 6" stone here and replaced it with a 2" iron pipe set in the original hole to the pipe - See Rd Dept FB FR 137-122 - The Rd Dept pipe was replaced with the present monument in 1923 - See FB 209-60 — FB 300-74,84

1/4 SECTION CORNER
A 2" iron pipe set in concrete 12" below surface, set in 1918 by the Co Road Dept by proportion between adjacent Section Corners - Set 2" iron pipe set in concrete with brass cap marked, "1/4 1918" - Mound 4' east of corner - 4" dia x 3' thick iron slag with brass cap marked — FB 410-175

SECTION CORNER
Found 2" iron pipe set in concrete 12" below surface with brass cap marked, - Set in 1918 by the Co Road Dept by proportion between adjacent Section Corners - Set FB 137-193 and FB 290-17 - Mound 2" iron pipe replaced in 1923 - Mound removed in 1927 - See FB 209-60 & FB 300-74,112 — See FB 487-146,150

Found 6"x6" concrete monument Set by Co Rd Dept - FB 487-146

Found 6"x6" concrete monument Set by Co Rd Dept — FB 487-146

1/4 SECTION CORNER
By proportion between adjacent Section Corners - Set 2" iron pipe in concrete 12" below surface with brass cap marked — FB 487-157

Set spike and tin - FB 487-146

Set spike, washer & tin on pavement midway between the Rd Dept monuments This corner was lost in addition in 1918 by Co Rd Dept by proportion between adjacent Section Corners The 4 witnesses found, spike set as witnesses to it - See Rd Dept FB FR 137-203 — FB 487-131

Found 6"x6" concrete monument Set by Co Rd Dept - FB 487-131

SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked, The Co. Rd. Dept in 1918 found the original stake in good condition buried in sand here and replaced it with a 2" iron pipe - See Rd Dept FB FR 137-199 — The Rd Dept pipe was replaced with the present monument in 1927 - See FB 102-74 — FB 487-148,151,152,161

1/4 SECTION CORNER
Found 2" iron pipe set in concrete 12" below surface with brass cap marked - See FB 108-57 — FB 487-167

1/4 SECTION CORNER
By proportion between adjacent Section Corners - Set 2" iron pipe in concrete with brass cap marked — FB 487-160

1/4 SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked, - Set in 1923 by proportion 1 mile east & 1 mile west - See FB 54-28 FB 487-159,162

1/4 SECTION CORNER
Found 2" iron pipe, stub & tack set by Co Rd Dept in 1918 by proportion 1 mile north, 2 miles south, 2 miles west - See Rd Dept FB FR 137-203 - Replaced by Rd Dept pipe with 2" iron pipe set in concrete 12" below surface with brass cap marked — FB 487-148,151,152

SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked - Set in 1923 replacing a 2" iron pipe found with the original stake lying here with accepted the mound for the corner - They are probably set like a iron pipe, although it is not shown in their field notes - See Rd Dept FB FR 137-215 This monument found reset to 16" below the surface — FB 487-141

1/4 SECTION CORNER
Found 2" iron pipe, stub & tack set by Co Rd Dept in 1918 by proportion 1 mile north, 2 miles south, 2 miles west - See Rd Dept FB FR 137-203 - Replaced by Rd Dept pipe with 2" iron pipe set in concrete 12" below surface with brass cap marked — FB 487-148,151,152

1/4 SECTION CORNER
By proportion between adjacent Section Corners - Set 2" iron pipe in concrete 12" below surface with brass cap marked — FB 487-152

SECTION CORNER
Found 2" iron pipe, plug & tack set by Co Rd Dept in 1918 by proportion 1 mile north, 2 miles south, 2 miles west - See Rd Dept FB FR 137-203 - Replaced by Rd Dept pipe with 2" iron pipe set in concrete 12" below surface with brass cap marked — FB 487-148,151,152

1/4 SECTION CORNER
By proportion between adjacent Section Corners - Set 2" iron pipe in concrete 12" below surface with brass cap marked — FB 487-147

Found 6"x6" concrete monument Centered with cut spike set by Co. Road Dept — FB 487-136

Found 6"x6" concrete monument Set by Co Rd Dept — FB 487-131

Found 2" iron pipe, plug & tack, Set by Co. Road Dept in 1927 not set for the 1/4 Corner - See Rd Dept FB FR 210-19 — This pipe removed by the Co. Surveyor FB 487-132

Set 1/2" x stake - FB 487-152

SECTION CORNER
Found 2" iron pipe set in concrete 12" below surface with brass cap marked - Set 2" iron pipe in concrete 12" below surface with brass cap marked — FB 487-145

1/4 SECTION CORNER
By proportion between adjacent Section Corners - Set 2" iron pipe in concrete 12" below surface with brass cap marked — FB 487-144

SECTION CORNER
Found 2" iron pipe, plug & tack set in concrete 12" below surface with brass cap marked - This monument was set in 1928 by proportion between adjacent Section Corners - See Rd Dept FB FR 137-195 The Rd Dept pipe was replaced with the present monument in 1928 - See FB 209-60 & FB 300-74,112 — See FB 487-143,146

1/4 SECTION CORNER
By proportion between adjacent Section Corners - Set 2" iron pipe in concrete 12" below surface with brass cap marked — FB 487-140

Set 1/2" x stake - FB 487-140

Set 1/2" x stake - FB 487-144

Set 1/2" x stake - FB 487-157

Found 6"x6" concrete monument Set by Co Rd Dept — FB 487-144

Found 2" iron pipe, plug & tack, Set by Co. Road Dept in 1927 not set for the 1/4 Corner See Rd Dept FB FR 210-19 — This pipe removed by the Co. Surveyor FB 487-132

Set 1/2" x stake - FB 487-152

SECTION CORNER
Found 2" iron pipe set in concrete 12" below surface with brass cap marked - This monument was set in 1928 by proportion between adjacent Section Corners - See FB 300-118

1/4 SECTION CORNER
By proportion between adjacent Section Corners - Set 2" iron pipe in concrete 12" below surface with brass cap marked — FB 487-154

SECTION CORNER
Found 2" iron pipe set in concrete 12" below surface by Co. Surveyor in 1927 by proportion 1/2 mile north, 1 mile south, 1 mile west - See Rd Dept FB FR 290-29 — Replaced by Rd Dept pipe with 2" iron pipe set in concrete 12" below surface with brass cap marked — FB 487-138,139

1/4 SECTION CORNER
By proportion between adjacent Section Corners - Set 2" iron pipe in concrete 12" below surface with brass cap marked — FB 487-138

SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked — This monument was set in 1928 by proportion between adjacent Section Corners - See FB 300-82 1/4 & 118

1/4 SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked — This monument was set in 1928 by proportion between adjacent Section Corners - See FB 300-82

SECTION CORNER
Found 2" iron pipe set in concrete 12" below surface with brass cap marked - This monument was set in 1928 by proportion 3 miles north, 1/2 mile east and 1 mile west - See FB 487-138 and FB 300-82 1/4 & 118

1/4 SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked — This monument was set in 1928 by proportion between adjacent Section Corners - See FB 300-82

SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked — This monument was set in 1928 by proportion 3 miles north, 1/2 mile east and 1 mile west - See FB 300-82 1/4 & 118 & FB 487-138

1/4 SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked — This monument was set in 1928 by proportion between adjacent Section Corners - See FB 300-82

SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked — The Co. Road Dept found the original stake buried 3" deep, 2.2' East stake beside it - See FB 54-14 & FB 54-27 - Set the original stake & replaced it with a 2" iron pipe set in concrete 12" below surface with brass cap marked — FB 487-138

1/4 SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked — This monument was set in 1928 by proportion between adjacent Section Corners - See FB 300-82

SECTION CORNER
Found 2" iron pipe set in concrete with brass cap marked — This monument was set in 1928 by proportion 3 miles north, 1/2 mile east and 1 mile west - See FB 487-138 & FB 300-82 1/4 & 118
