

## Los Angeles County Bicycle Master Plan Update

**Safe. Equitable. Planned for you.**

### Overview

Los Angeles County Public Works (PW) is updating the Los Angeles County Bicycle Master Plan (BMP). The current BMP was last updated in 2012 and established a vision for the future of biking in the County. The BMP will serve as a guide for the development of safe and accessible bikeways and paths within unincorporated LA County and along County flood control district channels. The BMP will:

- Propose new bikeways
- Revisit the feasibility of unconstructed bikeways from the 2012 plan
- Incorporate new policies to share bikeway facilities with micro-mobility devices
- Identify first/last mile bikeway improvements to further connect to transit stations and bus stops
- Prepare for the Programmatic Environmental Impact Report

The County will engage with community members, community-based organizations (CBOs), and advisory committees to develop an inclusive and representative BMP. The BMP Update is anticipated to be finalized at the end of 2026.

### Project Vision and Goals

#### Vision:

Make bicycling **safe, convenient**, and **accessible** for all ages and abilities in LA County.

#### Goals:

**Safety.** Prioritize bicycle projects that improve the safety of our streets.

**Equity.** Invest in underserved, pollution-burdened communities that are most dependent on active transportation.

**Mobility.** Increase the number of biking and multimodal trips.

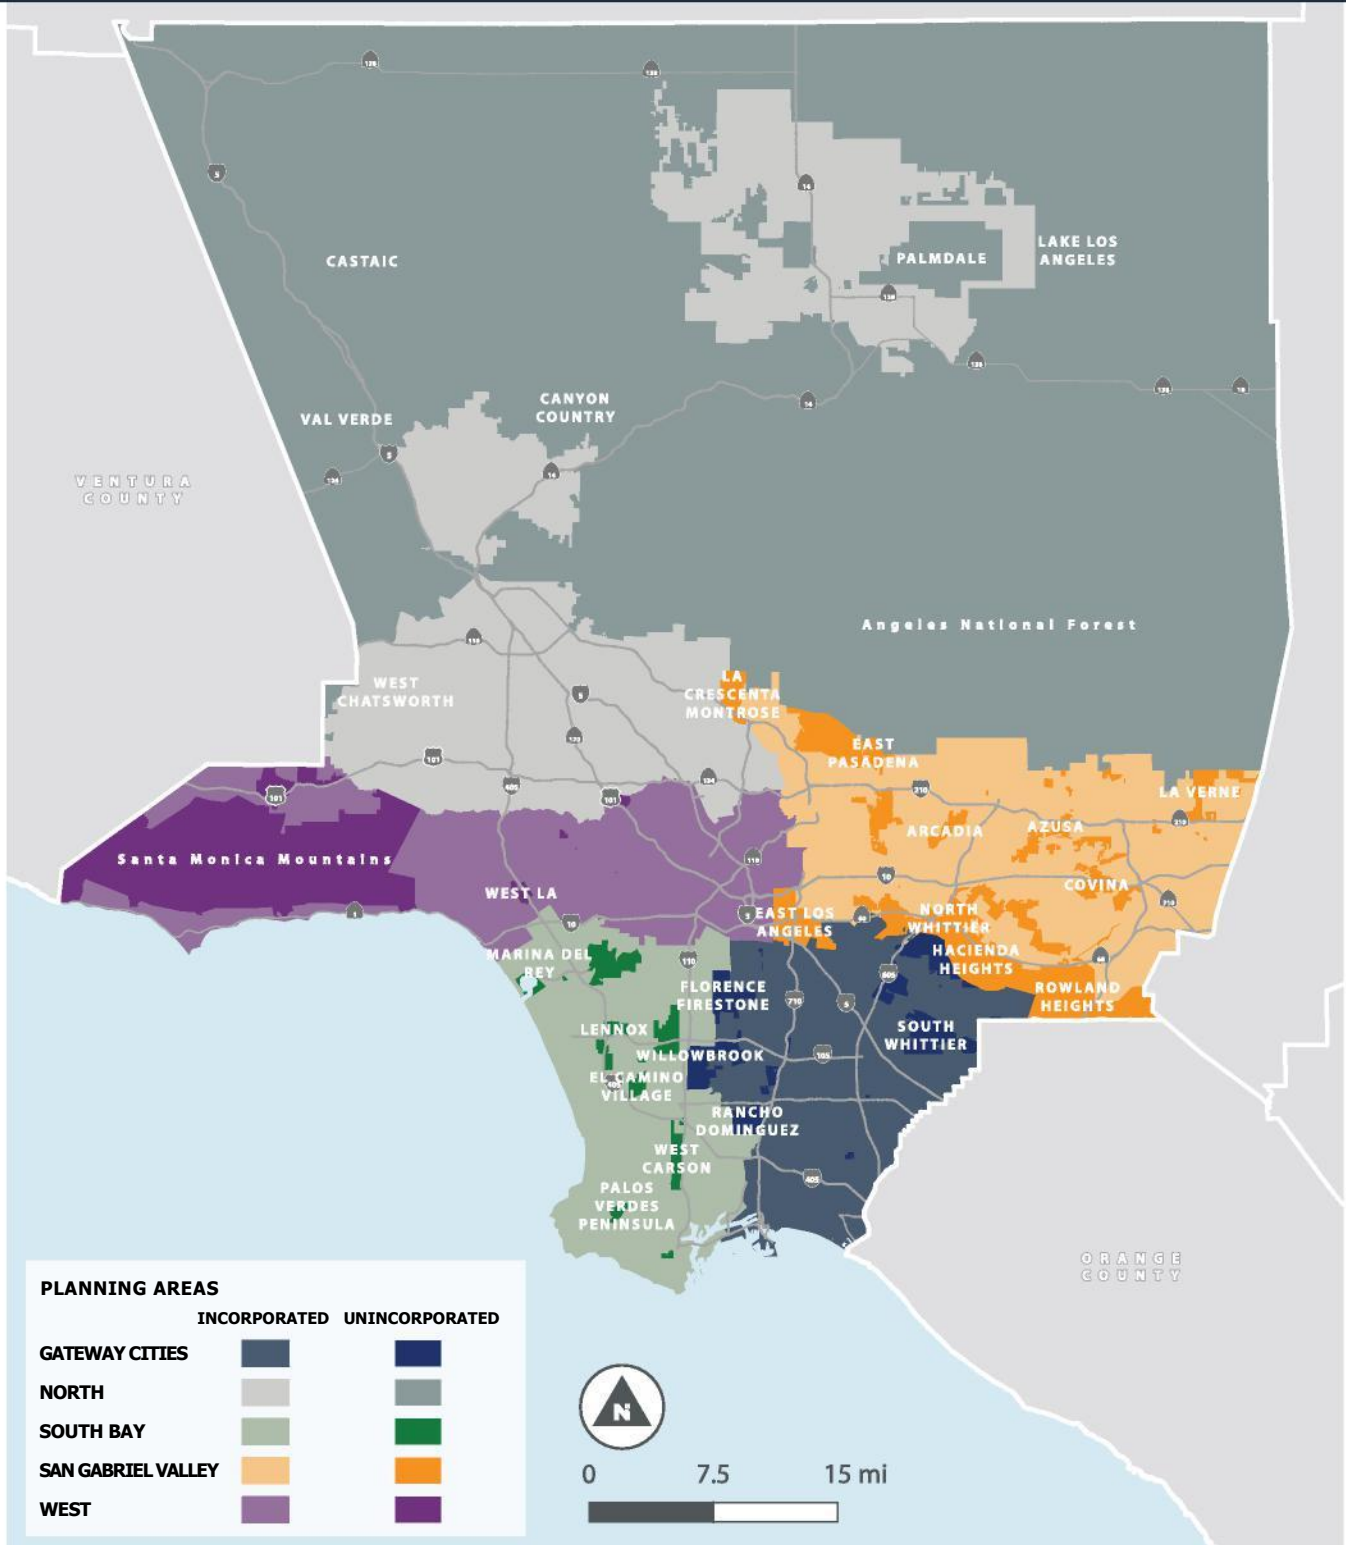

**Accountability.** Be responsive, transparent, and accountable to our communities and regional partners.
