Appendix E: Community Engagement Plan and Report

The Community Engagement Plan served to inform, empower, and build capacity among local and regional community-based organizations and stakeholders to increase awareness, cultural competency, and inclusion of community needs along the greenways. It included descriptions of the proposed communication materials, the types of engagement platforms, social and digital media activities, and descriptions of the workshops, presentations, and other public-facing activities. It also presented an equity strategy which focused on engagement activities for historically underserved communities to ensure their inclusion in the SGV Greenway Network process and outcomes, and adaptive measures to track its effectiveness.

Input from the community, stakeholders, and the Steering Committee, engagement activities, key takeaways, and feedback on the plan development was documented in the Community Engagement Report. The report summarized major themes from community feedback, what uses were important to the community, preferences for access to the SGV Greenway Network, prioritization along bike path alignments, and potential concerns. In addition to general feedback on the plan development process, an evaluation on the Design Guidelines and Standards and potential project Conceptual Designs was requested. The results were included as part of the Community Engagement Report. A detailed summary of the engagement materials, approaches, and activities employed to involve the community are also included.

SAN GABRIEL VALLEY GREENWAY NETWORK

STRATEGIC IMPLEMENTATION PLAN

APPENDIX E: COMMUNITY ENGAGEMENT PLAN AND REPORT

February 2025

PREPARED FOR:
LOS ANGELES COUNTY AND LOS ANGELES COUNTY PUBLIC WORKS

THIS BOOK IS APPENDIX E FOR THE SAN GABRIEL VALLEY GREENWAY NETWORK STRATEGIC IMPLEMENTATION PLAN

The Community Engagement Plan included descriptions of the proposed communication materials, the types of engagement platforms, social and digital media activities, and descriptions of the workshops, presentations, other public-facing activities, and presented an equity strategy.

The Community Engagement Report documented input from the community, stakeholders, and the Steering Committee, engagement activities, key takeaways, and feedback on the plan development. It summarized major themes from community feedback, what uses were important to the community, preferences for access to the SGV Greenway Network, prioritization along bike path alignments, and potential concerns.

PREPARED BY:

Brown AND Caldwell

MIG

San Gabriel Valley Greenway Network

Community Engagement Plan

Overview

Los Angeles County Public Works is guiding the development of the San Gabriel Valley Greenway Network (SGV Greenway Network), which will provide greater connectivity between communities, improve access to green space and create new mobility and active transportation corridors while simultaneously upgrading area flood control facilities. The SGV Greenway Network will improve the quality of life for those who live, work, and play in the San Gabriel Valley and provide much needed open recreation and greenspace, especially for "park poor" and historically underserved communities in the region.[1]

The SGV Greenway Network passes through 32 municipalities and unincorporated communities. The SGV Greenway Network Community Engagement Plan will represent the needs of these cities, the multi-jurisdictional agencies which serve the area, and other communities and stakeholders with an interest in the SGV Greenway Network. Key stakeholder groups include environmental justice and health advocates, youth, alternative mobility groups, area residents, and businesses.

This plan describes the strategy to reach the various stakeholders with interests in the SGV Greenway Network. It includes descriptions of the proposed communication materials, the types of engagement platforms, social and digital media activities, and descriptions of the workshops, presentations, and other public-facing activities. It also presents an equity strategy which focuses on engagement activities for historically underserved communities to ensure their inclusion in the SGV Greenway Network process and outcomes, and adaptive measures to track its effectiveness.

Proposed Engagement Objectives

- **Ensure equity** in engagement, participation, process, project design, resource allocation, and project outcomes by applying the following questions based upon the equity definition and framework defined by LA County's "OurCounty" sustainability plan:[2]
  - "**Equity** is defined as an end state in which all groups have access to the resources and opportunities necessary to improve the quality of their lives."
    - Is there **inclusive, accessible authentic engagement and representation** in processes to develop or implement programs and policies?
    - Do programs and policies result in **a fair distribution of benefits and burdens** across all segments of a community, prioritizing benefits to those communities with highest need?
    - Do decision makers **institutionalize accountability**? Are decisions made with a **recognition of the historical, cultural, and institutional dynamics and structures** that have routinely benefited privileged groups and resulted in chronic, cumulative disadvantage for subordinated groups?

---

[1] Los Angeles Sustainability Collaborative, PATHS FORWARD: THE SAN GABRIEL VALLEY GREENWAY PROJECT, 2016, p.4, http://lasustainability.org/wp-content/uploads/2016/08/SGV-Greenways-Report-Final-06.06.16.pdf

[2] "What do we mean by equity?" OurCounty, Los Angeles Countywide Sustainability Plan, July 2019, p. 16, https://ourcountyla.lacounty.gov/wp-content/uploads/2019/07/OurCounty-Final-Plan.pdf

- Do decisions consider **generational impacts** and **prevent unfair burdens** on future generations?

The following strategies are proposed to ensure equity considerations are integrated into the engagement process for the SGV Greenway Network.

- **Build awareness and capacity** among residents, communities, and other stakeholders about the SGV Greenway Network project, planning process, and opportunities.
- Ensure key stakeholders **understand and participate** in the process, and make sure all stakeholders have **equitable access to the resources** they need.
- **Create an accessible process** with a variety of engagement options and platforms (e.g., time, location, language, and non-digital options) to encourage participation in the SGV Greenway Network project planning and use, including capacity building when necessary to ensure equitable participation.
- Develop vision and priorities with input from a **cross-section of audiences and stakeholders** throughout the SGV Greenway Network, focusing attention on historically underserved communities in the region.
- **Demonstrate transparency** through open and ongoing interaction with the community throughout the planning process and clear communication about how public input will be incorporated in design and outcomes.
- Ensure outcomes from the plan **reflect the needs of and prioritize benefits to historically underserved communities** along the network.

Materials, Activities, Timeframes

Project Website (June 2021)

The team created a website to serve as the portal for all project information, any program videos, links to online surveys and virtual workshops, and news about SGV Greenway Network community workshops and events.

- The website includes: a project overview, goals, timeline infographic, and FAQ ("Frequently Asked Questions"); design guidelines and potential greenways projects; best practices research and related reports; copies of fact sheets and flyers; steering committee meeting minutes and event summaries; links to a map-based digital survey and to a comments and questions submission form; links to all surveys provided at community engagement events; draft project concept designs vetted by the client and stakeholder committee; and connections to related social media.
- The site is set to be updated regularly to include feedback from participants, answer questions and publicize upcoming opportunities for stakeholders to participate in the planning process. Information on the front page of the site will also reflect the current phase of the project.

Project Fact Sheets (June 2021 and March 2022)

A factsheet, translated into multiple languages, has been developed as a basic tool to use for the duration of the project outreach process. A second factsheet, a Community Guide, is an optional document that can be created at the end of the outreach process to summarize the key findings and to promote the emerging project alternatives. These will provide an overview of the project, infographics, including FAQs, a project timeline, and links to related social media and to the project website.

- **Fact Sheet 1: Backgrounder (June 2021):** The fact sheet will provide baseline information, including the purpose, goals and opportunities of the project and include infographics to show how this process will provide connectivity, mobility, and greenspace to communities along the right-of-way.

- **Fact Sheet 2: Community Guide – Optional (March 2022):** This optional Community Guide will review the planning process, review the design guidelines and preferred concept and priority projects, and will summarize community input and visions for the SGV Greenway Network. It will also provide information about how and where stakeholders can offer further input and gain information during the implementation phase of the project.

Digital Map-Based Survey (October 15 – November 30, 2021)

A map-based digital survey will be created to elicit additional community and stakeholder feedback. The surveys will include a "mobile-first" responsive design to ensure that the portal works on any digital screen size, from smartphone to desktop. Links to the survey and a QR code will be available on project flyers and at pop-up events to encourage participation. A draft of the survey design will be provided in the online platforms to test its functionality. Ongoing data analysis and summary of results will be provided regularly while the survey is active. A final summary will be submitted for review at the end of the survey.

Poster Boards (Developed in advance of each round of workshops)

Poster boards will convey project goals and objectives, opportunities, the planning process and how stakeholders can get involved. Three sets of static boards will be developed to correlate with each of the three proposed rounds of workshops and will include general information about the SGV Greenway Network. Presentation poster boards will be used at BC-led Pop-up Events or Watershed Conservation Authority (WCA)-led Community Briefings but may also be used independently by community partners. The approved Graphics Standards Guide will be used to create the project poster boards for use at community events. These boards will be designed to reflect the content from each of the workshop rounds discussed below.

- Round 1: Visioning and Opportunities (October 2021)
- Round 2: Design Alternatives (February 2022)
- Round 3: Preferred Concept (May 2022)

Community Workshops (Three Rounds of Workshops)

Three rounds of Community Workshops will be organized in each of the three outreach phases in locations along the SGV Greenway Network to educate stakeholders about the purpose and goals of the project, build an understanding about the planning and project process, and collect input on design guidelines and priority projects. To ensure a cross-section of the community and stakeholders is reached, these workshops will be held in or for different areas along the SGV Greenway Network, at different times of day (or at times deemed accessible for the team and client), and/or via Zoom depending on health and safety restrictions due to the COVID-19 pandemic. A PowerPoint presentation will be developed for each round of workshops for staff to communicate project information, updates, and opportunities to key stakeholders and community partners. In addition, a static virtual version of community workshops (discussed below) will be available on the project website. Flyers and social media posts with links to these workshops will be provided to community partners and stakeholders. A summary of results will be submitted for review at the end of each workshop round.

Below is an explanation of the focus for each proposed round of workshops. Each round of workshops also correlates to the three general outreach phases.

- **Round 1: Visioning and Opportunities (October 26 – November 30, 2021):** The presentations and poster boards for Round 1 will provide information about the purpose, goals, and opportunities of the project; will include infographics and Tributary Narratives to show how this process will provide connectivity, mobility, and greenspace; opportunities to get involved; and include a project process

infographic. **The first Kickoff Workshop is proposed to take place in October 2021.** Subsequent versions of the Round 1 Workshops can be scheduled to focus on specific tributaries or areas.

- **Round 2: Design Alternatives (February 1 – 28, 2022):** The presentation and posters boards for this second round of workshops will introduce the project's draft design alternative and draft set of priority projects and summarize community input and visions for the SGV Greenway Network. These will also include the project process infographic and highlight key milestones and events.
- **Round 3: Preferred Concept (May 1 – 30, 2022):** The Round 3 presentation and poster boards will synthesize the preferred concept for the SGV Greenway Network. These will likely include the projects list, typical cross-sections, adjacent park opportunities, and a refined map of the network among other elements.

Social Media Posts (Developed in advance of each round of workshops)

Project staff will create posts throughout the project timeline which relate to important project milestones, community workshops, and events. Posts and content will be provided to the County Public Information Officer to post on the County's official social media channels. In addition, the same posts and content will be distributed to Steering Committee members and other partner organizations as defined by County staff.

- Round 1 (October 2021)
- Round 2 (January 2022)
- Round 3 (April 2022)

WCA Briefing Sessions and Engagement (Delivered from October 2021 to April 2022, as opportunities arise)

Up to 16 community engagement events / briefing sessions will be delivered by the Watershed Conservation Authority (WCA) and its community partners as opportunities arise during the three phases of community engagement to keep stakeholders informed about the SGV Greenway Network Strategic Implementation Plan's development process and milestones and to educate partners and collaborators. Briefings by WCA with collaborator organizations will consist of standing meetings of stakeholder groups, such as advocacy groups, neighborhood or district associations, and local civic groups like Chambers of Commerce. For these briefings, information about the SGV Greenway Network Strategic Implementation Plan can be included as an agenda item rather than setting up exclusive meetings. WCA will also provide diverse engagement and education outreach and programs through its community partners that coincides with the three phases of community engagement.

BC Team Pop-Up Events (Delivered from October 2021 to April 2022, based on available opportunities)

A mix of tools and activities will be used by the BC team and collaborators to meet people where they are and provide a wide range of opportunities to allow stakeholders to participate in the SGV Greenway Network planning process. Like Briefing Sessions, Pop-Up Events are particularly useful for targeting areas, communities, and/or groups that are participating less in the SGV Greenway Network process or that are historically underserved or underrepresented in traditional public engagement. Pop-up activity opportunities will supplement the traditional community workshops and WCA Briefing Sessions. They are used to engage with key underserved and disadvantaged communities identified by the team and partners.

- **Intercept Activities** at community events and key locations along the SGV Greenway Network during each phase of the project as opportunities to meet people where they are and engage them about their needs and visions. Interactive opportunities including, for example, a QR code link to the

survey, maps, and posters for adding comments and dot-voting activities will be provided for community members to discuss potential project ideas like greenway configuration, parklet opportunities, needed amenities, etc., and to provide input and feedback.

- **Walk shops** will be coordinated to provide opportunities like organized bike rides, trail/watershed hikes where participants are provided clipboards to take guided walks to specific locations of interest to discuss relevant issues. For example, at an entrance the discussion can focus on access, bike parking, crosswalks, and safety issues. Later, at a shaded spot the discussion can be about benches, shade, or other park-type of amenities. At a different point on the future path, the discussion can be about path configuration and mode split.
- **Roundtables** with members and leadership of area non-governmental organizations (NGOs), community-based organizations, and advocacy groups will serve as opportunities to present the purpose and goals of the project, get feedback about community visions and local needs, and expand engagement through their networks.
- **Focus groups** with key partner organizations can be organized to get feedback about the types of engagement, key geographies, relationships, and other information which can help the team understand how best to connect communities to the planning process and what types of education and engagement might be needed.

Engagement Logistics

Events

The team will create a chart of upcoming events in the SGV Greenway Network areas which could serve as engagement opportunities, such as at farmer's markets, street fairs, holiday events, and festivals. The client, stakeholder committee members, board representatives, city and agency staff, and community partners will be asked to review and recommend events.

Contact List

The team is developing a list of contacts of key stakeholder groups listed in the matrix below. This list will expand through recommendations from the client, stakeholder committee members, board and municipal officials and staff, and others. It will be updated throughout the project process.

The matrix below identifies the key audiences/stakeholder groups and the engagement tools and methods that will be used for each group:

- **Government and agency partners and stakeholder committee members:** These are representatives from the 32 area municipalities and communities in the network area, regional multi-jurisdictional agencies and governance groups, and members of the project stakeholder committee.
- **Community Stakeholders:** These are community and regional stakeholder groups who the team will include early in the engagement process to ensure project access, participation, and outcomes reflect the broad diversity of the SGV Greenway Network area.
- **Partners and Collaborators:** These are key community stakeholders, such as community-based organizations, NGOs, advocacy groups and influencers, who can serve as partners in the engagement and planning process and assist the team in education and engagement to membership bases and networks about the SGV Greenway Network.

Audience and Messaging Matrix			
Stakeholder Type	**Audience/Stakeholder Group**	**Engagement Tools**	**Activities**
Government and Agency Partners and Stakeholders	Government Partners: • LA County Board of Supervisors (Districts 1, 4, 5) • 30 Greenway Network Communities/Municipalities • Multi-jurisdictional agencies (LAC Parks and Rec, LACPH, River and Mountains Conservancy) • Regional Governance groups: SVG COG (see Water TAC and Water Committee)	Power Point Presentation Boards Digital Media Map-based Survey	Briefings at agency, board, municipal and related meetings, social/digital media postings
Community Stakeholders: Partners and Collaborators	Community Leaders and Influencers, including: • Belinda Faustinos, Nature for All • Active SGV Board Members: Rafael Gonzalez, Stephanie Ramirez, Yvette Martinez • Bruce Saito, CA Conservation Corps • Dorothy Wong, CABike, CICLE, Altadena Council • Jessica Meaney, Investing in Place • Viviana Franco, From Lot to Spot	Power Point Fact Sheets Digital Media Map-based Survey	Briefings, focus groups, social/digital media postings
Community Stakeholders: Partners and Collaborators	NGOs and Community-Based Organizations, such as: • Active SGV • Amigos de Los Rios • Asian Youth Center • Day One • Gente Organizada • Nature for All Advocacy Groups: • Mobility/Alternative Mobility • Environmental Justice • Water and Natural Resources • Youth and Youth Advocacy Groups • Health Organizations	Power Point Fact Sheets Project Posters Presentation Boards Digital Media Map-based Survey	Roundtables, community workshops and walk shops Pop-up intercepts at community and organization events, social/digital media postings
Community Stakeholders	Schools and School-Related Organizations • PTA groups • Student Environmental Groups • Safe Routes to Schools Programs • Area Colleges: Mt SAC, Rio Hondo, Pasadena City College, Citrus College, Cal Poly Pomona Service Organizations	Factsheets Project Posters Digital Media Map-based Survey	Community storyboard setups, flyer, and social/digital media postings

Audience and Messaging Matrix			
Stakeholder Type	**Audience/Stakeholder Group**	**Engagement Tools**	**Activities**
	• Boy Scouts • Girl Scouts • Boys and Girls Club of SGV • YWCA of SGV • YMCA Civic Associations • Rotary • Kiwanis Faith-Based Organizations Local Businesses and Business Organizations • Key Regional Employers • City Chambers; SGV Regional Chamber of Commerce; SGV Economic Partnership • BIDS • Main St. Associations Neighborhood Associations • Neighborhood Watch Groups • Block Clubs Homeowners and Homeowner Associations (HOAs) Town Councils Renters Property Owners		

San Gabriel Valley Greenway Network Strategic Implementation Plan

Community Engagement Report

February 2025

Section 1: Introduction

Los Angeles County Public Works (LA County Public Works) is leading the development of the San Gabriel Valley Greenway Network Strategic Implementation Plan (SGV Greenway Network Plan) to provide greater connectivity between communities, improve access to green space and create new mobility and active transportation corridors while upgrading area flood control facilities. The Plan would leverage existing infrastructure and create a network for multimodal transportation that uses the existing flood control system in the San Gabriel Valley (SGV), located in the eastern region of the LA County Metropolitan area.

Overview

The core Plan Team consisted of LA County Public Works and Plan Partners, LA County Department of Parks and Recreation (DPR) and Watershed Conservation Authority (WCA), and the consultant team. The consultant team was led by Brown and Caldwell (BC) and included Moore Iacofano and Goltsman Inc. (MIG), Studio-MLA, KOA Corporation (KOA), Pacific Advanced Civil Engineering Inc. (PACE), and Catalyst Environmental Solutions (Catalyst). The goal of the Plan is to work with community and stakeholders to re-envision and transform the watershed into an interconnected network of more than 130 miles of bike paths, trails, and greenspaces that traverse 32 municipalities and unincorporated communities in the SGV.

The Plan will integrate values, goals, and needs of the cities, agencies, and community stakeholders within the Plan area, such as environmental justice and health advocates, youth, alternative mobility groups, area residents, and businesses.

The Plan Team kicked off this effort in the summer of 2019 and quickly adapted and reformulated in April 2020 to address the limitations and evolving health protocols and social movements of the COVID-19 pandemic.

Objectives

The Plan Team facilitated engagement activities using various materials, engagement platforms, social and digital media activities, workshops, presentations, and other public-facing activities with adaptive measures to track effectiveness. The equity strategy focused on the following engagement activities to address historically underserved communities to ensure their inclusion in the SGV Greenway Network process and outcomes:

- Build awareness and capacity among residents, communities, and other stakeholders about the SGV Greenway Network planning process, opportunities, and potential projects.

- Ensure key stakeholders understand and participate in the process and that all stakeholders have equitable access to the resources they need.
- Create an accessible process with a variety of engagement options and platforms (e.g., time, location, language, and non-digital options) to encourage participation in the SGV Greenway Network planning and use, including capacity building when necessary to ensure equitable participation.
- Develop vision and priorities with input from a cross-section of audiences and stakeholders throughout the SGV Greenway Network, focusing attention on historically underserved communities in the region.
- Demonstrate transparency through open and ongoing interaction with the community throughout the planning process and clear communication about how public input will be incorporated in design and outcomes.
- Ensure outcomes from the Plan reflect the needs of and prioritize benefits to historically underserved groups.
- Identify community needs for the future SGV Greenway Network.

Section 2: Major Themes and Feedback

Section 2 summarizes the major themes, feedback, and key locations provided by the community during all the engagement events. This includes comments made during the in-person workshops and pop-up events, as well as responses submitted in completed Alternatives Worksheets (e.g., physical comment cards), the Virtual Open House, and online surveys. Locations of all pop-up events, flyers, and community workshops are shown in Figure 1 below. The Plan Team worked diligently to geographically disperse engagement activities and educational opportunities throughout the Plan area. Refer to Appendix B-2 "About Respondents" for an overview of respondents providing input to the Plan.

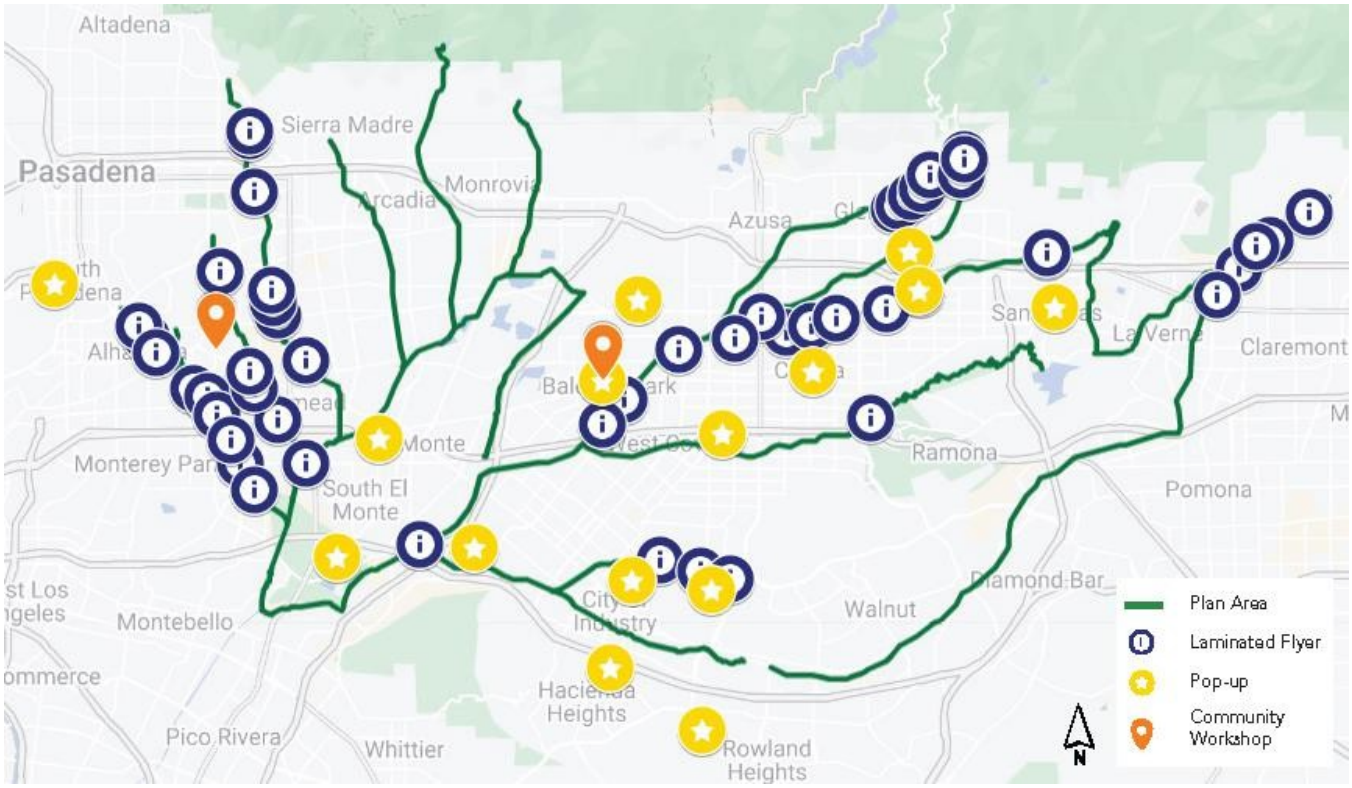

Figure 1. Plan Area

Respondents were generally in favor of the implementation of the SGV Greenway Network throughout the engagement process.

Key Themes

Uses

The SGV Greenway Network is meant to be a flexible network of recreational spaces for residents of all ages and abilities. Participants emphasized that youth, seniors, people with disabilities, and families should be able to easily connect to and use the SGV Greenway Network. Participants shared

that the SGV Greenway Network is an opportunity to leave a legacy of recreational, natural, and transit assets for future generations to use and enjoy.

- ***Multi-use Paths*** **–** Ensure that the SGV Greenway Network has pathways that are accessible and safe for walking, biking, running, riding horses, rollerblading, or skateboarding. Participants asked questions regarding ground covers for paths since some types impact access. Some community members shared safety concerns about users, specifically children, going over the barriers to the rivers and washes.
- ***Resting Spaces*** **–** Create opportunities for rest by integrating seating, water fountains, water refilling stations, and restrooms for SGV Greenway Network users to relax or take a break. Participants identified seniors and families as the likely primary users for rest spaces.
- ***Gateway Spaces*** **–** Create transitional, recreational spaces with seating, shade, lighting, picnic tables, water fountains, and event spaces in key SGV Greenway Network locations near the streets to make the SGV Greenway Network visible, easily accessible, and active for the adjacent community. Ideas shared were to create community gathering spaces for youth programs (e.g., Girl Scouts, community clean-ups, etc.) and multi-use spaces (e.g., amphitheaters, outdoor classrooms, etc.). There was some interest in placing vehicular parking opportunities to open the SGV Greenway Network to outside visitors or other SGV residents who are not directly adjacent to the space.

  Ensure bike and pedestrian paths align safely and seamlessly with existing infrastructure and future SGV Greenway Networks. Most areas that were identified as potential gateways were in existing parks and edges of the network branches. Key locations along the washes include but are not limited to Eaton Wash, Little Dalton Wash, Walnut Creek, Puente Creek (Nelson Avenue, Hacienda Boulevard, and Temple Avenue), San Jose Creek (Fullerton Road and 3rd Avenue), and San Gabriel River (Santa Fe Dam).
- **Commuting Connection –** Utilize and further implement the SGV Greenway Network as a route to commute to schools, work, shopping, and services. Connect the SGV Greenway Network with existing trails, parks, transit networks, neighborhoods, civic centers, and shopping centers.

Access

The implementation of the SGV Greenway Network has the potential to create and enhance physical connections beyond the network. The SGV Greenway Network is centered around the Rio Hondo and San Gabriel Rivers expanding east and west along various channels.

- ***Active Transportation*** **–** Align future bike and walking paths with existing infrastructure in the adjacent municipalities to create a continuous and seamless network of paths for pedestrians and cyclists. Collaborate and coordinate with partners and local jurisdictions' existing efforts and plans for active transportation, and with neighboring cities that do not have existing bike lanes, paths, or sidewalks.
- ***Seamless Gateway Points*** **–** Use existing parks, trailheads, schools, vacant lots, transit centers, and LA County land along the washes with ample space and the capacity to install paths and amenities for SGV Greenway Network users. Consider the location and positioning of potential destinations adjacent to the SGV Greenway Network in terms of foot traffic, existing infrastructure, and types of adjacent services for new gateway points and destinations.

Many community members mentioned a lack of knowledge regarding which parks and trails exist in their areas as they may not be obvious to the general user. Community members did identify a variety of major streets and parks where there is potential for expanding access that would be visible to more potential users (listed below by region):

- West San Gabriel Valley: San Bernardino Freeway (Interstate 10), San Gabriel River Freeway (Interstate 605), Eaton Canyon Trailhead, Almansor Park, Whittier Narrows Recreation area, Los Angeles County Arboretum and Botanic Garden, Peck Road Water Conservation Park, Ramona Boulevard, Mission Road, Main Street (Alhambra), and Valley Boulevard.
- Northern San Gabriel Valley: Foothill Freeway (State Route 210), Foothill Boulevard (Route 66), Arcadia Community Regional Park, Santa Anita Dam, Monrovia Canyon Park, Big Dalton Wilderness Area, Santa Fe Dam Recreation Area, Crystal Lake, and San Gabriel Mountains.
- South San Gabriel Valley: Pomona Freeway (State Route 60), 7th Street, Gale Avenue, Hacienda Boulevard, Echelon Avenue, Temple Road, Salt Lake Avenue, Clarke Avenue, Workman Mill Road, La Puente, Puente Hills Mall, Peter F. Schabarum Regional Park, Skyline Trail, and West Covina Plaza.
- East San Gabriel Valley: Mt. San Antonio College, Bonelli Park / Puddingstone Lake, South Hills Park, Ganesha Park, Pomona Fairplex, Live Oak Canyon, Claremont Hills Wilderness Park, and Thompson Trail.

- ***Continuous Paths*** **–** Ensure that the paths are open and in good condition to provide safe and consistent experiences. Consider the heights and widths of the paths and surrounding roads and bridges that may obstruct views and use of the space. Currently, where parts of the SGV Greenway Network are operational, many community members are not aware of what is open and where there are gaps in the path thus requiring more trip planning. Community members shared that updated wayfinding signage and continuous paths for cyclists, pedestrians, and equestrians promote safe travel and access to the space.
- ***Equestrian Paths*** **–** Incorporate more opportunities for equestrian access, especially in areas with existing equestrian facilities and trails. An enhancement that was requested was a new trail along San Jose Creek from 7th Street to Avocado Heights.
- ***Public Transit*** **–** Create connections with routes, stops, and transit centers for buses, light rails, and trains that service the SGV. Access to public transportation to and from the SGV Greenway Network opens opportunities for other users throughout the region and can help users return to their original location. Community members identified opportunities in specific areas for public transit in areas like San Marino, El Monte Transit Center, and the Metro stations.

Amenities

Amenities refer to a space's various physical features that influence how the immediate space is used and feels. Participants shared that they would like to use the future SGV Greenway Network for recreational purposes and as an escape into nature. The community shared ideas that support the safe and comfortable use of the potential SGV Greenway Network by potential patrons of all ages and abilities.

- ***Bicycle Features*** **-** Incorporate bike racks, repair stations, lockers, protected paths, bike skills parks, and amenities at various locations to promote bike use and visibility to users. Some shared ideas about measuring the number of bicycles at a location for a certain period and collocating bike shops and rental businesses throughout the SGV Greenway Network.
- ***Dog Amenities*** **–** Include features for dogs including dedicated park space, dog runs, pet waste bags, and pet waste disposal bins to give pet owners more recreational options.
- ***Natural Spaces*** **–** Incorporate more drought-resistant native plants and trees for shade to cool and improve environmental health and restore natural habitat for wildlife. Consider the height of the tree canopy and potential shade structures. Ensure that the paths preserve and protect wildlife as well as protect users from wildlife to make sure community members can access nature in urban and suburban SGV.
- ***Wayfinding*** **–** For ease of use, install consistent and frequent signage in the form of mile markers, maps, destination signage, and transit signage to improve connections to the adjacent neighborhoods, destinations (e.g., shopping, food, and services), and transit connections to travel throughout the region. Create and utilize a simple and recognizable signage style for wayfinding and amenities specific to the SGV Greenway Network. Coordination with the various agencies and cities adjacent to and beyond the SGV Greenway Network will be necessary to assess locations for the signs, styles of signage, and potential destinations and connections to be listed. Consistent wayfinding amenities allow users to orient to their surroundings by instilling confidence to explore potential destinations in the SGV.
- ***Cultural Resources*** **–** Install cultural, informational, and historical signage throughout the SGV Greenway Network to incorporate community history, context, and education opportunities. Cultural and historical sites and events can honor the past and create spaces for community members to feel connected to the SGV Greenway Network through signage, art installations, picnic areas, and kiosks. Informational resources can include signs for native plant and animal descriptions, green infrastructure descriptions, and sustainable practice suggestions.
- ***Equestrian Features*** **–** Expand and enhance staging areas, hitches, and water tanks to provide more access to equestrians.
- ***Recreation Equipment*** **–** Continue to include exercise equipment and spaces along the pathways that are weatherproof, tamperproof, low power, and biomechanically correct outdoor fitness equipment, such as ellipticals, pull-up bars, and sports courts.
- ***Light Fixtures*** **–** Build in a network of ample energy-efficient lighting along the paths to enhance and secure the SGV Greenway Network experience when there is limited daylight (e.g., early morning, evening, night, and wintertime). Ensure areas with low visibility and lighting are safe, especially in underpasses and hard-to-reach parts of the SGV Greenway Network where community members may feel unsafe and vulnerable. Consider the impacts of light pollution as well as its effect on neighbors and wildlife.
- ***Safety Signage*** **–** Incorporate signage for user safety rules and restrictions to protect the users and surrounding neighbors. There were concerns regarding how users would potentially behave. Issues include but are not limited to personal safety, privacy, encampments, and cleanliness. Consider potential conflicts between users (e.g., pedestrians, cyclists, and equestrians) and animals that could be found (e.g., snakes, coyotes, etc.), restricted areas for electric bikes and electric scooters, and safe paths and facilities for families and users who may be alone.

- ***Online Resources*** – Consider the potential for a dedicated map app, existing maps, or a website for trip planning apps (e.g., Apple Maps, Google Maps, Waze, etc.), local resources, businesses, and events.

Maintenance

LA County Public Works is responsible for managing and maintaining the rivers and washes in the Plan area. There were concerns about future maintenance plans. Maintenance duties include but are not limited to removing waste, vandalism, landscaping, and equipment and facility upkeep. Consistent cleaning and maintenance needed to create a comfortable and safe SGV Greenway Network experience.

- ***Waste*** – Incorporate sustainable waste receptacles for landfill, recycling, and compost. Discourage dumping in the Plan area and remove waste consistently and frequently to maintain a clean pathway and improve the water quality of the waterways.
- ***SGV Greenway Network Damage*** – Ensure SGV Greenway Network features and amenities are weatherproof and tamperproof to prevent graffiti and damage to equipment, natural features, and facilities. Consider the impacts of rain and flooding events on the network infrastructure with regard to waste and facility capacity. Remove or fix any damaged amenities and features that were caused intentionally or unintentionally.
- ***Reporting*** – Coordinate maintenance reporting programs for neighbors and users to utilities for reporting dumping and suspicious activity. Consider incorporating cameras and a monitoring program at key locations to promote the safety and visibility of areas.

Safety & Security

Participants made comments referring to the safety of users and neighbors adjacent to the SGV Greenway Network as well as the safe use of amenities along the SGV Greenway Network. They expressed concerns that since the SGV Greenway Network lies in the middle of various municipalities and residential areas, implementing the Plan would make neighbors and businesses directly along the washes more vulnerable to security issues.

- ***Users and Privacy*** – Participants requested addressing safety vulnerabilities by promoting visibility and appropriate user behavior, integrating light fixtures, and establishing buffers for noise, light, and physical access with adjacent landowners. Many were concerned about an increase in existing issues such as people experiencing homelessness, gangs, people with weapons, burglaries, peering eyes, noise pollution, and light pollution. Community members expressed wanting to feel safe and secure in their homes and do not want to worry about strangers potentially accessing properties from streets or the SGV Greenway Network.
- ***People Experiencing Homelessness*** – Homelessness is a complex issue and is present in the existing SGV Greenway Plan area. Specific locations that were identified include the 210 Freeway at the Santa Anita Wash, Little Dalton Wash, Big Dalton Wash, and Live Oak Wash, the 60 Freeway at Thompson Creek, as well as all along the Rio Hondo River and San Gabriel River by the 605 Freeway.

  Community members expressed concerns about the presence and engagement of persons experiencing homelessness along the channels. They requested that the Plan activate the SGV Greenway Network with programming and activation, design techniques, providing transition

services, and conducting engagement to discourage and alleviate the pressures of persons experiencing homelessness. Community members commented coordination and engagement of persons experiencing homelessness will be needed to avoid further displacement and strained relationships with adjacent landowners.

- ***Environmental Justice Communities*** **–** Participants requested that the Plan ensures maintenance of the SGV Greenway Network in underserved communities to be implemented and maintained in an equitable fashion and not contribute to displacement of vulnerable landowners through the use of eminent domain or other forceful land acquisition processes. The SGV has many communities and pockets of underserved populations and communities that do not have access to green space. Many comments were shared regarding the preservation and maintenance of existing recreational spaces.
- ***Environmental Impact*** **–** Participants asked that the Plan consider the potential contact with hazardous places, plants, and animals to protect users and the natural environment. There were comments regarding incorporating animal crossings and removing invasive species to restore the native natural habitat. There was also a concern about being sensitive to the San Jose Creek area because of its proximity to potential pollution sites, including an existing battery recycling plant, the landfill, the 605 Freeway, and industrial and commercial businesses.

Plan Logistics and Feedback Incorporation

The engagement process was meant to build awareness of the Plan and generate ideas for the SGV Greenway Network. However, there were questions including who, when, and how the implementation will be funded and implemented. Weekly updates on engagement efforts and feedback were provided to the Plan Team so that communities insights were considered in the Plan's development. It was also ensured that the most recent content was presented in workshops and shared verbally in pop-up events to start conversations for potential implementation ideas. The SGV Greenway Network example Conceptual Designs and Design Guidelines and Standards were all informed by discussions and comments that were provided to the Plan Team.

Section 3: Feedback on Design Guidelines and Standards

The community made requests and comments for continuous multi-use paths, consistent signage, and welcoming gateways. The Design Guidelines and Standards will standardize the amenities and features of the SGV Greenway Network, including pathway configurations for rest spaces, pedestrians, and bicycles. The Plan Team offered ideas that provide community benefits that foster regional connections, environmental resiliency, personal and community health, and expanded local equity. Figures 2 through 4 depict example design visuals provided to community members.

Figure 2: Sample native plants that can be incorporated to the pathways to beautify and benefit the environmental health of the space.

Figure 3: Sample signage that can be incorporated into the pathways to help with wayfinding and standardize the look of the SGV Greenway Network.

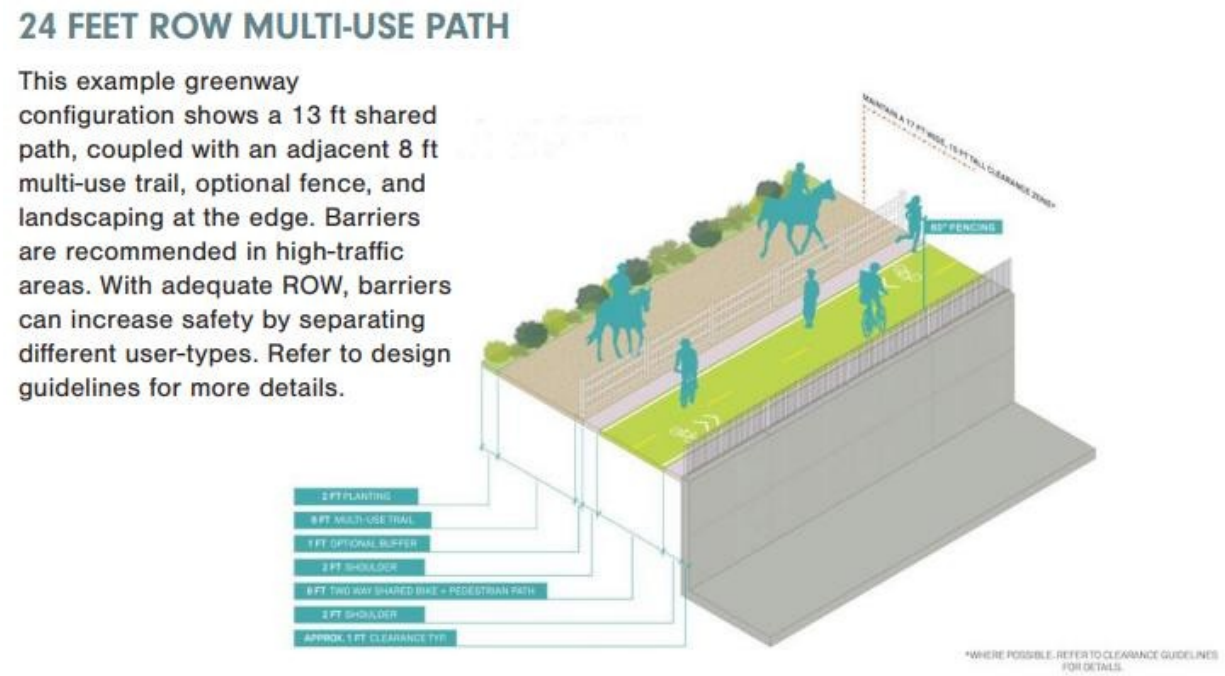

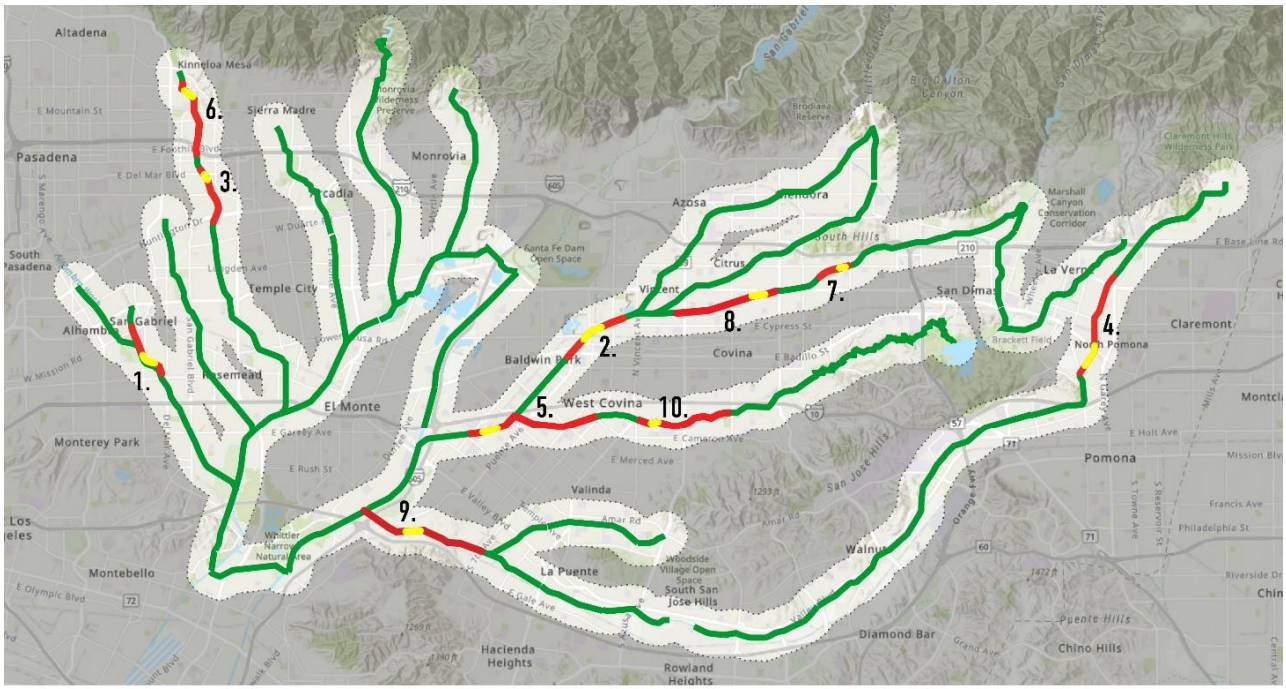

Figure 4: SGV Greenway Network 24-ft wide greenway cross-section example.

Section 4: Example Conceptual Designs

Comments from the engagement process reflected a desire for more recreational spaces. Some locations that were identified included existing recreation spaces and new access points. The Plan Team used five key lenses including Community, Equity, Circulation, Environment, and Synergy to prioritize the creation of ten example Conceptual Designs within the SGV Greenway Network segments.

The Conceptual Designs were presented to initiate conversations with municipalities and the community as inspiration for the implementation of the Plan (Figure 5). Conceptual designs include possibilities for stormwater management improvements and multi-use path features that align with participants' appeals for recreational spaces for personal and community benefit. Specific sites had additional potential due to location, existing site conditions, and surrounding uses.

CONCEPT AREAS

1. ALHAMBRA WASH AT VINCENT LUGO PARK
2. BIG DALTON WASH AT HILDA SOLIS PARK
3. EATON WASH AT EATON BLANCHE PARK
4. THOMPSON CREEK AT THE FAIRPLEX
5. WALNUT CREEK AT SYHRE PARK
6. EATON WASH AT SPREADING GROUND SITE
7. SAN DIMAS WASH AT ARROW HIGH SCHOOL
8. SAN DIMAS WASH AT HOLLENBECK PARK
9. SAN JOSE CREEK AT POCKET PARK
10. WALNUT CREEK AT POCKET PARK

N

0 1mi 2mi

Plan Area
Proposed Alignment
Concept Area

Figure 5: Example Conceptual Designs

The Conceptual Designs were developed based on feedback received from stakeholder groups that represented the needs, issues, and concerns of the respective groups that they represent. The potential Conceptual Designs considered the feedback, which resulted in the following items that were incorporated into the Conceptual Designs, as follows.

Stormwater Management

The primary use of the existing network of washes and rivers is the conveyance of stormwater. The Plan would leverage funding from the Safe Clean Water Program to capture and infiltrate dry weather flows from several Conceptual Design sites. Integrating stormwater management has the potential to provide environmental benefits and maintenance of facilities, will reactivate the natural water cycle, improve the water quality, and positively impact the vegetation and air quality in the Plan area. Installing new bioswales, bioretention, subsurface infiltration, trees for shade, permeable pavement, and educational signage would support the stormwater and environmental components of the SGV Greenway Network and build awareness of its benefits.

Multi-use Paths and Gateway Spaces

The primary goal of the Plan is to improve recreational opportunities and mobility within the Plan area. The Plan will align with existing path and park infrastructure and create new paths and access points to expand the network. Considering the community's requests for more accessible recreation space and natural spaces, implementing multi-use paths and trails that community members on multiple modes and abilities can use and access is a top priority. Ensuring there are continuous opportunities for equestrian use, walking, running, biking, and sitting to support community recreation, and physical and mental health.

Incorporating welcoming recreational opportunities through combinations of amenities supports activities and a sense of place for neighborhood residents. The Plan Team and community offered various ideas including but not limited to public artwork, native drought-resistant planting, community gardens, shade, gathering spaces, restrooms, seating, small picnic areas, kiosks, signage, play features, exercise equipment, and overlooks. Many community members shared that they enjoy various features and amenities of their existing local and regional parks but may travel from far away or do extensive planning to ensure a pleasant experience. Gateway parks and spaces in new and existing sites are used to invite visitors, activate the space, and enjoy nature. Safety concerns will require further coordination with municipalities and communities; however, attracting eyes and activity on the SGV Greenway Network can deter negative behavior.

Connectivity

The Plan considers the adjacent uses and infrastructure to align, enhance and extend SGV Greenway Network access through various modes of travel, including vehicles, public transit, bicycles, and on foot. Understanding the conditions of the roads (e.g., road configurations, features, vehicle miles travel, vehicle speed, etc.) and land uses (e.g., landowners, jurisdictions, etc.), informs implementation approaches and assesses what is needed in a specific site in addition to community feedback.

Community feedback indicated desires for safe access points, bike infrastructure, equestrian infrastructure, wayfinding, and coordination with public transit. These bolster the Plans goals and ideas to use the SGV Greenway Network for recreation and potential commute routes for work, schools, and services. Expanding the connections would create more physical access on a local and regional scale.

Neighborhood Asset

The SGV Greenway Network has the potential to be a regional and local asset for the community for educational and cultural purposes. The access points and reach of the washes and rivers intersect with areas that have a rich local history, underserved communities, and have a lack of recreational space and natural space. Suggestions offered include educational opportunities for adjacent schools, public art from local artists, and community gathering spaces as ways to attract local use.

In addition to the expansion in recreation, many community members thought the SGV Greenway Network could be a unique destination for the SGV attracting locals and tourists using historical signage in various sites to honor first nations, recognize local landmarks, and learn about how the SGV grew. The gathering and learning opportunities allow community members to take pride in their community and learn about its historical impact.

This page intentionally left blank.

Section 5: Community Engagement

The Plan's community engagement strategy aimed to reach the various stakeholders with interests in the SGV Greenway Network. The strategy included promotional materials, multiple types of social and digital media engagements, and descriptions of the workshops, Steering Committee presentations, and other public-facing activities, such as a dedicated website, an online map-based survey, and pop-up events throughout the SGV Greenway Network.

Some meetings and engagement activities were moved online to adhere to LA County guidelines around COVID-19. The team was able to successfully conduct the planned staff meetings, community engagement, and workshops online utilizing Zoom and Microsoft Teams. Once COVID-19 restrictions were lifted, in-person pop-up events and two community workshops were safely carried out at various sites in LA County.

Engagement Materials

Engagement materials included the development of an SGV Greenway Network brand, website, promotional materials, and social media material. All engagement materials can be viewed in Appendix A.

Plan Identity

The San Gabriel Valley Network logo and branding are inspired by the San Gabriel Mountains and the landscape itself with earth tones of blues and greens and a mountain scene. All SGV materials, including posters, flyers, PowerPoint presentations, and the website, utilize the branding color palette of shades of green, blue, and black. All materials are designed with the aim of legibility and accessibility for all viewers (Figure 6).

As part of the community engagement phase, give-away items (swag) were purchased to help increase public awareness of the Plan, as shown in Table 1. All items were branded with the official Plan logo and colors. The swag items were designed to be durable, useful items that would last until the SGV Greenway Network emerges and to raise the Plan profile, foster ongoing awareness after the engagement activity is completed, and generate goodwill from participants who received a gift.

Website

The SGV Greenway Network website, launched in 2020, is public facing and houses information related to the Plan. The website is managed by the Plan Team with access to keep the website current with the latest events, documents, presentations, and meeting notes. The purpose of the website is to provide details on the Plan goals as well as upcoming community events, current materials related to designs, workshops, and as a platform to provide feedback and receive updates. All comments submitted to the website are available in Appendix G.

The website provides a brief history of the area concerning flood control channels and the potential use of LA County Flood Control District (District) access right-of-way as community resources. From August 8, 2021, to August 8, 2022, the top two viewed pages were the home page (5,787 views) and the "Explore the Network" page (1,234 views). On average, viewers engaged with the website for one minute and 22 seconds.

The website is formatted to work on both computers and smartphones for website navigation; 51.5% of users accessed the site from their phones, and 47.6% of users accessed the site from a computer. The website is programmed to allow users to choose the content language in English, Chinese, or Spanish. The most popular selected language was English (2,553 users) then Spanish (30 users) and Chinese (11 users). The website link was shared throughout the engagement process through presentations, pop-up event materials, and social media, as shown in Figure 7 below for the "Explore the Network" page of the website.

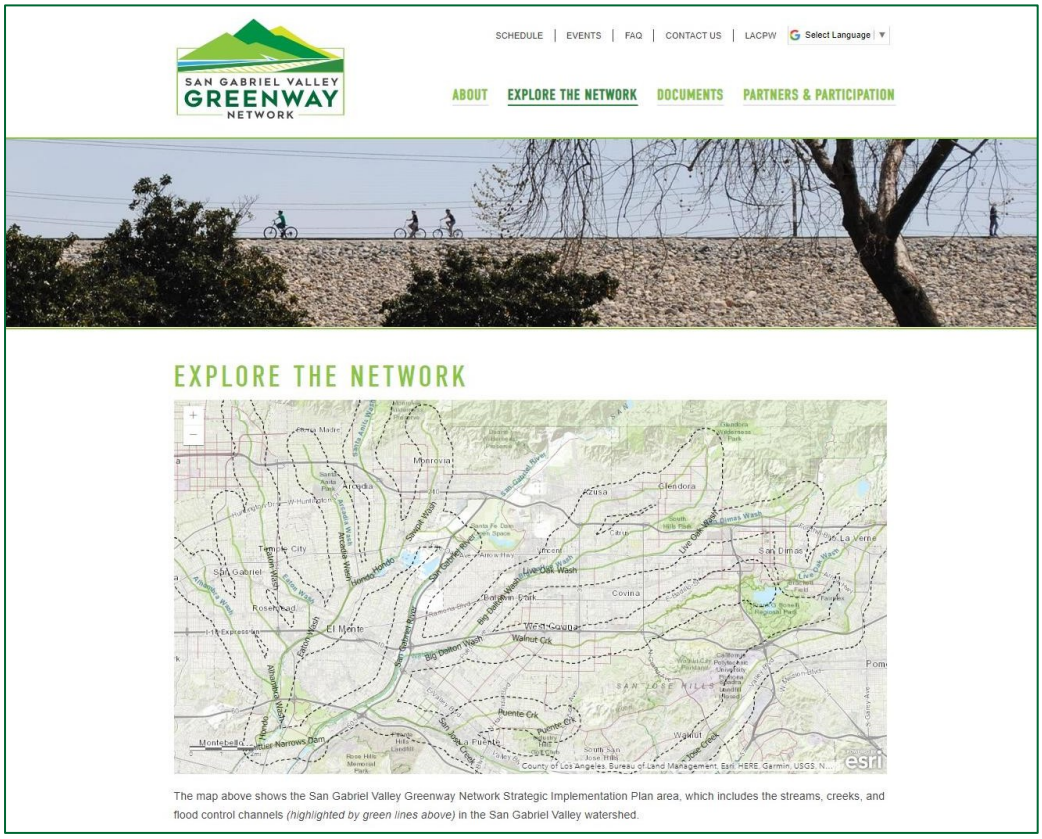

Figure 7: Screenshot of the "Explore the Network" webpage.

Promotional Materials

Various promotional materials were developed for the Plan. The promotional materials aimed to spread the word about the Plan, encourage community members to take the survey, and to increase attendance at workshops. The printed material was shared with the hope that individuals would take it home, do more research on their own, take the survey, and share it with their family and friends.

Promotional materials included a factsheet, social media imagery, workshop flyers, and survey flyers (Figure 8). Factsheets had background information, key goals, community benefits, and resources for the Plan. The factsheets were printed in English, Spanish, and Chinese languages and posted at regional parks and community centers as well as handed out during pop-up events and in-person workshops. Materials were posted on the websites and emailed to community members who had signed up to receive updates through the website, survey, and meeting sign-ups. Digital materials, including social media posts, were developed for each community workshop and promoted on various social media platforms (Figure 9).

Figure 8: Factsheets presented at a pop-up event.

Figure 9: Social media graphic for the June 2022 Workshops on the LA County Public Works Instagram.

Email Blasts

Community members were invited to sign up for email updates through the website, workshop registration, in-person sign-up, and the survey. Emails were sent prior to workshops to invite community members to register and attend the event, so they could provide their input. The emails included a Plan overview, workshop objectives, dates, registration, and Zoom meeting information.

Laminated Posters

As recommended by Nature for All, a Steering Committee member, the idea for laminated posters stemmed from one of the community workshop discussions. Laminated posters and were developed and posted in strategic locations along the Tier 1 priority areas of the Plan. Appropriate residential areas to post the posters which would be in areas with pedestrians and bike riders and easily visible

to passersby. The 11-inch by 17-inch posters contained information about the Plan, the website address, and a link to the project survey and were laminated to withstand rain and other natural elements.

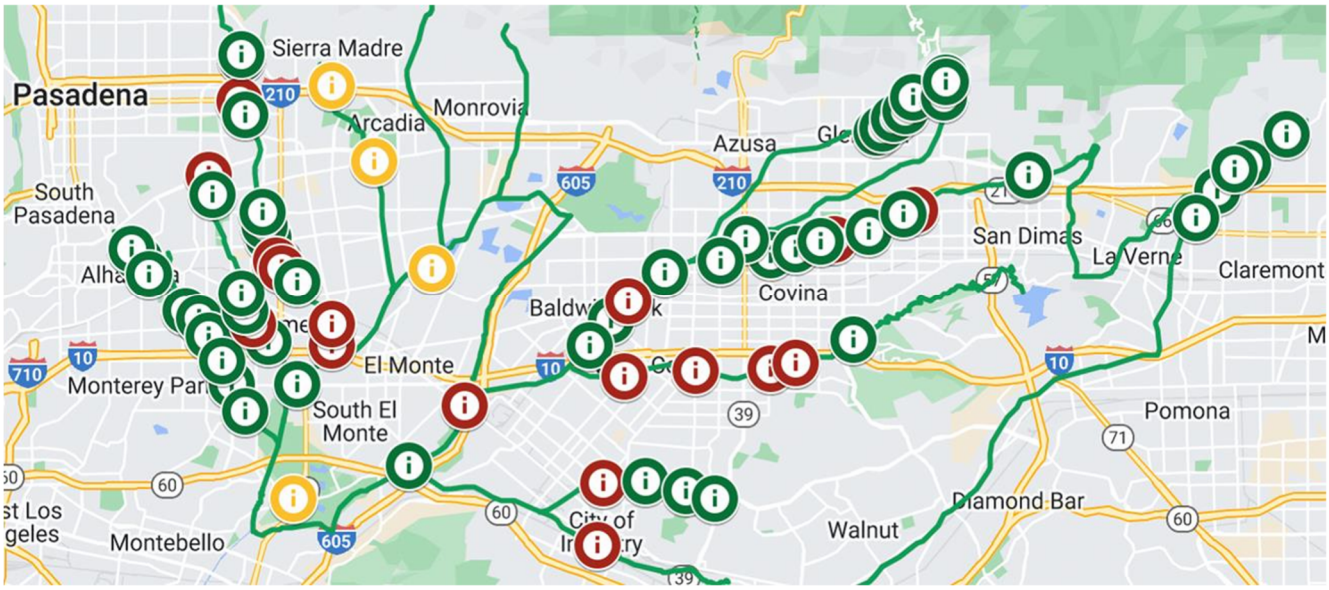

Figure 10: Posting Locations of Laminated Posters

Plan Team members visited the Plan area on three separate occasions and installed zip-tied laminated posters on the fences along the channels owned by LA County Public Works, as shown in Figures 10, 11 and 12. In some instances, a location identified online as a good place for posting was not accessible or appropriate for posting once accessed in person. The Plan Team took photos of all postings and kept track of which locations were successfully posted. Approximately 50 laminated posters were posted in April and May 2022.

A key goal of these postings was to motivate community members to participate in the online survey. A QR code and link specific to the laminated posters were added to the flyers to track the effectiveness of co-locating the flyers with the Plan area. There were 87 responses to the survey that originated from the laminated posters.

Figure 11: Laminated posters along the Big Dalton Wash in Glendora.

Figure 12: Laminated posters along the San Dimas Wash in Glendora.

Social Media

Social media images were created for online use to promote online and in-person workshops. For each workshop, two sets of social media posts were created. The first set of posts included the date and time of the workshop, workshop topic, and link to online registration and was publicized online a few weeks in advance of the workshop to encourage registration. The second set of posts contained the workshop date and topic, served as a reminder to join, and were posted online the week of and day of the workshops.

LA County Public Works publicized the promotional materials across their social media platforms, including Instagram, Twitter, Facebook, and Nextdoor, as shown in Figures 13 and 14. Plan Partners, Steering Committee members, and community groups, including Nature for All, ActiveSGV, WCA, and LA County Public Works, were involved in the process and shared the posts on their social media pages. Plan Team members who have networks in the SGV also shared social media posts in their circles of Facebook groups.

LA County Public Works summarized the metrics for the social media impressions (the number of views) and engagements (the number of clicks and reactions) for each workshop series, as shown in Table 2.

Table 2: Social media metrics

	Fall 21	Winter 2022	Spring 2022	Totals
Instagram Metrics				
Impressions	1,808	1,278	1,441	4,527
Engagement	39	31	45	115
Twitter Metrics				
Impressions	4,073	22,324	399	26,796
Engagement	119	45	4	168
Facebook Metrics				
Impressions	N/A	N/A	6,154	
Engagement	N/A	N/A	118	

Figure 13: Instagram post screenshot for the June 2022 workshop series.

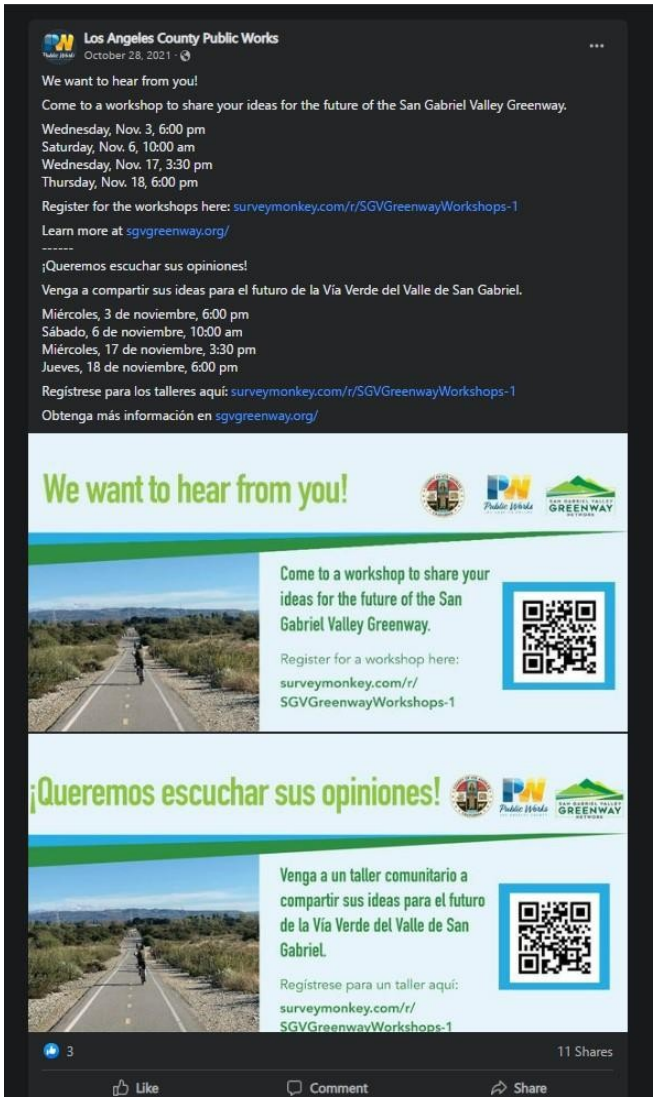

Figure 14: Facebook post screenshot for November 2021 workshop series.

Engagement Activities

Steering Committee

The Steering Committee was organized by LA County Public Works, and the meetings were facilitated by BC, MIG, KOA, Catalyst, PACE, and Studio-MLA. Steering Committee members were selected based on expertise in policy, technical skills, and community matters. The committee included the District, LA County Supervisorial Districts 1 and 5 (LACSD), Southern California Association of Governments (SCAG), San Gabriel Valley Council of Governments (SGVCOG), ActiveSGV, San Gabriel Valley Conservation Corps (SGVCC), Trust for Public Land (TPL), San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy (RMC), Nature for All, and the Los Angeles City/County Native American Indian Commission (NAIC). Steering Committee members were tasked with considering plans from holistic perspectives, seeking opportunities for a unified vision with recognition of the diversity in goals and needs in the SGV communities.

The Steering Committee met every two months since April 2020 via Teams for two hours to cover topics related to the current phases of the Plan. Steering Committee members were asked to share their opinions and expertise based on their backgrounds and community knowledge to help guide the direction of the Plan and anticipate community needs. The Plan Team presented technical and engagement updates to the group, and meeting minutes and presentations were posted on the website for the public to review after the meetings. The Steering Committee was also asked to assist in advertising and promoting engagement activities, such as the survey, workshops, and pop-up events.

Map-based Survey

A map-based survey was developed for the purpose of collecting feedback from residents and potential SGV Greenway Network users about the places, activities, and services that they have interest in using. All questions were optional; some questions allowed participants to select two or more answer choices, resulting in total counts greater than the number of respondents. The survey was available in English, Spanish, and Chinese language formats. A total of 1,546 community members completed the survey, with 507 paper survey responses and 1,039 online responses.

Extensive engagement was completed to promote the survey through email blasts, flyers, workshops, and pop-up events. The survey period was from October 14, 2021, to July 30, 2022. Flyers with custom QR codes linking the survey were developed for specific organizations to gauge participant responses by organization, as shown in Table 3. WCA created a paper version of the survey to accommodate potential respondents who may have technological barriers. A complete summary of survey results and promotional survey materials can be viewed in Appendix B.

Table 3: Measure of how the survey was accessed.

Unique QR Link Response by Organization	Percent
Active SGV	0.1%
Amigos de Los Rios	1.3%
Nature for All	3.3%
Women's Club	19.0%
Paper Surveys	32.8%
Location based Flyers	5.6%
Website Link	37.9%
Total	**100.0%**

The survey had 16 questions overall, with seven mapping questions for potential locations for uses, amenities, access, destinations, equestrians, concerns, and where their homes were approximately. There were also six supplemental questions for the Plan topics and three demographic questions. The paper surveys asked comparable questions; however, not every response was associated with a location. Figures 15 and 16 depict where respondents placed pins for areas of the SGV Greenway Network that they were likely to use and what types of amenities they envision, respectively.

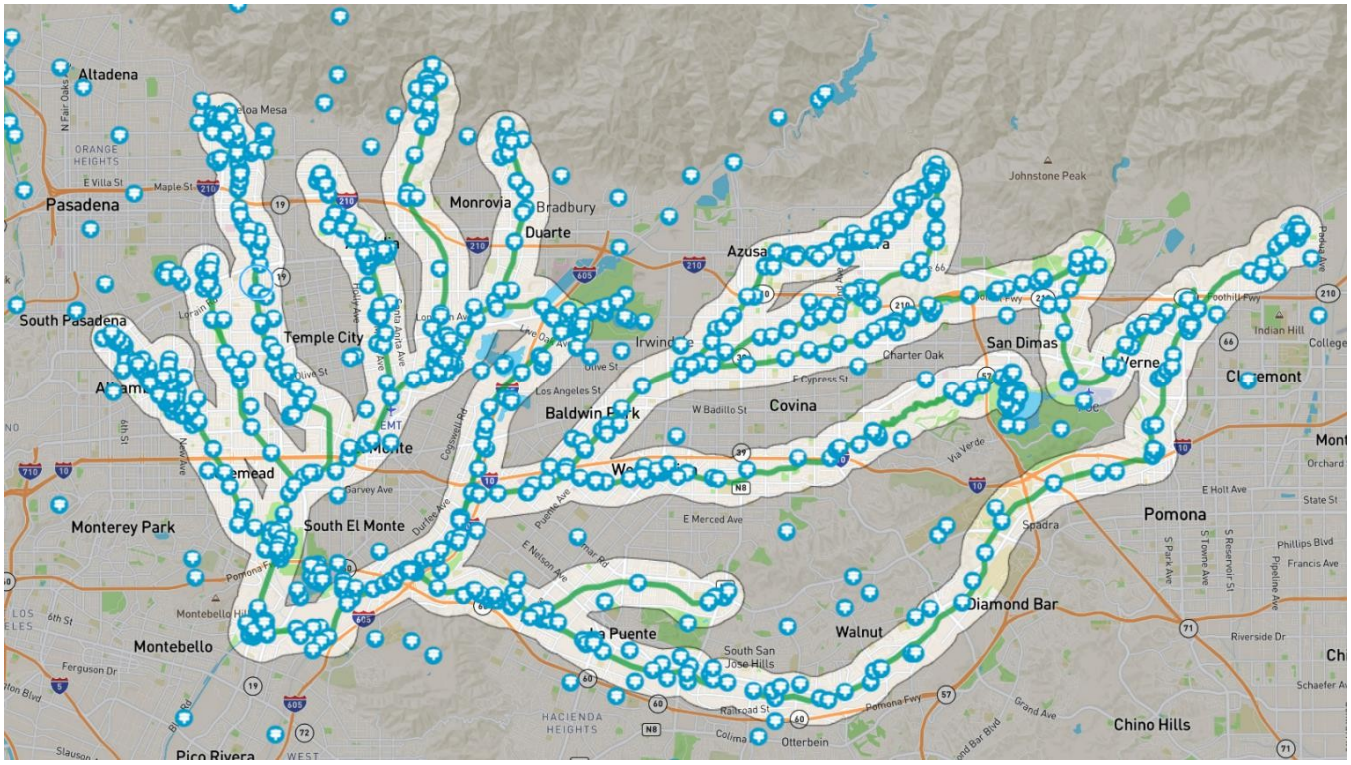

Figure 15: Map of pin responses to the survey question "What areas of the SGV Greenway Network would you likely use and how?"

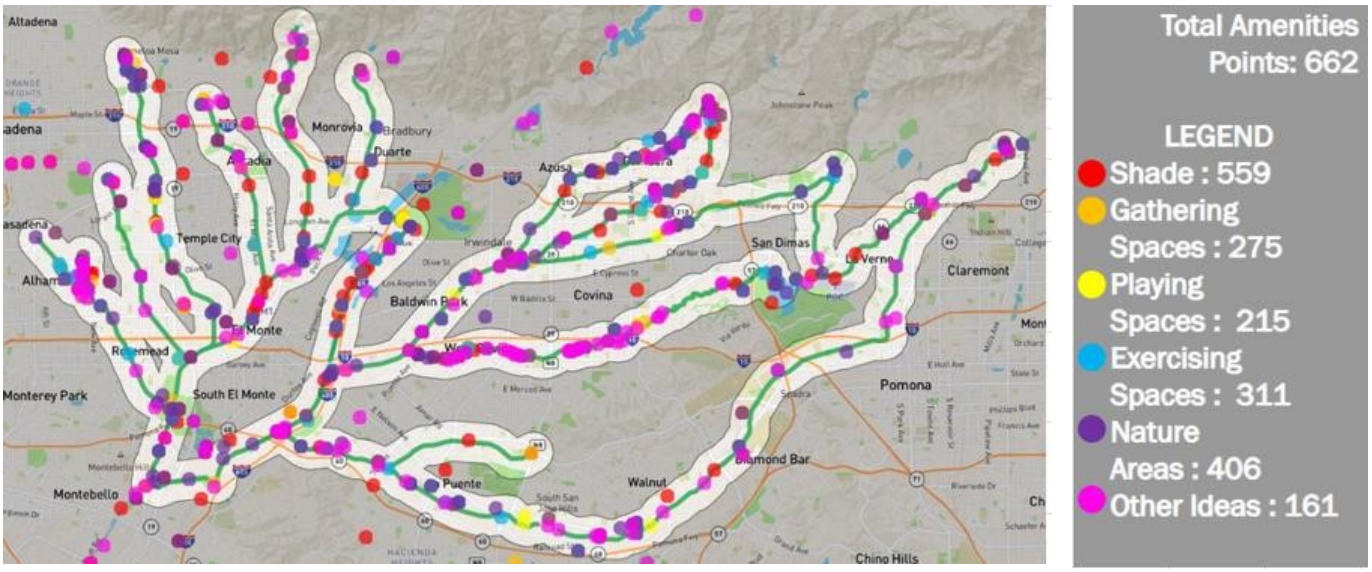

Figure 16: Map of pin responses to the survey question "What areas of the SGV Greenway Network would you likely use and how?"

Community Pop-up Events

The SGV Greenway Network Plan Team hosted 18 pop-up events during a variety of community events and at key locations in the SGV. The goals of the pop-up events were to build awareness and gather feedback regarding the Plan. The pop-up events were meant to intercept community members at existing recreational facilities or community events. The pop-up events were held during a transitional period of the COVID -19 pandemic, between December 2021 through July 2022. Staff upheld all COVID-19 guidelines and safety precautions directed by LA County Department of Public Health. Participants were able to attend pop-up events freely and attend as many pop-up events as they liked. Promotional and organizational materials for the pop-up events can be viewed in Appendix C.

The pop-up events had similar layouts and materials and were conducted in the same manner to ensure participants had comparable experiences. The pop-up events included a series of display posters summarizing the Plan overview, potential features, and potential configurations. Materials passed out to participants included a factsheet and survey flyer, both available in English, Spanish, and Chinese languages, as well as SGV Greenway Network branded swag, including bags, reusable aluminum water bottles, reusable plastic water bottles, and pens.

MIG researched and contacted local agencies and organizations to build interest and find opportunities to host pop-up events at parks, trails, and existing events (e.g., Farmers Markets, Earth Day, Arbor Day, etc.). Table 4 provides a list of pop-up event locations and participant tracking. Pop-up event dates and locations were posted on the SGV Greenway Network website and shared with community agencies and organizations to promote attendance. Various combinations of the Plan Team staffed the pop-up events based on availability and location. The majority of the pop-up events had a bilingual Spanish-speaking staff member.

The discussions that took place during these events were informal and informative. Plan Team members shared an overview of the Plan and described a vision of the potential uses, features, and configurations. The Plan Team encouraged and incentivized community members to take the online map-based survey and collected any verbal comments or feedback on sticky notes. Figures 17 through 26 show team members interacting with community members during various pop-up events.

Table 4: List of pop-up event locations and number of participants

#	Event	Date and Time	Number of Participants (Approximate)
1	Whittier Narrows Recreation Area	Saturday, December 18, 2021, 9:00 am – 2:00 pm	40
2	Peter Schabarum Regional Park	Saturday, January 8, 2022, 9:00 am – 2:00 pm	60

#	Event	Date and Time	Number of Participants (Approximate)
3	Santa Fe Dam Recreation Area	Saturday, January 15, 2022, 8:30 am – 1:00 pm	70
4	South Hills Park	Saturday, February 5, 2022, 8:00 am – 12:00 pm	20
5	Encanto Park	Saturday, March 5, 2022, 8:00 am – 12:30 pm	45
6	City of Industry – Expo Center Walkway	Saturday, March 12, 2022, 8:00 am – 12:00 pm	17
7	West Covina Farmers Market	Saturday, April 2, 2022, 9:00 am – 1:00 pm	20
8	Covina Farmers Market	Friday, April 8, 2022, 5:00 pm – 9:00 pm	20
9	South Pasadena Farmers Market	Thursday, April 14, 2022, 4:00 pm – 8:00 pm	55
10	City of La Puente Easter Egg Hunt	Saturday, April 16, 2022, 10:00 am – 1:00 pm	40
11	Whittier Earth Day	Saturday, April 23, 2022, 9:00 am – 12:00 pm	25
12	Hacienda Heights Earth Day	Saturday, April 23, 2022, 11:00 am – 2:00 pm	30
13	San Dimas Arbor Day	Saturday, April 30, 2022, 10:00 am – 1:00 pm	55
14	Baldwin Park Father's Day Ceremony	Saturday, June 18, 2022, 9:30 – 1:00 pm	30
15	Baldwin Park Concert Series	Thursday, July 21, 2022, 5:00 pm – 9:00 pm	100
16	El Monte Bus Station	Thursday, July 28, 2022, 12:00 pm – 5:00 pm	50
17	Baldwin Park Concert Series	Thursday, July 28, 2022, 5:00 pm – 9:00 pm	100
18	Gladstone Park	Thursday, July 30, 2022, 8:00 am – 1:00 pm	30
		Total Number of Participants Engaged	**777**

Community Workshops

The Plan Team hosted three series of community workshops. The first round was in November 2021, the second was in February 2022, and the third round was in June 2022. MIG facilitated the logistics of the workshop, interactive activities, and discussions as well as presenting engagement updates at each workshop. LA County Public Works staff answered questions and prompted participants to be aspirational with their ideas and be open with their concerns. BC and Studio-MLA described the Plan overview, Design Guidelines and Standards, and example Conceptual Designs for potential future implementation of the SGV Greenway Network.

Participants were invited through social media, email blasts, and phone calls to various organizations and agencies that MIG had researched from the pop-up event coordination. Community members were requested to register to gauge the number of workshop participants. The workshops in each series were held at varying times and dates with the goal of being accessible to varying audiences. All promotional materials, workshop presentations, and workshop summaries for the three-workshop series can be viewed in Appendix D (Community Workshop Series 1), Appendix E (Community Workshop Series 2), and Appendix F (Community Workshop Series 3).

Every workshop presentation had Spanish language interpretation available and began with a welcome from the Plan Team, a land acknowledgment of the first peoples of the ancestral land, and an overview of the workshop agenda. There were also open discussion periods when community members were able to openly ask questions and make comments. Workshops closed with an overview of key themes and next steps. Most workshops were held virtually on Zoom to adhere to LA County guidelines around COVID-19; however, the third series was held in-person at locations within the Plan area.

Community Workshop Series 1 – Fall 2021

This virtual series had four community workshops and was the first effort in November 2021 and was intended for community members to familiarize themselves with the Plan. The community workshops served to educate the community about the purpose and goals of the Plan, build an understanding of the planning process, gather feedback on amenities, uses, and potential concerns, and promote the Plan. The dates and times of the four workshops are detailed in Table 5. Various dates and times were offered with the goal of reaching as many community members as possible.

Interactive activities during the workshops included the chat feature on the virtual platform, digital polling, followed by small group discussions to generate ideas and draw out concerns. Polling set the stage for the discussions by asking the following:

- What would you most likely use the SGV Greenway Network for? (Multiple choice)
- What factors are most important to you for the SGV Greenway Network? (Multiple choice)
- On a scale of 1-5, how likely are you to use the SGV Greenway Network once complete?

Small group discussions allowed participants to get into specific issues, ideas, and locations. Every room had a notetaker, content experts from BC, KOA, and Studio-MLA, LA County Public Works staff, and was facilitated by MIG. All participants were organized into even groups.

Small group questions included:

- What amenities excite you the most about the SGV Greenway Network?
- What amenities would be most beneficial for your community? (Parks, shading, equestrian trails, etc.)
- Where would you like to see these amenities?
- What concerns do you have with or about the SGV Greenway Network?
- How can we better spread the word about the SGV Greenway Network?

Table 5: November 2021 Community Workshop dates and number of participants.

Workshop	Date and Time	Participants
Workshop 1	Wednesday, November 3, 2021, 6:00 – 7:30 pm	31
Workshop 2	Saturday, November 6, 2021, 10:00 – 11:30 am	11
Workshop 3	Wednesday, November 17th, 2021, 3:30 – 5:00 pm	36
Workshop 4	Thursday, November 18, 2021, 6:00 – 7:30 pm	9
Total		**87**

Community Workshop Series 2 – Winter 2022

The second virtual series of community workshops held in February 2022 was intended to update community members on the engagement efforts and to share potential bike path alignments and potential project components, as shown in Table 6.

Interactive activities during the workshop included the chat feature and small group discussions utilizing MURAL, an online digital whiteboard platform, to share and record comments on maps of the proposed bike path alignments and early implementation projects. Each room had a notetaker, content experts from BC, KOA, and Studio-MLA, LA County Public Works staff, and a facilitator from MIG. The small groups were organized by region: West (Alhambra Wash, Rubio Wash, and Eaton Wash), Central (Little Dalton, Big Dalton, San Dimas Wash, and Walnut Creek), South & East (San Jose Creek, Puente Creek, and Thompson Creek). Participants were able to decide which small group discussion they wanted to be a part of based on whether they lived, worked, or frequented any of the areas or trails within the specified regions.

Each small group was presented with the same set of key considerations (Available ROW, Major Crossings, and Early Implementation) and key questions, but the feedback was specific to each small group. Key questions included:

- How would the on-street alignment impact your use of the SGV Greenway Network?
- What type of amenities would you like to see included in vacant parcels and/or park opportunities?

Table 6: February 2022 Community Workshop dates and number of participants.

Workshop	Date and Time	Participants
Workshop 1	Wednesday, February 16, 2022, 3:30 – 5:00 pm	18
Workshop 2	Tuesday, February 22, 2022, 6:00 – 7:30 pm,	12
Total		**30**

Community Workshop Series 3 – Summer 2022

The third series of community workshops in June 2022 were in-person at the San Gabriel Library and Baldwin Park Community Center, which were centrally located within the SGV Greenway Network area, as shown in Table 7. In-person staff followed COVID-19 restriction guidelines of the venues. The Baldwin Park Community Center workshop coincided with a large community event, and the Plan Team took the opportunity to host a pop-up event to promote the workshop and Plan.

Participants attended an in-person open house and presentation recalling key findings from prior community engagement activities, described Design Guidelines and Standards, and presented ten example Conceptual Design projects. The interactive component included open house periods at the beginning and end of each workshop. The open house included poster stations situated around the room and staff for participants to engage with directly. This additional time allowed for some flexibility for attendees with limited time but also the possibility of more in-depth conversations. After the presentation, an open large group discussion was conducted during which participants were able to pose questions and comments directly to the Plan Team. Thoughts and ideas were recorded on wall graphic paper for all participants to see. Figures 27 through 29 depict the audience and presenters from the San Gabriel Library community workshop.

Table 7: June 2022 Community Workshop dates and number of participants.

Workshop	Date and Time	Location	Participants
Workshop 1	Thursday, June 16, 2022, 3:00 – 4:30 pm	San Gabriel Library	10
Workshop 2	Saturday, June 18, 2022, 10:30 am – 12:00 pm	Baldwin Park Community Center	7
Total			**17**

San Gabriel Valley Greenway Network

Community Engagement Plan

Overview

Los Angeles County Public Works is guiding the development of the San Gabriel Valley Greenway Network (SGV Greenway Network), which will provide greater connectivity between communities, improve access to green space and create new mobility and active transportation corridors while simultaneously upgrading area flood control facilities. The SGV Greenway Network will improve the quality of life for those who live, work, and play in the San Gabriel Valley and provide much needed open recreation and greenspace, especially for "park poor" and historically underserved communities in the region.[1]

The SGV Greenway Network passes through 32 municipalities and unincorporated communities. The SGV Greenway Network Community Engagement Plan will represent the needs of these cities, the multi-jurisdictional agencies which serve the area, and other communities and stakeholders with an interest in the SGV Greenway Network. Key stakeholder groups include environmental justice and health advocates, youth, alternative mobility groups, area residents, and businesses.

This plan describes the strategy to reach the various stakeholders with interests in the SGV Greenway Network. It includes descriptions of the proposed communication materials, the types of engagement platforms, social and digital media activities, and descriptions of the workshops, presentations, and other public-facing activities. It also presents an equity strategy which focuses on engagement activities for historically underserved communities to ensure their inclusion in the SGV Greenway Network process and outcomes, and adaptive measures to track its effectiveness.

Proposed Engagement Objectives

- **Ensure equity** in engagement, participation, process, project design, resource allocation, and project outcomes by applying the following questions based upon the equity definition and framework defined by LA County's "OurCounty" sustainability plan:[2]
  - "**Equity** is defined as an end state in which all groups have access to the resources and opportunities necessary to improve the quality of their lives."

[1] Los Angeles Sustainability Collaborative, PATHS FORWARD: THE SAN GABRIEL VALLEY GREENWAY PROJECT, 2016, p.4, http://lasustainability.org/wp-content/uploads/2016/08/SGV-Greenways-Report-Final-06.06.16.pdf

[2] "What do we mean by equity?" OurCounty, Los Angeles Countywide Sustainability Plan, July 2019, p. 16, https://ourcountyla.lacounty.gov/wp-content/uploads/2019/07/OurCounty-Final-Plan.pdf

- Is there **inclusive, accessible authentic engagement and representation** in processes to develop or implement programs and policies?
- Do programs and policies result in **a fair distribution of benefits and burdens** across all segments of a community, prioritizing benefits to those communities with highest need?
- Do decision makers **institutionalize accountability**? Are decisions made with a **recognition of the historical, cultural, and institutional dynamics and structures** that have routinely benefited privileged groups and resulted in chronic, cumulative disadvantage for subordinated groups?
- Do decisions consider **generational impacts** and **prevent unfair burdens** on future generations?

The following strategies are proposed to ensure equity considerations are integrated into the engagement process for the SGV Greenway Network.

- **Build awareness and capacity** among residents, communities, and other stakeholders about the SGV Greenway Network project, planning process, and opportunities.
- Ensure key stakeholders **understand and participate** in the process, and make sure all stakeholders have **equitable access to the resources** they need.
- **Create an accessible process** with a variety of engagement options and platforms (e.g., time, location, language, and non-digital options) to encourage participation in the SGV Greenway Network project planning and use, including capacity building when necessary to ensure equitable participation.
- Develop vision and priorities with input from a **cross-section of audiences and stakeholders** throughout the SGV Greenway Network, focusing attention on historically underserved communities in the region.
- **Demonstrate transparency** through open and ongoing interaction with the community throughout the planning process and clear communication about how public input will be incorporated in design and outcomes.
- Ensure outcomes from the plan **reflect the needs of and prioritize benefits to historically underserved communities** along the network.

Materials, Activities, Timeframes

Project Website (June 2021)

The team created a website to serve as the portal for all project information, any program videos, links to online surveys and virtual workshops, and news about SGV Greenway Network community workshops and events.

- The website includes: a project overview, goals, timeline infographic, and FAQ ("Frequently Asked Questions"); design guidelines and potential greenways projects; best practices research and related reports; copies of fact sheets and flyers; steering committee meeting minutes and event summaries; links to a map-based digital survey and to a comments and questions submission form; links to all surveys provided at community engagement events; draft project concept designs vetted by the client and stakeholder committee; and connections to related social media.
- The site is set to be updated regularly to include feedback from participants, answer questions and publicize upcoming opportunities for stakeholders to participate in the planning process. Information on the front page of the site will also reflect the current phase of the project.

Project Fact Sheets (June 2021 and March 2022)

A fact sheet, translated into multiple languages, has been developed as a basic tool to use for the duration of the project outreach process. A second fact sheet, a Community Guide, is an optional document that can be created at the end of the outreach process to summarize the key findings and to promote the emerging project alternatives. These will provide an overview of the project, infographics, including FAQs, a project timeline, and links to related social media and to the project website.

- **Fact Sheet 1: Backgrounder (June 2021):** The fact sheet will provide baseline information, including the purpose, goals and opportunities of the project and include infographics to show how this process will provide connectivity, mobility, and greenspace to communities along the right-of-way.
- **Fact Sheet 2: Community Guide – Optional (March 2022):** This optional Community Guide will review the planning process, review the design guidelines and preferred concept and priority projects, and will summarize community input and visions for the SGV Greenway Network. It will also provide information about how and where stakeholders can offer further input and gain information during the implementation phase of the project.

Digital Map-Based Survey (October 15 – November 30, 2021)

A map-based digital survey will be created to elicit additional community and stakeholder feedback. The surveys will include a "mobile-first" responsive design to ensure that the portal works on any digital screen size, from smartphone to desktop. Links to the survey and a QR code will be available on project flyers and at pop-up events to encourage participation. A draft of the survey design will be provided in the online platforms to test its functionality. Ongoing data analysis and summary of results will be provided regularly while the survey is active. A final summary will be submitted for review at the end of the survey.

Poster Boards (Developed in advance of each round of workshops)

Poster boards will convey project goals and objectives, opportunities, the planning process and how stakeholders can get involved. Three sets of static boards will be developed to correlate with each of the three proposed rounds of workshops and will include general information about the SGV Greenway Network. Presentation poster boards will be used at BC-led Pop-up Events or Watershed Conservation Authority (WCA)-led Community Briefings but may also be used independently by community partners. The approved Graphics Standards Guide will be used to create the project poster boards for use at community events. These boards will be designed to reflect the content from each of the workshop rounds discussed below.

- Round 1: Visioning and Opportunities (October 2021)
- Round 2: Design Alternatives (February 2022)
- Round 3: Preferred Concept (May 2022)

Community Workshops (Three Rounds of Workshops)

Three rounds of Community Workshops will be organized in each of the three outreach phases in locations along the SGV Greenway Network to educate stakeholders about the purpose and goals of the project, build an understanding about the planning and project process, and collect input on design guidelines and priority projects. To ensure a cross-section of the community and stakeholders is reached, these workshops will be held in or for different areas along the SGV Greenway Network,

at different times of day (or at times deemed accessible for the team and client), and/or via Zoom depending on health and safety restrictions due to the COVID-19 pandemic. A PowerPoint presentation will be developed for each round of workshops for staff to communicate project information, updates, and opportunities to key stakeholders and community partners. In addition, a static virtual version of community workshops (discussed below) will be available on the project website. Flyers and social media posts with links to these workshops will be provided to community partners and stakeholders. A summary of results will be submitted for review at the end of each workshop round.

Below is an explanation of the focus for each proposed round of workshops. Each round of workshops also correlates to the three general outreach phases.

- **Round 1: Visioning and Opportunities (October 26 – November 30, 2021):** The presentations and poster boards for Round 1 will provide information about the purpose, goals, and opportunities of the project; will include infographics and Tributary Narratives to show how this process will provide connectivity, mobility, and greenspace; opportunities to get involved; and include a project process infographic. **The first Kickoff Workshop is proposed to take place in October 2021.** Subsequent versions of the Round 1 Workshops can be scheduled to focus on specific tributaries or areas.
- **Round 2: Design Alternatives (February 1 – 28, 2022):** The presentation and posters boards for this second round of workshops will introduce the project's draft design alternative and draft set of priority projects and summarize community input and visions for the SGV Greenway Network. These will also include the project process infographic and highlight key milestones and events.
- **Round 3: Preferred Concept (May 1 – 30, 2022):** The Round 3 presentation and poster boards will synthesize the preferred concept for the SGV Greenway Network. These will likely include the projects list, typical cross-sections, adjacent park opportunities, and a refined map of the network among other elements.

Social Media Posts (Developed in advance of each round of workshops)

Project staff will create posts throughout the project timeline which relate to important project milestones, community workshops, and events. Posts and content will be provided to the County Public Information Officer to post on the County's official social media channels. In addition, the same posts and content will be distributed to Steering Committee members and other partner organizations as defined by County staff.

- Round 1 (October 2021)
- Round 2 (January 2022)
- Round 3 (April 2022)

WCA Briefing Sessions and Engagement (Delivered from October 2021 to April 2022, as opportunities arise)

Up to 16 community engagement events / briefing sessions will be delivered by the Watershed Conservation Authority (WCA) and its community partners as opportunities arise during the three phases of community engagement to keep stakeholders informed about the SGV Greenway Network Strategic Implementation Plan's development process and milestones and to educate partners and collaborators. Briefings by WCA with collaborator organizations will consist of standing meetings of stakeholder groups, such as advocacy groups, neighborhood or district associations, and local civic groups like Chambers of Commerce. For these briefings, information about the SGV Greenway Network Strategic Implementation Plan can be included as an agenda item rather than setting up exclusive meetings. WCA will also provide diverse engagement and education outreach and programs through its community partners that coincides with the three phases of community engagement.

BC Team Pop-Up Events (Delivered from October 2021 to April 2022, based on available opportunities)

A mix of tools and activities will be used by the BC team and collaborators to meet people where they are and provide a wide range of opportunities to allow stakeholders to participate in the SGV Greenway Network planning process. Like Briefing Sessions, Pop-Up Events are particularly useful for targeting areas, communities, and/or groups that are participating less in the SGV Greenway Network process or that are historically underserved or underrepresented in traditional public engagement. Pop-up activity opportunities will supplement the traditional community workshops and WCA Briefing Sessions. They are used to engage with key underserved and disadvantaged communities identified by the team and partners.

- **Intercept Activities** at community events and key locations along the SGV Greenway Network during each phase of the project as opportunities to meet people where they are and engage them about their needs and visions. Interactive opportunities including, for example, a QR code link to the survey, maps, and posters for adding comments and dot-voting activities will be provided for community members to discuss potential project ideas like greenway configuration, parklet opportunities, needed amenities, etc., and to provide input and feedback.
- **Walk shops** will be coordinated to provide opportunities like organized bike rides, trail/watershed hikes where participants are provided clipboards to take guided walks to specific locations of interest to discuss relevant issues. For example, at an entrance the discussion can focus on access, bike parking, crosswalks, and safety issues. Later, at a shaded spot the discussion can be about benches, shade, or other park-type of amenities. At a different point on the future path, the discussion can be about path configuration and mode split.
- **Roundtables** with members and leadership of area non-governmental organizations (NGOs), community-based organizations, and advocacy groups will serve as opportunities to present the purpose and goals of the project, get feedback about community visions and local needs, and expand engagement through their networks.
- **Focus groups** with key partner organizations can be organized to get feedback about the types of engagement, key geographies, relationships, and other information which can help the team understand how best to connect communities to the planning process and what types of education and engagement might be needed.

Engagement Logistics

Events

The team will create a chart of upcoming events in the SGV Greenway Network areas which could serve as engagement opportunities, such as at farmer's markets, street fairs, holiday events, and festivals. The client, stakeholder committee members, board representatives, city and agency staff, and community partners will be asked to review and recommend events.

Contact List

The team is developing a list of contacts of key stakeholder groups listed in the matrix below. This list will expand through recommendations from the client, stakeholder committee members, board and municipal officials and staff, and others. It will be updated throughout the project process.

The matrix below identifies the key audiences/stakeholder groups and the engagement tools and methods that will be used for each group:

- **Government and agency partners and stakeholder committee members:** These are representatives from the 32 area municipalities and communities in the network area, regional multi-jurisdictional agencies and governance groups, and members of the project stakeholder committee.
- **Community Stakeholders:** These are community and regional stakeholder groups who the team will include early in the engagement process to ensure project access, participation, and outcomes reflect the broad diversity of the SGV Greenway Network area.
- **Partners and Collaborators:** These are key community stakeholders, such as community-based organizations, NGOs, advocacy groups and influencers, who can serve as partners in the engagement and planning process and assist the team in education and engagement to membership bases and networks about the SGV Greenway Network.

Audience and Messaging Matrix			
Stakeholder Type	**Audience/Stakeholder Group**	**Engagement Tools**	**Activities**
Government and Agency Partners and Stakeholders	Government Partners: • LA County Board of Supervisors (Districts 1, 4, 5) • 30 Greenway Network Communities/Municipalities • Multi-jurisdictional agencies (LAC Parks and Rec, LACPH, River and Mountains Conservancy) • Regional Governance groups: SVG COG (see Water TAC and Water Committee)	Power Point Presentation Boards Digital Media Map-based Survey	Briefings at agency, board, municipal and related meetings, social/digital media postings
Community Stakeholders: Partners and Collaborators	Community Leaders and Influencers, including: • Belinda Faustinos, Nature for All • Active SGV Board Members: Rafael Gonzalez, Stephanie Ramirez, Yvette Martinez • Bruce Saito, CA Conservation Corps • Dorothy Wong, CABike, CICLE, Altadena Council • Jessica Meaney, Investing in Place • Viviana Franco, From Lot to Spot	Power Point Fact Sheets Digital Media Map-based Survey	Briefings, focus groups, social/digital media postings
Community Stakeholders: Partners and Collaborators	NGOs and Community-Based Organizations, such as: • Active SGV • Amigos de Los Rios • Asian Youth Center • Day One • Gente Organizada • Nature for All Advocacy Groups: • Mobility/Alternative Mobility • Environmental Justice • Water and Natural Resources • Youth and Youth Advocacy Groups • Health Organizations	Power Point Fact Sheets Project Posters Presentation Boards Digital Media Map-based Survey	Roundtables, community workshops and walk shops Pop-up intercepts at community and organization events, social/digital media postings
Community Stakeholders	Schools and School-Related Organizations • PTA groups • Student Environmental Groups • Safe Routes to Schools Programs • Area Colleges: Mt SAC, Rio Hondo, Pasadena City College, Citrus College, Cal Poly Pomona Service Organizations • Boy Scouts	Fact sheets Project Posters Digital Media Map-based Survey	Community storyboard setups, flyer, and social/digital media postings

Audience and Messaging Matrix			
Stakeholder Type	**Audience/Stakeholder Group**	**Engagement Tools**	**Activities**
	• Girl Scouts • Boys and Girls Club of SGV • YWCA of SGV • YMCA Civic Associations • Rotary • Kiwanis Faith-Based Organizations Local Businesses and Business Organizations • Key Regional Employers • City Chambers; SGV Regional Chamber of Commerce; SGV Economic Partnership • BIDS • Main St. Associations Neighborhood Associations • Neighborhood Watch Groups • Block Clubs Homeowners and Homeowner Associations (HOAs) Town Councils Renters Property Owners		

Fact Sheet English

The San Gabriel Valley Greenway Network

A PATH FORWARD

Mobility, recreation, and open spaces for the San Gabriel Valley

The San Gabriel Valley Greenway Network (SGV Greenway) Plan will transform the existing watershed into a modernized greenway network, providing residents with 130 miles of bike paths, trails, parks and open space. Established in 2017 by a Los Angeles County Board of Supervisors resolution to update these waterways and activate miles of underutilized rights-of-way into an interconnected network, the SGV Greenway will connect communities and improve access to open space and active recreation along the Rio Hondo and San Gabriel River watershed.

Key goals

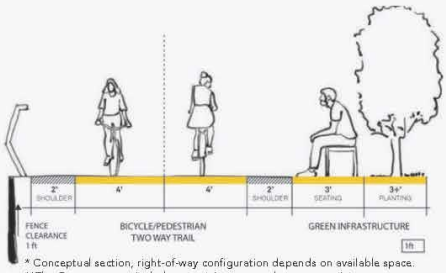

IMPROVE RECREATION AND MOBILITY opportunities for all abilities.

INCREASE ACTIVE TRANSPORTATION options to help reduce daily vehicle miles traveled (VMT).

BOLSTER EQUITY by improving safe access to recreation, jobs, schools, and shopping.

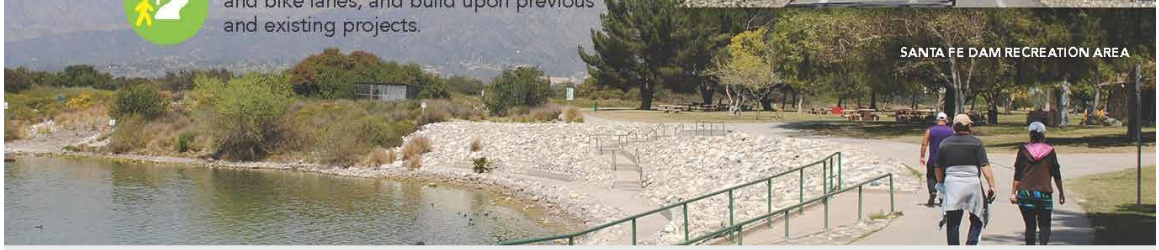

EXPAND ENVIRONMENTAL BENEFITS through added green spaces that improve stormwater capture.

CONNECT TO EXISTING GREENWAYS and bike lanes, and build upon previous and existing projects.

* Conceptual section, right-of-way configuration depends on available space.
**The Greenway may include equestrian usage where appropriate.

RIO HONDO BIKEWAY

SANTA FE DAM RECREATION AREA

SAN GABRIEL VALLEY GREENWAY NETWORK

Community benefits

Regional connections: A regional, interconnected network creates options for people to get around without having to depend on cars.

Environmental resiliency: Protecting our watershed helps create a resilient and healthy environment and provides opportunities for environmental education and stewardship.

Personal and community health: Outdoor socializing, recreational activities, community events, engaging with nature, and other activities can improve the physical and mental health of all residents.

Expanded local equity: Enhancing the greenway network helps bolster access by traditionally under-resourced communities to open space, recreation and exercise, and improved active and low cost transportation options.

Greenway network

Implementation

The SGV Greenway Plan will introduce several recommended types of projects based upon land and watershed access and community preferences. As an implementation plan, the SGV Greenway Plan will identify reaches with the most regional benefit and will include a list of shovel-ready projects that meet specific criteria. Although this plan will not provide access to specific funding sources for implementation, it will help set up reaches for future consideration with supportive analysis. Additional areas and other less-ready segments will also be identified for communities that want to develop a future greenway project.

What ideas do you have for the SGV Greenway Plan?

We want to hear from as many community members as possible to ensure that the SGV Greenway Plan reflects the needs of the entire community. Community members can share their comments through the project website (SGVgreenway.org), an online mapping survey, and at community workshops and events.

ADA and Title VI accommodations

Individuals requiring reasonable accommodations, interpretation services, and materials in other languages or in an alternate format may contact the Public Works at (626) 458-5100. Requests will be processed within 7 days. Individuals with hearing or speech impairment may use California Relay Service 711.

We want to hear from you!

Take our quick online survey to share your ideas for the future of the SGV Greenway! To learn more, please visit **SGVgreenway.org** or email **sgvgreenway@pw.lacounty.gov** for planning-related questions.

LOS ANGELES COUNTY

Fact Sheet Spanish

La Vía Verde del Valle de San Gabriel

UN CAMINO HACIA ADELANTE

Movilidad, recreación y espacios abiertos para el valle de San Gabriel

El plan de la Vía Verde del Valle de San Gabriel (Vía Verde del SGV) transformará la cuenca existente en una red de vías verdes modernizada, la cual le brindará a los residentes 130 millas de ciclovías, senderos, parques y espacios abiertos. La Vía Verde del SGV fue establecida en 2017 por la resolución de la Junta de Supervisores del condado de Los Angeles para modernizar estas vías fluviales y activar millas de senderos subutilizados en una red interconectada. Conectará comunidades y mejorará el acceso a espacios abiertos y a la recreación activa en toda la cuenca de Rio Hondo y Rio de San Gabriel.

Objetivos principales

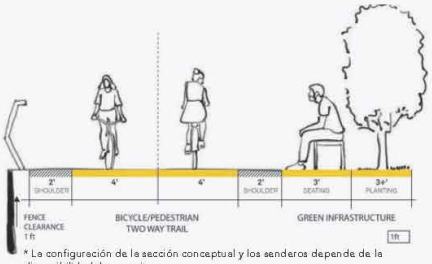

MEJORAR LAS OPORTUNIDADES DE RECREACIÓN Y MOVILIDAD para todas las capacidades.

AUMENTAR LAS OPCIONES DE TRANSPORTE ACTIVO para ayudar a reducir las millas recorridas por vehículo (VMT) a diario.

REFORZAR LA EQUIDAD implementando un acceso seguro a la recreación, los trabajos, las escuelas y al centro comercial.

EXTENDER LOS BENEFICIOS AMBIENTALES mediante la incorporación de espacios verdes que mejoren la captación de aguas pluviales.

CONECTARSE A LAS VÍAS VERDES y los carriles para bicicletas existentes, y desarrollar proyectos anteriores y actuales.

* La configuración de la sección conceptual y los senderos depende de la disponibilidad de espacio.
** La vía verde puede incluir el uso ecuestre cuando sea apropiado.

CICLOVÍA DE RIO HONDO

ZONA DE RECREACIÓN DEL DIQUE DE SANTA FE

Obtenga más información

Para obtener más información, visite el sitio web **SGVGreenway.org**.
Para comunicarse con una persona por cuestiones técnicas u otros problemas de planificación, envíe un correo electrónico a: : **sgvgreenway@pw.lacounty.gov**

SAN GABRIEL VALLEY GREENWAY NETWORK

Beneficios para la comunidad

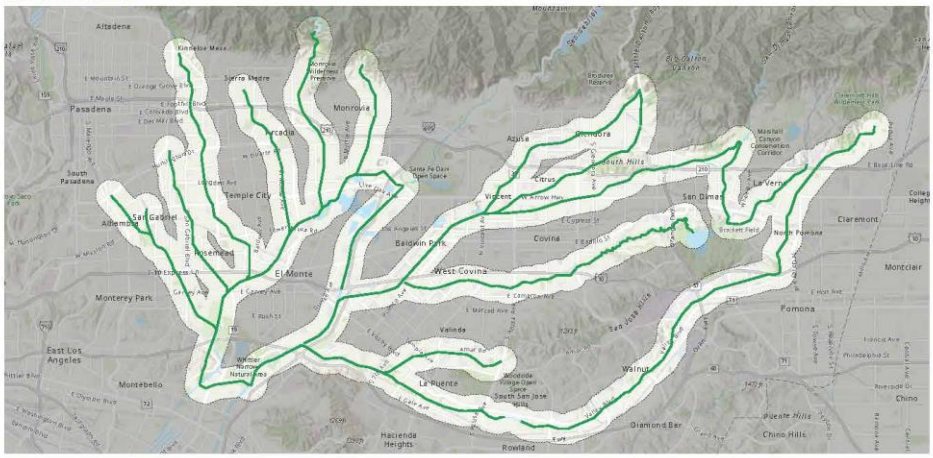

Conexiones regionales: Una red regional interconectada crea opciones para que las personas circulen sin tener que depender de automóviles.

Resiliencia ambiental: Proteger nuestras cuencas ayuda a crear un medio ambiente resiliente y saludable, y brinda oportunidades de educación sobre el medio ambiente y la protección ambiental.

Salud personal y comunitaria: La socialización al aire libre, las actividades recreativas, los eventos comunitarios, la conexión con la naturaleza y otras actividades pueden mejorar la salud física y mental de todos los residentes.

Extensión de la equidad local: Mejorar la red de la vía verde ayuda a reforzar el acceso de comunidades que tradicionalmente cuentan con escasos recursos a espacios abiertos, actividades recreativas y físicas, y opciones mejoradas de transporte activo y de bajo costo.

La Vía Verde

Implementación

El Plan de la Vía Verde del SGV introducirá varios tipos sugeridos de proyectos en función del acceso a las tierras y cuencas, y a las preferencias de la comunidad. Como plan de implementación, el Plan de la Vía Verde del SGV identificará los tramos con el beneficio más regional e incluirá una lista de proyectos listos para su aplicación que cumplan con criterios específicos. Si bien este plan no brindará acceso a fuentes específicas de financiación para su implementación, ayudará a establecer tramos para que se consideren a futuro con un análisis de respaldo. También se identificarán zonas adicionales y otros segmentos con menor preparación para las comunidades que quieran elaborar proyecto de vía verde a futuro.

¿Qué ideas tiene para el plan de la Vía Verde del SGV?

Queremos escuchar opiniones de la mayor cantidad posible de miembros de la comunidad para garantizar que el plan de la vía verde del SGV refleje las necesidades de toda la comunidad. Los miembros de la comunidad pueden compartir sus comentarios a través del sitio web del proyecto (SGVgreenway.org), una encuesta de mapeo en línea y talleres y eventos comunitarios.

Adaptaciones del Título VI y la Ley para Estadounidenses con Discapacidades (ADA)

Las personas que requieren adaptaciones razonables, servicios de interpretación y materiales en otros idiomas o en un formato alternativo pueden comunicarse con el Departamento de Obras Públicas al (626) 458-5100. Las solicitudes se procesarán en el plazo de los 7 días. Las personas con problemas auditivos o del habla pueden comunicarse con el Servicio de Retransmisión de California al 711.

¡Queremos escuchar sus opiniones!

Realice la rápida encuesta en línea para compartir sus ideas para el futuro de la vía verde del SGV. Para obtener más información, visite **SGVgreenway.org** o envíe un correo electrónico a **sgvgreenway@pw.lacounty.gov** si tiene preguntas relacionadas con la planificación.

圣盖博谷绿道网络

通往前方的道路

改善圣盖博的易行性、休闲娱乐和开放空间

圣盖博谷绿道网络 (SGV Greenway) 计划将把现有的流域转变为现代化的绿道网络，为居民提供 130 英里的自行车道、小径、公园和开放空间。洛杉矶县监事会于 2017 年通过一项决议建立网络，旨在将这些水道现代化，并启用数英里未被充分利用的路权，建成一个相互连接的网络。SGV 绿道将连接社区，并让人们更容易进出 Rio Hondo （里欧・洪多河）和圣盖博河流域沿岸的开放空间和活跃娱乐休闲地点。

主要目标

为所有人群**添加娱乐休闲和活动**的机会。

增加主动交通选项以帮助减少每日车辆行驶里程 (vehicle miles traveled, VMT).

通过提升娱乐休闲、工作、学校和购物的路径安全来**增强公平性**。

通过增加可改善雨水捕获的绿色空间来**扩大环境效益**。

连接到现有的绿道和自行车道，并以以前和现有的项目为基础进行建造。

里欧・洪多河自行车道

圣达菲水坝游乐区

SAN GABRIEL VALLEY GREENWAY NETWORK

社区福利

区域连接：区域性的互联网络为人们提供更多出行选择，而不必依赖汽车。

环境韧性：保护我们的流域有助于创造一个有韧性和健康的环境，并为环境教育和管理提供机会。

个人和社区健康：户外社交、娱乐活动、社区活动、走近大自然和其他活动可以改善所有居民的身心健康。

提升当地的公平性：提升绿道网络有助于支持传统上资源不足的社区可以享受开放空间、娱乐休闲和锻炼，并改善主动和低成本的交通选择。

绿道网络

实施

SGV 绿道计划将根据土地和流域通道以及社区的可及性引入几种推荐的项目类型。作为一项实施计划，SGV 绿道计划将确定具有最大区域利益的河段，并将包括满足特定标准已准备就绪的项目列表。尽管该计划不会为计划实施提供获得特定资金来源的途径，但它将有助于通过支持性分析为各河段准备好接受未来的计划安排。计划还将为希望开发未来绿道项目的社区鉴定其他尚未准备好的区域和其他部分。

您对SGV 绿道计划有什么想法?

我们希望听取尽可能多的社区成员的意见，以确保 SGV 绿道计划反映整个社区的需求。社区成员可以通过项目网站 (SGVgreenway.org)、在线地图调查以及社区研讨会和活动分享他们的意见。

ADA 和 Title VI 安排

需要合理范围内的特别安排、口译服务以及其他语言或替代格式的材料的人可以致电 (626) 458-5100. 联系公共工程部。请求将在 7 天内处理。有听力或语言障碍的人可以使用加州转接服务 711.

我们希望听到您的意见！

参加我们的简短在线调查，分享您对 SGV 绿道的未来的想法！
要了解更多信息，请访问 **SGVgreenway.org** 或发送电子邮件至 **sgvgreenway@pw.lacounty.gov** 了解与规划相关的问题。

Laminated Flyer Approach

March 23, 2022

Purpose:
The purpose of this activity is to post flyers about the SGV Greenway at physical locations along the proposed greenway network. The intent is to encourage awareness of the SGV Greenway Network and to foster participation in the survey.

Posting Areas:
The locations are typically at entrances to the channels that are currently gated and fenced. The posting locations are at sidewalk/street level to make the laminated flyer visible to local pedestrians. In addition, the proposed posting locations are within residential neighborhoods that would likely see pedestrians walking by.

Posting Locations:
A series of specific locations are proposed within the Tier 1 and Tier 2 portions of the SGV Greenway Network for posting the laminated flyers. The proposed locations are mapped here for reference https://www.google.com/maps/d/u/1/edit?mid=15camyLb-uVk-ISp0pbQHl1gydvWwbcCW&usp=sharing

Materials:
A tabloid size flyer (11 x 17) includes key information and links about the SGV Greenway. The single-sided tabloid flyer will be professionally laminated to ensure weather resistance. Once laminated, MIG staff will go directly to approved locations for posting starting the week of April 2, 2022. A paper-punch will be used to create two small holes in corners through which small zip-ties will then be used to fasten the flyer to the chain-link fences.

Tracking Participation:
A key goal is to motivate people to participate in the online survey. To track effectiveness of the flyers a unique link and QR will be added to the flyers. This will allow the team to track how many people participated in the survey because of having viewed the laminated flyers.

Removal:
The laminated flyers will be weather resistant but will not last indefinitely. The survey link and the website will continue to be active at least until the completion of the plan, so the flyers can stay up through that point. Once engagement is complete, LA County maintenance staff who manage the channels will be requested to remove and dispose of the flyers at their discretion.

Laminated Flyer

Swag Materials Approach

April 7, 2022 (Updated)

Purpose:
The purpose of this activity is to purchase branded giveaways for use at pop up events. The items, known as swag, are useful at community events to promote the project since they:

- Attract participants to a project booth and raise the project profile
- Help raise awareness of the plan through direct branding on the product
- Foster ongoing plan awareness after the engagement activity is completed through website url
- Generate goodwill from participants that receive a gift

Key Considerations:

As with any gift, a good gift is typically defined by how useful it is and how relevant it is to the person. In this case, some suggested things to consider are:

- The gift should be tied to the project to some extent so that it makes sense, and it relates to the SGV Greenway and/or activities that will take place on or near the Greenway
- The product should be useful and enjoyable to the user, it should be something that doesn't get quickly discarded or shelved.
- The product should be durable and last at least until the Greenway emerges.
- The product should be fully branded with the SGV Greenway logo and its colors should match
- Printing of full color logo typically adds cost

Swag Ideas:

Tote Bag – 15 x 16.5 ($4.89 per item with a minimum purchase of 500	Plastic Water – 20 oz. ($1.10 per item with purchase over 1000)	Aluminum Water Bottle – 24 oz. ($6.45 per item with purchase over 500)	Pedometer – only in red ($3.11 per item with purchase over 1000)
			
Mesh Zipper Storage Pouch – 5 x 4.25 in. ($2.00 per item when purchase over 1000)	Nylon Flyer – 9.75 in diameter ($1.79 per item with purchase over 1000)	Shoe Wallet / Pouch – 3.78 x 2.5 inches ($2.76 with purchase over 1000)	Small Pouch – 3 5/8 x 3 5/8 inches ($1.74 per item with purchase over 1200)
			
Recycled Cotton Twill Pouch – 8.5 x 5.75 in. ($1.98 per item when purchase over 2000)	Translucent Water Bottle – 22 oz. ($1.39 per item with purchase over 1000)	LED Bike Tail Light – ($3.57 per item with purchase over 1000)	Adjustable Cap – ($4.72 per item with purchase over 1000)

SGV Laminated Flyers

The San Gabriel Valley Greenway Network

A PATH FORWARD

How can we improve the San Gabriel Valley Greenway?

The San Gabriel Valley Greenway Network (SGV Greenway) Plan will help transform the San Gabriel River watershed into a world-class greenway—connecting communities and improving access to open space and recreation along the Rio Hondo.

The Plan includes several projects with over 138 miles of bike paths and open space to improving overall connectivity, recreation, and environmental health for residents in San Gabriel Valley.

Share your ideas!

Scan the QR code below to take our online mapping survey where you can explore the SGV Greenway as it exists today and provide ideas on how to improve it for the future. Your feedback will help inform the SGV Greenway Plan!

bit.ly/sgv-survey

¿Cómo podemos mejorar la vía verde del valle de San Gabriel?

El plan para la red de la vía verde del valle de San Gabriel (vía verde del SGV) ayudará a que la cuenca del río San Gabriel se transforme en una vía verde de clase mundial, dado que conectará comunidades y mejorará el acceso a espacios abiertos y recreación a lo largo del río Hondo.

El plan incluye varios proyectos con más de 138 millas de ciclovías y espacios abiertos con el fin de mejorar la conectividad general, la recreación y la salud ambiental para los residentes del valle de San Gabriel.

¡Comparta sus ideas!

Escanee el código QR a continuación para realizar nuestra encuesta en línea sobre mapeo, donde podrá explorar la vía verde del SGV tal como existe hoy y aportar ideas sobre cómo mejorarla en el futuro. Sus comentarios podrán ayudar a orientar el plan de la vía verde del SGV.

我们可以如何改进圣盖博谷绿道网络?

圣盖博谷绿道网络 (SGV Greenway) 计划将有助于将圣盖博河流域转变为世界级的绿道——连接起社区并让人们更容易进出 Rio Hondo （里欧・洪多河）沿岸的开放空间和活跃娱乐休闲地点。

该计划有多个项目，包括超过 138 英里的自行车道和开放空间，以改善圣盖博谷居民的整体连通性、娱乐休闲和环境健康。

SGV Laminated Flyers Approach
March 23, 2022

Purpose:
The purpose of this activity is to post flyers about the SGV Greenway at physical locations along the proposed greenway network. The intent is to encourage awareness of the SGV Greenway Network and to foster participation in the survey. Suggested by Nature For All, a steering committee member, the idea for laminated posters stemmed from one of the workshop discussions.

Posting Areas:
The locations are typically at entrances to the channels that are currently gated and fenced. The posting locations are at sidewalk/street level to make the laminated flyer visible to local pedestrians. In addition, the proposed posting locations are within residential neighborhoods that would likely see pedestrians walking by.

Posting Locations:
A series of specific locations are proposed within the Tier 1 and Tier 2 portions of the SGV Greenway Network for posting the laminated flyers. The proposed locations are mapped here for reference https://www.google.com/maps/d/u/1/edit?mid=15camyLb-uVk-ISp0pbQHl1gydvWwbcCW&usp=sharing

Materials:
A tabloid size flyer (11 x 17) includes key information and links about the SGV Greenway. The single-sided tabloid flyer will be professionally laminated to ensure weather resistance. Once laminated, MIG staff will go directly to approved locations for posting starting the week of April 2, 2022. A paper-punch will be used to create two small holes in corners through which small zip-ties will then be used to fasten the flyer to the chain-link fences.

Tracking Participation:
A key goal is to motivate people to participate in the online survey. To track effectiveness of the flyers a unique link and QR will be added to the flyers. This will allow the team to track how many people participated in the survey because of having viewed the laminated flyers.

Removal:
The laminated flyers will be weather resistant but will not last indefinitely. The survey link and the website will continue to be active at least until the completion of the plan, so the flyers can stay up through that point. Once engagement is complete, LA County maintenance staff who manage the channels will be requested to remove and dispose of the flyers at their discretion.

Appendix B.2: Map-based Survey Summary

The San Gabriel Valley Greenway Network Strategic Implementation Plan (SGV Greenway Network Plan) aims to transform currently underutilized pathways and spaces that run parallel to the San Gabriel Valley stormwater channels, washes, and creeks that stretch across communities in the San Gabriel Valley. The flood control channels were constructed to manage flood events with underdeveloped maintenance paths that limit other uses and access. This Plan aims to leverage the existing public right-of-way to create an interconnected network of multimodal bicycle and pedestrian pathways.

PURPOSE

Community engagement is central to the Plan. The Plan Team administered a community survey to query community members about their ideas, concerns and potential opportunities for desired uses and amenities as a part of the SGV Greenway Network. The Plan Team used both an online map-based survey and abbreviated paper survey to collect this information from October 14, 2021, to July 30, 2022. The online map-based survey allowed for participants to answer text-based questions and place pins on map of the project area to denote key locations relevant to the project including uses, amenities desired, access points, etc. The paper version included only text-based questions and was intended as a supplement for the digital version and utilized as a tool to assist people with difficulties accessing or using the online survey.

METHODS

Outreach and Engagement

The team used a variety of means to encourage the public to participate in the survey. The survey was promoted through digital and in-person platforms in English, Spanish, and Chinese languages and was provided in a paper format and on any device with Internet access. The team promoted the survey using social media, email notifications, and flyers and used both paid and free platforms to encourage diverse participation. Email notifications were sent to a contact list of 576 people.

Figure 1: Laminated flyer on the Greenway.

Flyers with custom QR codes linking to the survey were developed for targeted organizations to gauge participant response by the organization (see Table 1). A variety of community pop-up events were conducted, and flyers were posted at parks adjacent to the Greenway. The Water

Conservation Authority (WCA) created a paper version of the survey to engage potential respondents experiencing challenges with accessing digital formats. WCA engaged the community and promoted the survey in partnership with community-based organization events and through their constituencies. For a full description of the Engagement WCA facilitated with partners, please view Appendix A.

The survey included 16 questions and was available in English, Spanish, and Chinese languages. There was a total of 1,546 responses reported, 782 of the respondents completed the survey until the end and submitted their responses. For each question, a letter "n" is provided to identify the number of respondents to that individual question. All questions were optional, some questions allowed participants to select two or more answer choices, resulting in total counts greater than the number of respondents and total percentages greater than 100 percent. The value for n varied for each question since respondents could skip questions when taking the survey.

Table 1: How was the survey accessed?

Unique QR Link Response by Organization	Percent
Active SGV	0.1%
Amigos de Los Rios	1.3%
Nature for All	3.3%
Women's Club	19.0%
Paper	32.8%
Laminated Flyer	5.6%
Direct Link	37.9%
Total	100.0%

Analysis

While the results should not be considered statistically valid for the entire San Gabriel Valley population, the findings represent a broad enough sample to help the team identify common themes and concerns that can be combined with the various community engagement activities conducted for the Plan.

The 1,546 participants identified 4,408 locations on the map related to uses, amenities, access, destinations, and concerns, generating a rich set of results that were analyzed in conjunction with other project findings. The survey provided respondents with an introduction to the Plan and asked for their approximate home location by dropping a pin on a map to get survey participants familiar with the mapping tool. Participants were asked another six mapping questions related to the following categories: Uses, Amenities, Access, Destinations, Equestrians, and Concerns. Most of the online mapping questions had a follow-up question regarding specific characteristics of the geographic locations. The paper surveys asked similar questions; however, not every response was associated with a location.

The analysis of the results first considered the number of geographic pins placed on the planning area map then used a heat map to determine the key locations adjacent to the Greenway. The follow-up questions highlighted the key findings for each topic area and included a summary of the open responses.

KEY FINDINGS

Preliminary findings suggest that respondents want opportunities to access nature and recreation spaces. The other key findings include:

- **Widespread Support for the Greenway –** Throughout the survey and when directly asked, respondents were largely in favor of the implementation of the Greenway.
- **Strong Interest in Active Mobility –** The "Uses" category had the most map responses. Responses to the follow-up question showed that respondents want to use the Greenway for "Being active: walking, hiking, or biking." There was also an interest to use the Greenway for commuting opportunities.
- **Shade is Critical –** The "Amenities" category received the second greatest number of map responses. Many respondents identified locations within existing parks and along freeways and major arterials that needed shade with the note "Add shade here" and "Create areas to connect with nature". Respondents were also interested in additional Greenway amenities such as more vegetation, activity spaces, rest spaces, gathering spaces, bicycle amenities, educational signage, and connections to the streets and existing trails.
- **Bikes and Pedestrians Mix –** The most popular modes of transportation that respondents said that they would use to access the Greenway were cycling and walking.
- **Viable Access Points Identified –** A subset of the locations identified by respondents included San Bernardino Freeway (I-10), San Gabriel River Freeway (I-605), Pomona Freeway (SR 60), Foothill Freeway (SR 210), Eaton Canyon Trailhead, Almansor Park, Whittier Narrows Recreation area, Los Angeles County Arboretum and Botanic Garden, Santa Anita Park, Santa Anita Dam, Peck Road Water Conservation Park, Monrovia Canyon Park, Big Dalton Wilderness Area, Santa Fe Dam Recreation Area, Bonelli Park / Puddingstone Lake, South Hills Park, Ganesha Park, Pomona Fairgrounds, Live Oak Canyon, and Claremont Hills Wilderness Park.
- **Activities Beyond Recreation Noted –** Respondents identified additional desired activities such as shopping areas, restaurants, services, transit centers, and visits to friends and family.
- **Existing Equestrian Trails –** Appropriate places within the Equestrian category were in existing equestrian facilities and trails.
- **Safety is the Top Concern –** The most noted topic in the Concerns category was safety. There were references to various issues relating to safety including personal safety, privacy, seamless access, encampments, and cleanliness.

Table 2: Number of responses for each mapping question.

Pins / Areas	
Home	1053
Uses	1126
Amenities	662
Access	612
Destinations	601
Equestrian Areas	137
Concerns	217
Total Points	4408

DETAILED FINDINGS

The following is a summary of the major themes and feedback provided by the community during the survey period.

Uses

The Plan Team polled the community about potential locations and uses on the future Greenway. The term "Use" refers to the types of potential programming and purposes of the Greenway. Respondents identified 1,126 desired locations in the Greenway, with many locations adjacent to community and regional parks.

A subset of locations included Almansor Park, Whittier Narrows Recreation area, Eaton Canyon Trailhead, Santa Anita Park, Los Angeles County Arboretum and Botanic Garden, Peck Road Water Conservation Park, Santa Anita Dam, Big Dalton Wilderness Area, Santa Fe Dam Recreation Area, Bonelli Park / Puddingstone Lake, and Claremont Hills Wilderness Park.

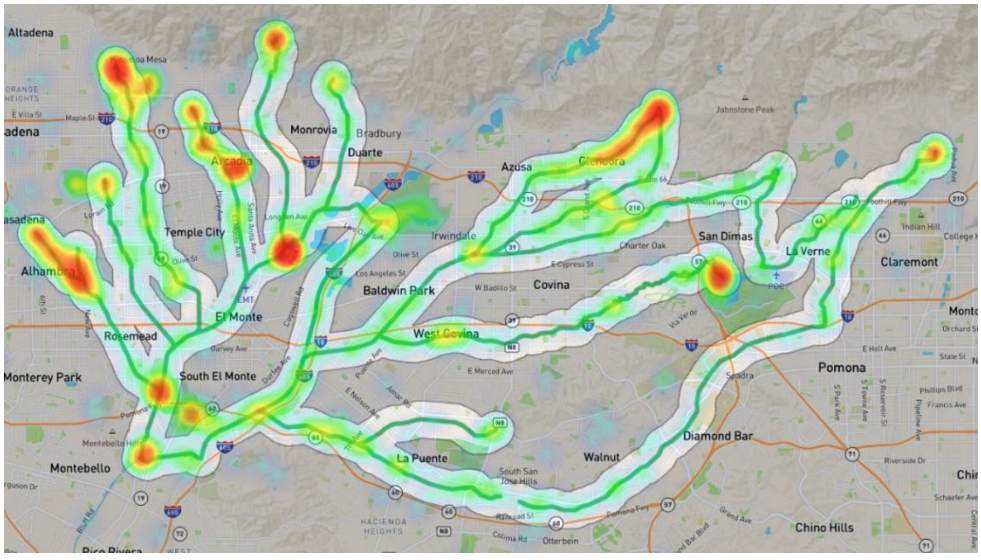

Figure 2: Heat map of the online responses to "What areas of the SGV Greenway would you likely use and how?"

When asked how they would use the space, the top two uses for the points were “Being active: walking, hiking, or biking” (918 responses) and “Enjoying the outdoors and nature” (348 responses). Open comments refer to the following:

- **Recreational Activity –** Respondents described hiking, biking, walking, and running as preferred activities. There was a desire for opportunities to exercise, camp, fish, swim, sports courts, playground, bird watching, appreciation of native and indigenous communities, outdoor learning space, picnicking / dining, public art, and spaces for dogs. Respondents stated they want to enjoy the outdoors and nature.
- **Commuting Opportunity** – Identified interests were using the Greenway to commute from one area to another and creating potential connections to workplaces, shopping, and school.

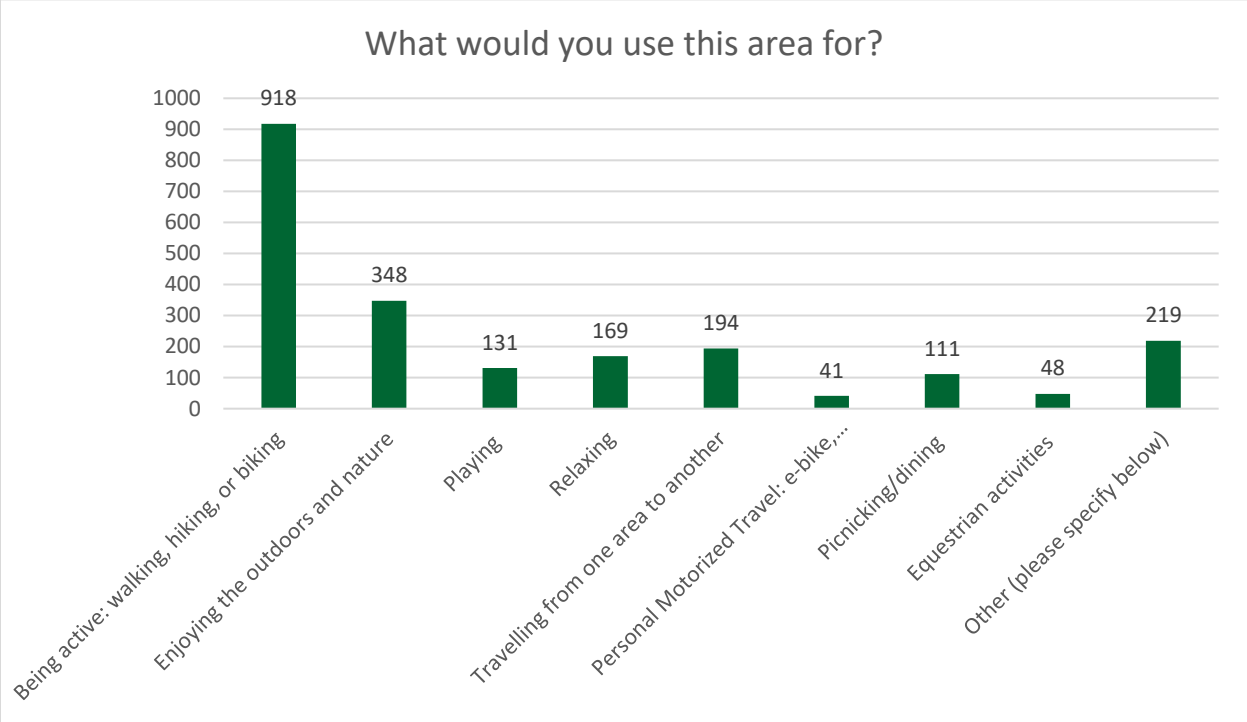

Figure 3: Chart of compiled responses to "What would you use this area for?" N:1361

Amenities

The mapping survey asked what amenities the community would potentially use on and along the future Greenway. Amenities included physical features that provide Greenway users convenience or enjoyment, such as shelter, seating, water fountains kiosks, etc. Respondents identified 662 potential locations for amenities.

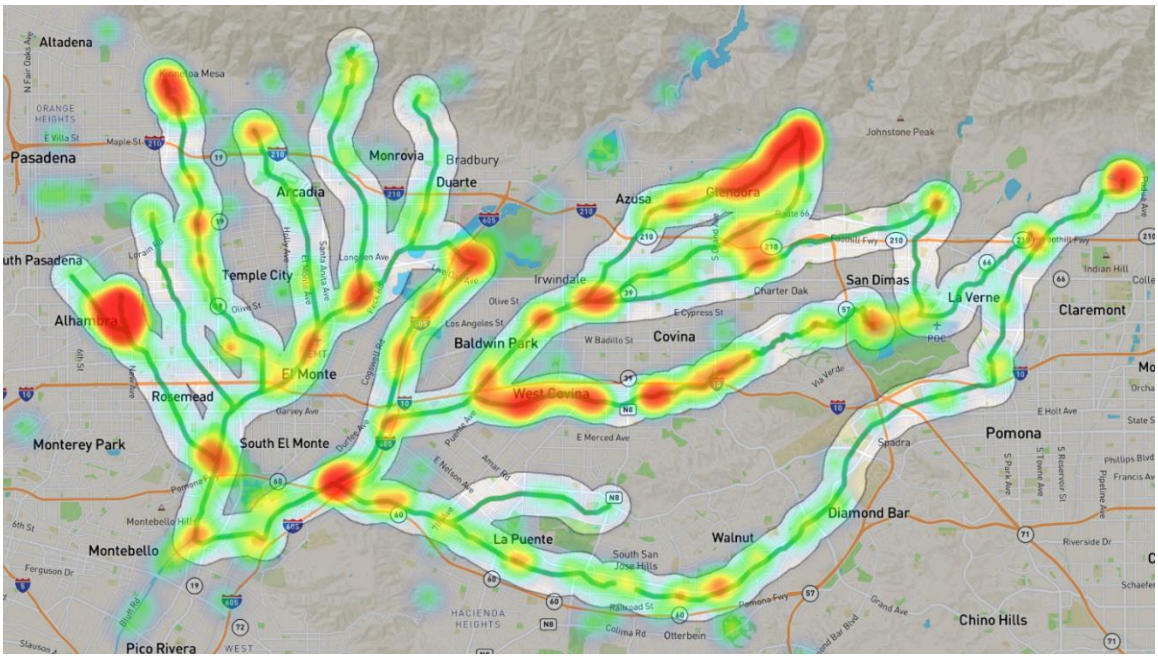

Figure 4: Heat map of the responses to "Where would you suggest adding recreational amenities on the SGV Greenway?"

Many of the points for amenities are in the vicinity of existing parks and along freeways and major arterials. Locations included Almansor Park, Rosemead Blvd., 10 Freeway, 605 Freeway, 60 Freeway, Whittier Narrows Recreation area, Eaton Canyon Trailhead, Los Angeles County Arboretum and Botanic Garden, Santa Anita Ave., Peck Road Water Conservation Park, Big Dalton Wilderness Area, Santa Fe Dam Recreation Area, Bonelli Park / Puddingstone Lake, South Hills Park, and Claremont Hills Wilderness Park.

The most popular requested amenities were "Add shade here" (559 responses) and "Create areas to connect with nature" (406 responses). Open comments refer to the following:

- **Vegetation –** There were suggestions for planting trees and native landscaping. Some locations specified placing rocks, bioswale, planting cherry blossom trees, willows, and other trees. Throughout the survey, respondents indicated that shade was an important concern, and numerous suggestions indicated to add shade to the Greenway.
- **Activity Spaces –** There were suggestions to create more activity spaces for fishing, community gardens, pocket parks, amenities for horses (e.g., arenas, water fountains, paths, and hitch), an aquarium, racquetball courts, rock climbing, lawn bowling, playgrounds, educational spaces, and spaces for dogs (e.g., dog runs, water fountains, and waste bins).

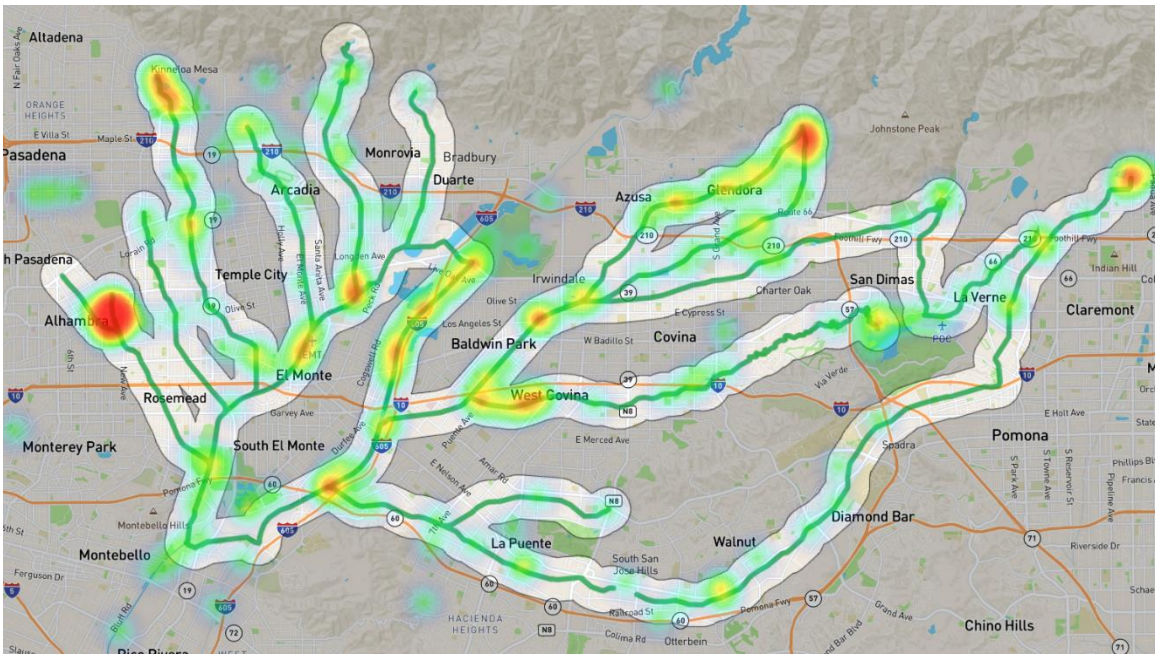

Figure 5: Heat map of where respondents wanted shade.

- **Resting Spaces –** A large portion of responses described that they would like to see places to stop, and rest after bicycling, walking, and jogging. Some respondents specified placing restrooms, water stations, sunscreen stations, picnic tables, benches, and places to enjoy views of the area.
- **Bicycle Amenities –** Many comments described a variety of bike amenities, including pumps, repair station, skills park, and bike paths / bikeways, to incorporate into the bikeway.
- **Gathering Spaces –** Suggestions included creating more park spaces (gateway / transitional, pocket parks, and dog parks), educational spaces, and seating areas with barbecue areas to actively gather people.
- **Signage –** Respondents suggested including educational and cultural historical signage for the plants and the region.
- **Connections –** Most comments described potential locations to create connections to existing facilities and trails using bridges, underpasses, sidewalks, and paths. Overall, there was a desire to use the Greenway to connect with natural spaces.

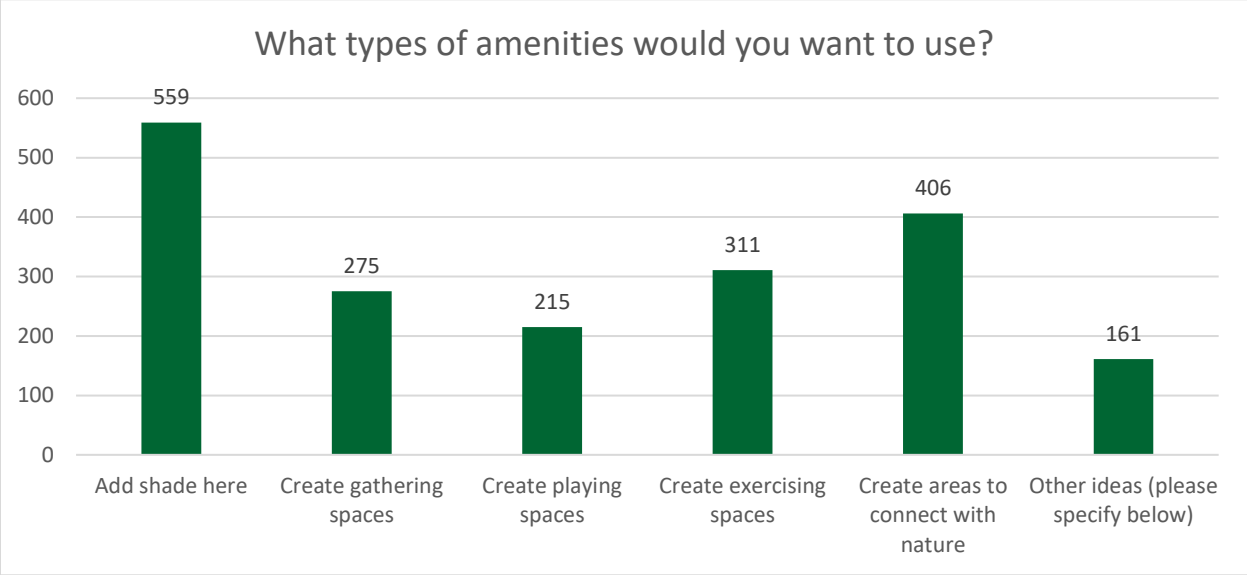

Figure 6: Chart of compiled responses to "What would you use this area for?" N:920

Access

The survey asked the community about potential access points for Greenway, and 612 locations were submitted. Respondents identified potential access points at existing trailheads, parks, and service roads. Many of the points identified for amenities were in the vicinity of the edges of the Greenway, local parks, and regional parks.

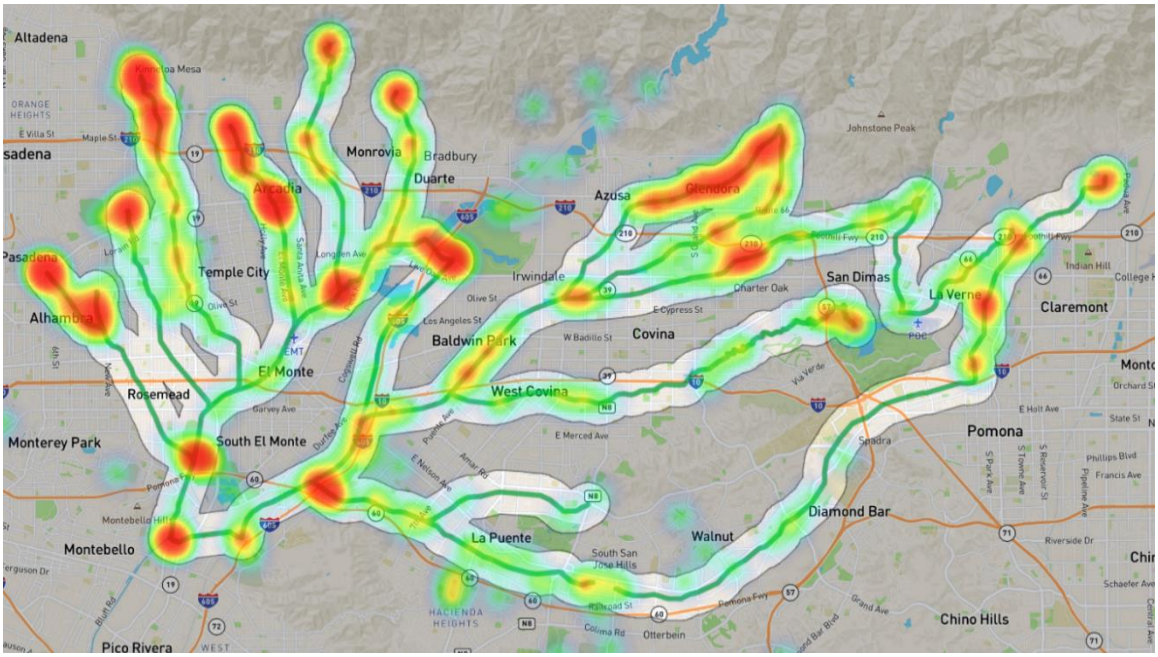

Figure 7: Heat map for responses to "Where would you access the SGV Greenway?"

A follow-up question asked, "How would you get there?" to get an idea about the various modes of transportation that could be used on and around the Greenway. The top two most popular modes were bicycling (541 responses) and walking (444 responses). Open comments refer to other modes, mostly driving but there were mentions of public transit (trains and bus lines), electric scooters, and bicycles. Respondents mentioned using multiple modes on a single trip to the Greenway.

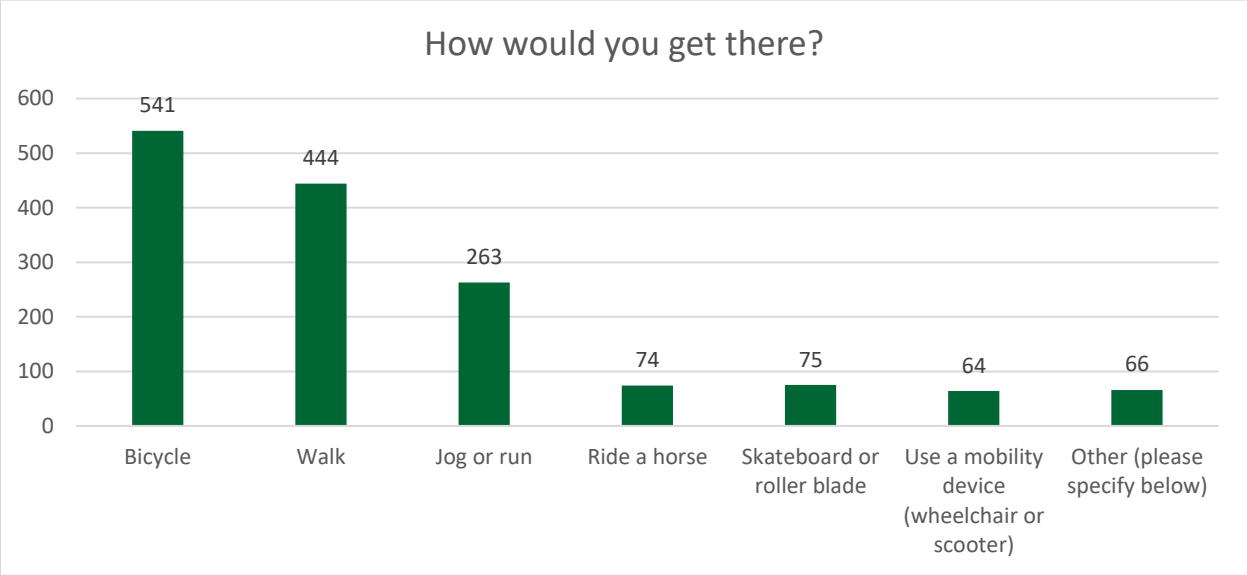

Figure 8: Chart of compiled responses to "How would you get there? Check all that apply." N:700

Throughout the survey, specific areas were called out as potential locations to incorporate connections and access points. Recreational areas include the San Gabriel Mountain Trails, San Gabriel River Trail, Higginbotham Park, Orangewood Park & Soccer Complex, Marshall Canyon Trails, and Brackett Field near Bonelli Park / Puddingstone Lake, and Duck Farm near Whittier Narrows Recreation Area. Urban areas that were called out include Alhambra, Arcadia, Downtown Los Angeles, Cal Poly Pomona, Azusa Pacific University, Mt. San Antonio College, Puente Hills Mall, Forest Lawn Cemetery, Crossroads Parkway, and water reclamation facilities near Whittier Narrows Recreation Area.

Destination

The survey asked where and how respondents would potentially use the future Greenway. The term "Use" refers to the types of potential programming and purposes of the Greenway. There were 601 responses showing what destinations respondents would likely travel to using the Greenway, many of the locations are in the vicinity of community and regional parks.

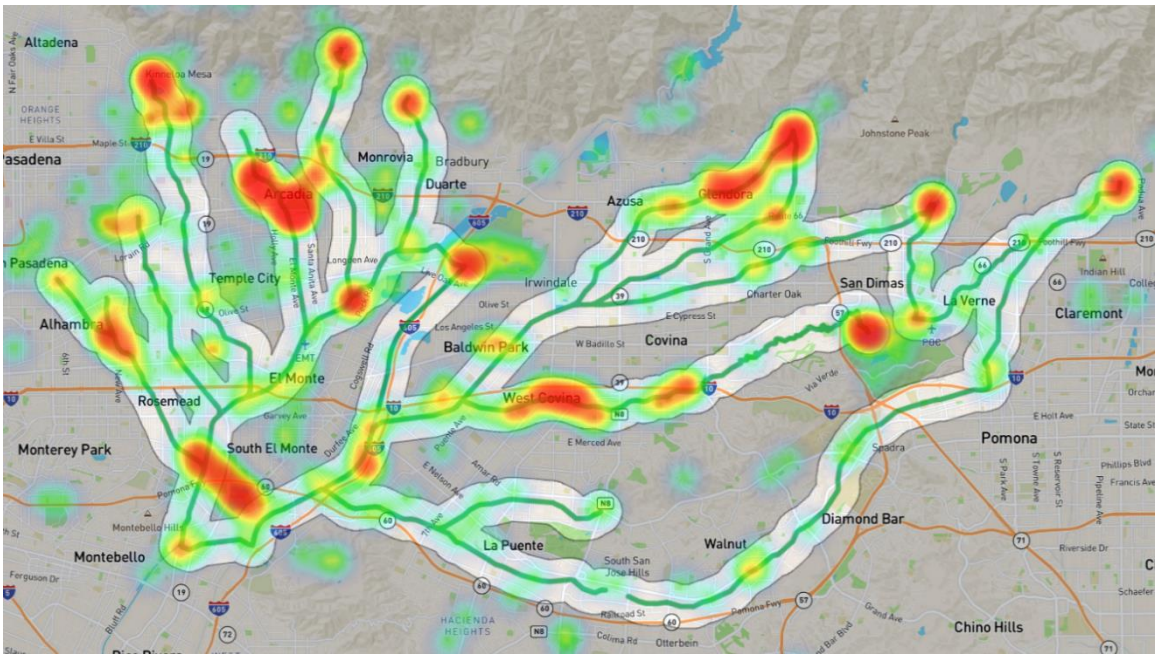

Figure 9: Heat map for responses to " Please help us locate the types of destinations you would likely travel to using the SGV Greenway?"

The top two destination types were “Parks or other recreational spaces” (718 responses) and “Shopping, restaurants, or services” (233 responses). Open comments refer to the following:

- **Parks and Other Recreational Spaces** – Many comments referred to wanting to visit nature centers, community centers, equestrian centers, trailheads (biking, walking, and equestrian), parks, lakes, rivers, streams, and beaches. Some specific areas that were recommended included the San Gabriel River Bike Trail, Pico Rivera Sports Arena, Pellissier Village, El Monte, Whittier Narrows, Bonelli Regional Park, La Verne, and the Emerald Necklace.
- **Shopping and Restaurants –** There were suggestions to use the Greenway to go to specific places in the San Gabriel Valley for shopping and eating. Shopping destinations that were recommended included Plaza West Covina, Lakes Entertainment Center, Glendora Ave Shopping Strip, Eastland Mall, and IKEA. There was a desire to have places to stop for a snack or breakfast after using the Greenway. There were suggestions for cafes, restaurants, and a brewery. Porto’s Bakery was named specifically.
- **Services –** Respondents offered different types of services for potential destinations, including church, medical, educational, gym, bank, and civic centers. Specific locations that were mentioned include Huntington Library & Garden, Hurst Ranch Museum, and the Queen of the Valley Hospital.
- **Transit Centers –** Some respondents stated they would use it as a route to get to transit centers and stops for buses, trains, and Park and Rides. Transit lines that were mentioned include Foothill Transit Bus and Metro Gold Line stations (Sierra Madre and La Verne).

- **Friends and Family –** Respondents said they would like to use the Greenway as a destination to hang out with friends and family. Some also stated they would use it as a route to visit friends and family.

Figure 10: Chart of compiled responses to "What types of destinations you would likely travel to using the SGV Greenway? Check all that apply." N:947

Equestrian

Equestrian access and uses of the space were additional purposes of the multi-use trail for the future Greenway. The mapping option for this question allowed respondents to highlight areas where they thought equestrian activities would be the most suitable. There were 137 responses showing what areas of the Greenway would be ideal for equestrian activities.

Some respondents outlined the entire Plan Area or large regions of it, which could be due to respondents having difficulty using the tool. It is also possible that some want equestrian access throughout the Greenway. Many of the locations are in the vicinity of existing equestrian amenities including Arcadia, Glendora, Altadena, Chino Hills, San Jose Creek, Whittier Narrows, San Gabriel River, and Rio Hondo River. There were comments regarding not knowing enough about the existing amenities or what would be possible. This topic did not have a follow-up question.

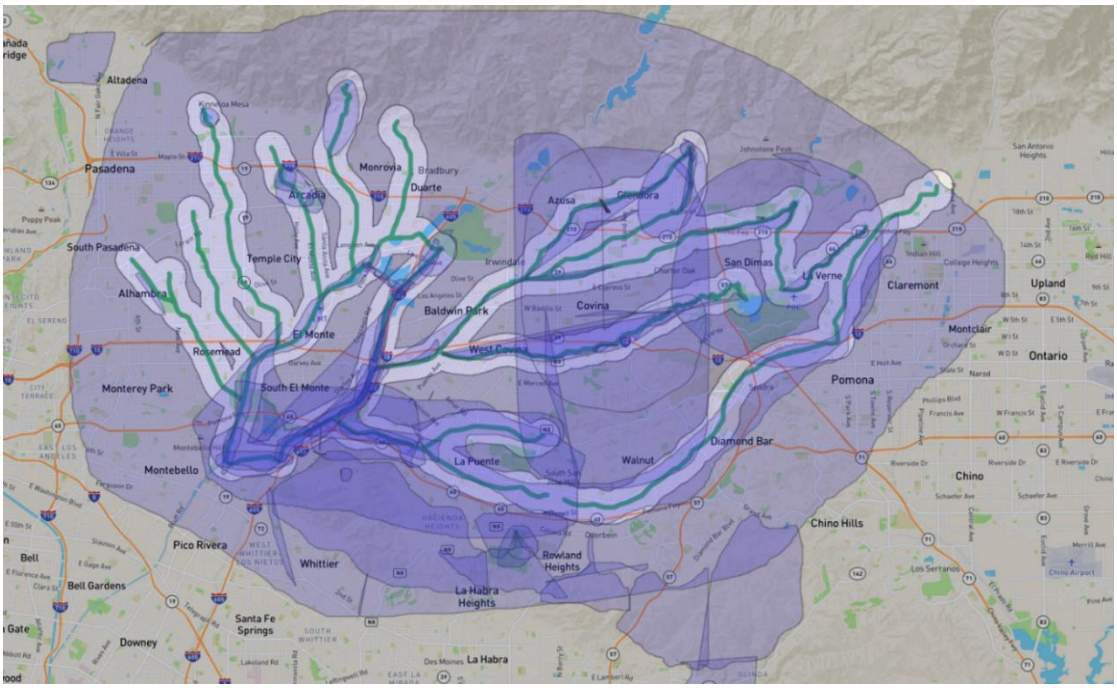

Figure 11: Map of the marked areas respondents thought suitable for the Greenway. N:137

Concerns

The Plan Team polled the community on where and what kind of concerns they have for the future Greenway. 217 responses showed what areas of the Greenway they would be concerned about.

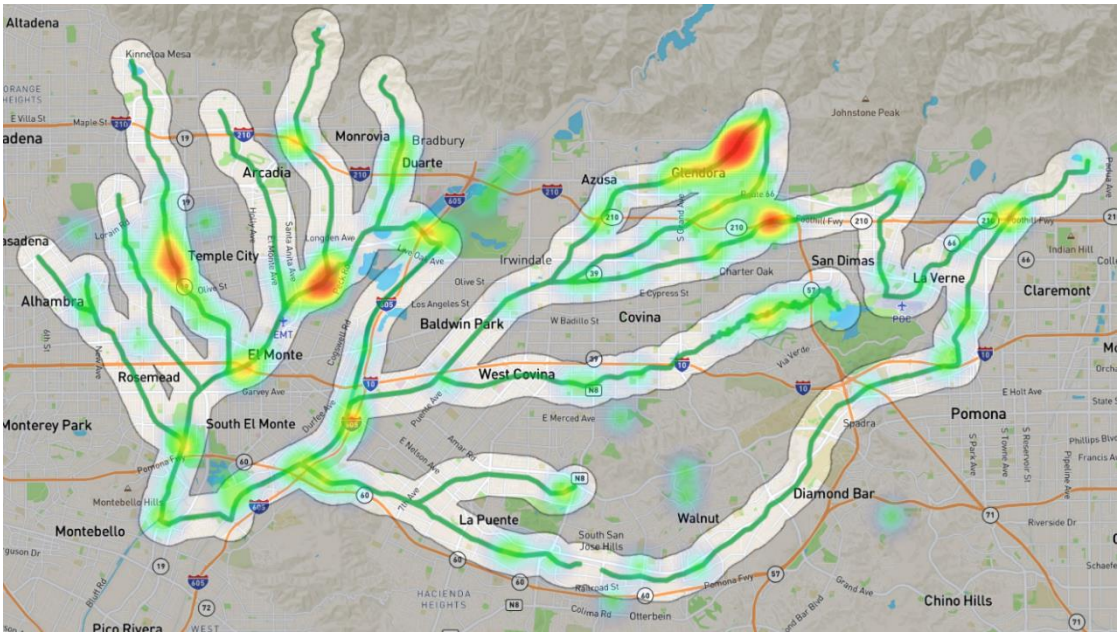

Figure 12: Heat map image of the pins for "What places, if any, along the SGV Greenway concern you?" N:217

When respondents were specifically asked about concerns, as well as throughout the survey, many comments regarding the behavior of Greenway users, impacts on the adjacent neighborhood, and safe access to and from the Greenway were mentioned. The top two concerns were "Safety" (488 responses) and "Other" (325 open responses). Open comments refer to the following:

- **Safety and Accessibility –** The majority of concerns identified were about accessing the Greenway from adjoining streets and alignments. Comments described busy roads with fast vehicles, traffic, unsafe road crossings, and low visibility. Many requested dedicated bike lane alignments, parking areas, more wayfinding signage, and connections to existing trails or paths. Some expressed concern regarding the behavior of cyclists and equestrians. Potential access points that were called out include N. Towne Ave. and the 210 Freeway, the east side of the San Gabriel River Trail, San Jose Creek, Hatcher Ave., and Azusa Ave., Valley Blvd. and Nogales St., Thompson Creek at Lemon Ave., Eaton Wash at Longden Ave., and Eaton Wash at Las Tunas Dr.
- **Maintenance and Cleanliness –** Many concerns referred to trash, vandalism, graffiti, damaged property, smells, equipment (recreational and washes), and the standard of cleanliness adjacent to properties. Respondents expressed concern for how the Greenway would be maintained and who would be responsible for maintenance.

- **Encampments –** Some respondents stated that there are existing concerns about encampments and homelessness in the Plan areas and that the Greenway plan would encourage more encampments. Specific locations that were called out include the 210 Freeway at the Santa Anita Wash, Little Dalton Wash, Big Dalton Wash, and Live Oak Wash, 60 Freeway at Thompson Creek, as well as all along the Rio Hondo River and San Gabriel River by the 605 Freeway.
- **Safety and Privacy –** Survey respondents expressed concern about other people potentially accessing or peering into their property. Some expressed a preference that the Greenway not be implemented due to safety concerns. Some suggested improved conditions such as lighting and more security. Specific locations that mentioned include Covina, La Puente, Temple City, South El Monte, and Glendora.
- **Vegetation –** There were concerns regarding invasive species and heat. Respondents suggested planting more trees for shade and native drought-resistant plants.
- **Cost and Schedule –** There were some questions regarding when the Greenway would be implemented and how much it would cost.

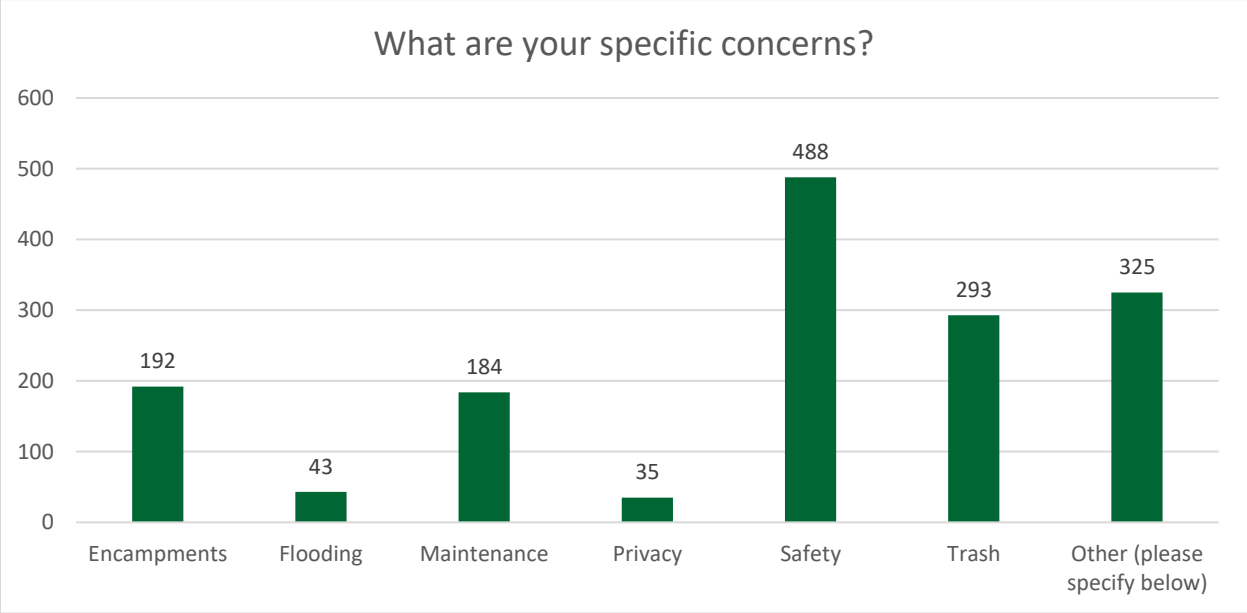

Figure 13: Chart of compiled responses to "What are your specific concerns? Check all that apply." N:632

Future Uses

When asked how likely people are to use the Greenway, most respondents selected that it was very likely that they would use it. Open comments throughout the survey voiced support for the implementation of the Greenway.

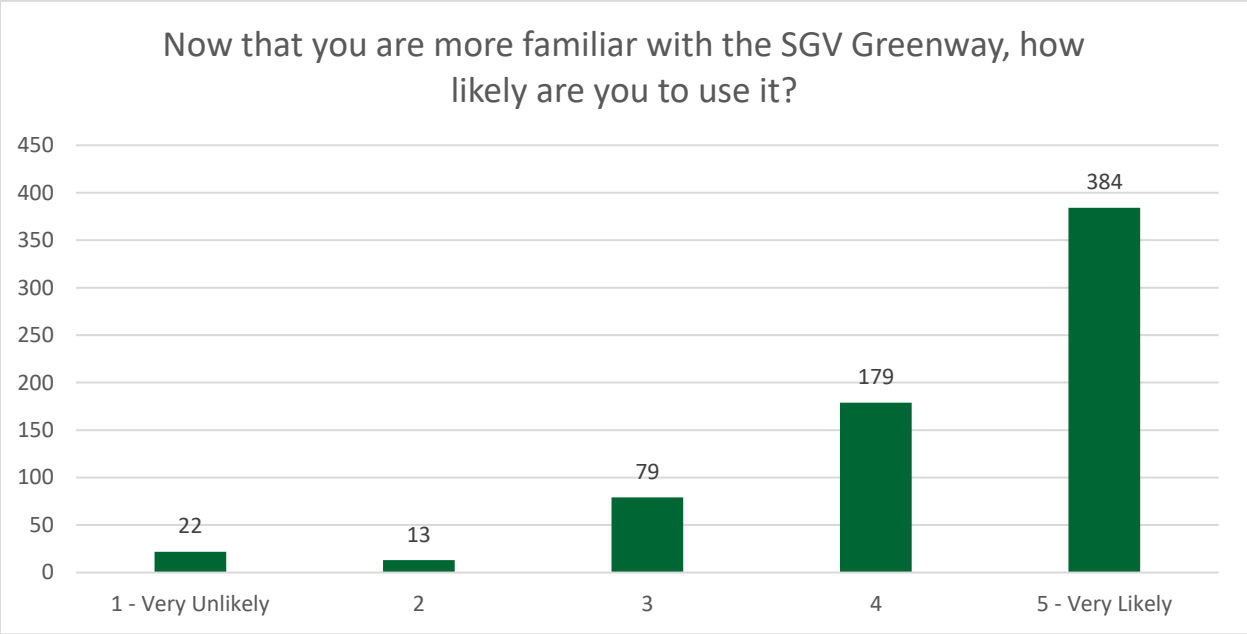

Figure 14: Chart responses of "How likely are you to use it?" N: 677

ABOUT THE RESPONDENTS

The survey included demographic questions to evaluate how representative the survey respondents are of the community's diversity. While no single outreach effort can be completely representative, this analysis helps us understand who was engaged in a particular effort.

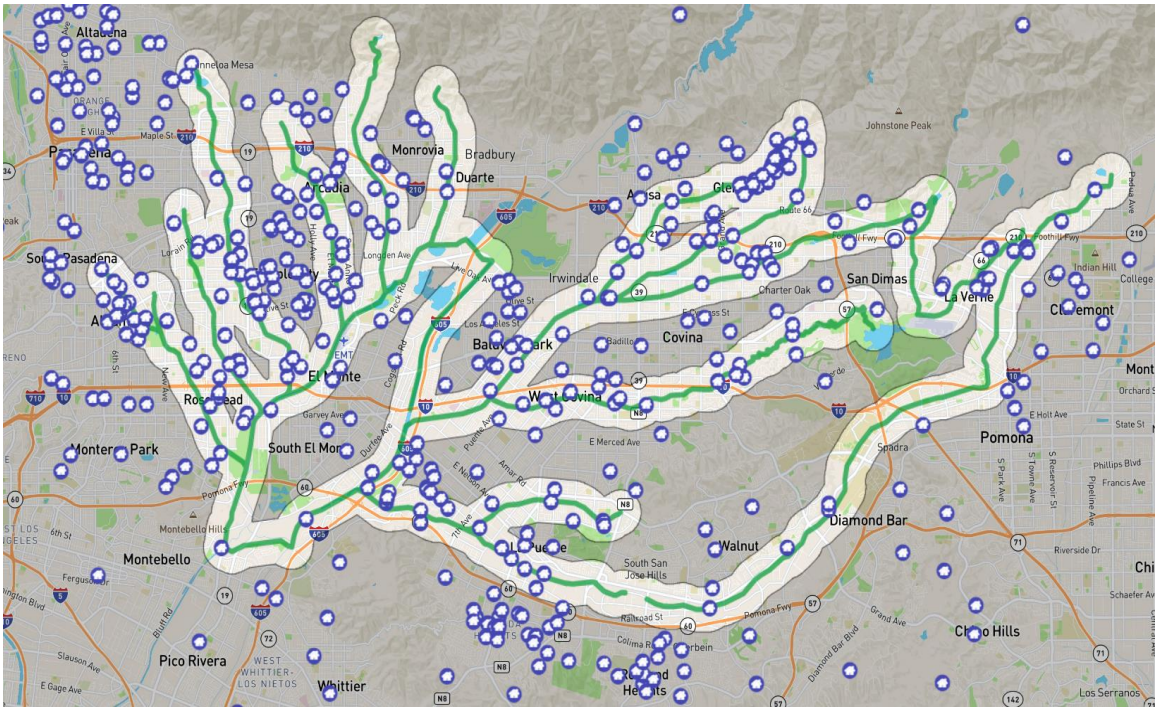

Figure 15: Map responses for "Approximately, where is your home?" N:1053

There were 4408 responses to the mapping survey. The survey was available in three languages; the most popular was English (1496 surveys). 1053 participants indicated where they approximately live.

Table 3: Survey Language

Select a survey language.	Count	Percent
English	1496	96.8%
Chinese	13	0.8%
Spanish	37	2.4%
Total (N)	**1546**	**100.0%**

Table 4: What age category describes you best?

What is your age group?	Count	Percent
17 and younger	14	4.3%
18 to 24	12	3.7%
25 to 34	62	19.1%
35 to 49	91	28.1%
50 to 64	101	31.2%
65 to 74	36	11.1%
75 and over	8	2.5%
Total (N)	324	100.00%

Table 5: How do you identify your gender?

Please indicate your gender.	Count	Percent
Female	192	49.9%
Male	177	46.0%
Non-binary	1	0.3%
I prefer not to answer	13	3.4%
If you prefer to self-identify your gender	16	4.2%
Total (N)	385	100.0%

Table 6: How do you identify your race/ethnicity? Check all that apply

Please indicate your race or ethnicity. (Select all that apply)	Count	Percent
African American / Black	4	1.5%
Asian	47	17.5%
Caucasian/ White	144	53.7%
Hispanic/ Latino	59	22.0%
Native American	7	2.6%
Native Hawaiian or Pacific Islander	2	0.7%
I prefer not to answer	37	13.8%
If you prefer to self-identify your race/ethnicity	12	4.5%

B. MAP RESPONSE IMAGES AND TABLES

C. COMPILED RESPONSE ANALYSIS

San Gabriel Valley Greenway Network Plan

Survey Summary

Appendix A. WCA Engagement Summary

March 2024

Over the engagement phase for the San Gabriel Valley Greenway Network Strategic Implementation Plan (SGV Greenway Network Plan) and as approved by Los Angeles County Public Works (LA County Public Works) through a Task 3 order on an existing agreement and subsequent direction, Watershed Conservation Authority (WCA) staff has worked to facilitate engagement by four partner groups: Active San Gabriel Valley (ActiveSGV), Amigos de los Rios, Nature for All, and Women's Club. Each group has made outstanding efforts with different populations in communities that would be served by the SGV Greenway Network Plan.

Priority has been on historically underserved communities and diverse populations that may not be reached by conventional methods to develop awareness and source constructive feedback representative of local communities and potential network users. Focus Areas already identified through plan development have directed target areas for efforts, overlayed with CalEnviroScreen and U.S. Census demographic spatial data, as shared in the original proposal. A leading goal has been maximizing numbers of meaningful contacts through diverse approaches. "Meaningful Contacts" are defined as at least a few to several minutes of conversation, and for the purposes of engagement outlined in this plan may include discussion of the network, interviews, answering questions from the presentation, or login in and/or walkthrough of the online survey.

Throughout the process there have been 71 events sourcing 826 documented responses as well as an estimated 3,438 estimated interactions, and more than an estimated 174,077 digital impressions. Responses through the digital survey link disseminated are expected to be substantially greater. Event information has been shared throughout the plan process and is included separately with the submission of this summary.

WCA has been directed to facilitate dissemination of the Workshop 1 materials provided, for a minimum of 16 workshops, as well as the digital survey. Materials have included workshop materials, mural boards, presentation boards, and handouts provided by LA County Public Works and the Plan Team, as well as Workshops 2 and 3 content, including mural board information and efforts by partners to make workshop and survey content more accessible for community feedback. Partners have translated and sourced feedback through presented materials in Spanish, Chinese, and Vietnamese languages in addition to primarily English-speaking audiences.

An initial round of submission was made for March 2022 milestones, with subsequent data being collected through July 2022 in a continuation of engagement efforts as directed and requested by LA County Public Works and the Plan Team. As requested, WCA staff, with substantial assistance by Amigos de los Rios staff on their own material, has manually inputted data sourced into formats provided through the Plan Team. All feedback received has been input; however, note feedback on workshop materials has not fit consistently into the digital format provided.

Appendix A. WCA Engagement Summary

Separate links and QR codes for survey dissemination were provided by the Plan Team for each partner organization approximately two months into the progression of efforts. Accordingly, these links are not expected to have captured all traffic directed to the general survey link through partner efforts.

The following sections summarize specific efforts hosted by our partners. See supplemental materials provided separately for more information. Recommendations are also included for future consideration.

ActiveSGV

ActiveSGV has hosted 6 events sourcing 123 documented responses and an estimated 320 impressions, as well as conducting 9 targeted interviews with local experts and sharing materials digitally.

- 3 bike rides as workshops with engagement materials and talking points located in the communities of Alhambra, El Monte, and Pomona.
- 3 exploratory bike rides, including portions of focus areas identified through the SGV Greenway Network Plan in historically underserved areas, both examples of existing conditions and of the early implementation project, San Dimas Wash Bikeway Phase 1. These are listed in the ActiveSGV summary as “LAC Greenway Series #1: Glendora Wash”, “LAC Greenway Series #2: San Jose Creek”, and “LAC Greenway Series #3: Alhambra Wash”.

Summaries and photos are included in supplemental materials shared separately. Note key interviews highlighted from the following representatives:

- Anthony Duarte, Regional Chamber of Commerce
- Diane Velez, San Gabriel Valley Service Council Member
- Emily Huang, Temple City Resident, Planning Professional
- Je-Show Yang, Asian Pacific Islander Forward Movement, Senior Policy Coordinator
- Laura Santos, Mt. San Antonio College Board of Trustees
- Rene Jimenez, San Gabriel Valley Conservation Corps, Associate Director
- Sam Vasquez, Avocado Heights Vaqueros
- Victor Preciado, Pomona City Council Member
- Xilonin Cruz, Azusa Unified School District Board Member

Amigos de los Rios

Through 53 in-person events Amigos de Los Rios has sourced 348 documented responses in an estimated 2,007 interactions in addition to efforts to share information digitally. These totals include an additional 12 events submitted pursuant to March 2022 milestones beyond the events and totals in the report summary provided separately.

Through the engagement period Amigos de los Rios collected data through four methods to make providing information more accessible, as reported:

Appendix A. WCA Engagement Summary

Method 1 – **AMIGOS CUSTOM SHORT-FORM DIGITAL SURVEY** Collected data via questions adapted from the SGV Greenway Network Maptionnaire into a short-form survey. Responses were received via social media and via QR code from volunteer and outreach events.

Method 2 – **COUNTY SHORT FORM SURVEY LINK PROVIDED IN JULY** Disseminated the unique Manual Entry Survey form provided by WCA on social media (Instagram, Facebook, Nextdoor). Although respondents were not individually tracked to this form of the survey, all individuals confirmed to have taken the survey have been counted. There are many more who will have submitted as well. Respondents are students, residents, on-profit partners, and business owners—from Altadena, Arcadia, Bassett, La Puente, La Canada Flintridge, Monterey Park, Monrovia, Ontario, Pasadena, South Pasadena, Temecula, Torrance, Westwood, West Covina, Whittier, and the neighborhood of Highland Park.

SGV Greenway Network Strategic Implementation Plan (MANUAL ENTRIES)
https://docs.google.com/forms/u/0/d/e/1FAIpQLSfG_uKsq6oU-31BA_uxyQ8n4oXjUxD2h3SVn0XvqS1xSn1qNg/formResponse

Method 3 –**AMIGOS QR CODE FORM COUNTY FOR MAPTIONNAIRE** Maptionnaire QR code (made available at events) for participants to complete. Unfortunately, this method proved too confusing for most participants. In response to this observed condition the Maptionnaire was adapted into a short form survey (Method 1). This data is not recorded in internal records, as there were not methods for tracking how many participants successfully completed the survey on their own from the QR Code Link provided.

Method 4 – **MAPTIONNAIRE ADAPTIVE MANAGEMENT - AMIGOS STAFF MANUAL INPUT ON BEHALF OF FOCUS GROUPS** Method 4 involved the printing of large-format SGV Greenway Network maps provided for students and volunteers to draw on, make notes, and to provide extensive feedback. Through this method a full picture was drawn of what exactly participants were seeking. This data is collated in a SGV Greenway Network Summary and was submitted via the Maptionnaire using the below submission dates. In addition, scans of each of the maps used for this project have been documented. ***(*Conducted 11 Times with 75 total participants***)

Focus groups (**Methods 3 and 4**) were conducted with small groups of participants of different ages and backgrounds—with a special focus on Middle School, High School, and College Age Students. In addition to the focus groups and QR code survey, knowledge of the SGV Greenway Network was communicated to all 1,432 volunteers and event attendees upon attending events. It is important to note that these volunteers chose to attend a 3-hour weekend event, focused on bringing urban greening and positive change to their communities in the form or RIVER GREENWAYS and adjacent School Greening projects. Community members of all ages and backgrounds consistently request additional urban green spaces, equitable shade cover, enhanced recreation opportunities, urban habitat sanctuaries, cleaner air, cooler neighborhoods, and overall enhanced public gathering spaces. There was enormous focus and commitment from volunteers at Emerald Necklace events to personally engage in the expansion of

projects, greenways, and related public spaces analogous to the Emerald Necklace for the benefit of communities within the San Gabriel Valley (SGV).

With rising temperatures as a reality, most SGV Greenway Network survey participants stressed the need for equitable access to nature and environmental justice in form or adequate shade and tree canopy cover along the entire SGV Greenway Network, especially in underserved areas—with the growing concerns over and reality of increased number of excessive heat days and the air quality impact of fires with climate change. In addition, the majority of parents engaged were excited about the potential for bike paths and pedestrian paths that were 'off-street' as safe and accessible, and noted that they were hopeful for traffic free entrances to the pathway to minimized dangerous entry/exit. Volunteer groups and students were also noted as hopeful for increased recreation/nature areas that didn't require a long drive from their home base and were located nearby, and a number of volunteers and event attendees stated that they needed enhanced bike path networks throughout the SGV to address growing challenges with steady fuel charge increases related to driving.

Common concerns were safety on trails (e.g., presence of people experiencing homelessness, trash) and a lack of shade in areas prone to extreme heat. In addition, several respondents noted that clean and accessible public bathrooms would make a difference in their experiences recreating along river/wash corridors.

Nature for All

Through six in-person events Nature for All has sourced 281 documented responses through an estimated 831 interactions in addition to an estimated 4,077 impressions with social media and email. Notably, efforts have included translation of English materials into Spanish, Chinese, and Vietnamese languages used at pop-up events. Nature For All highlights that community members were very appreciative of the efforts to engage in their languages and provided a great deal of feedback.

Additionally, Nature for All conducted a focused session with a local equestrian group Vaquer@s, with their feedback highlighted below. This feedback has been input into digital format, however, note that this represents the perspectives of 9 members based out of Avocado Heights active in their local community.

Avocado Heights Vaquer@s Feedback:

Many of the local concerns mentioned by the group are detailed on their Instagram account:
https://www.instagram.com/avocadoheightsvaqueros

- Do not have an established non-profit 501(c)3. Plan to connect with East Yards Communities for Environmental Justice to fight the battery plant/contaminated soil. Fighting unfair take of public land for housing development.
    - LA County Supervisor Solis is an ally.
- Big issue: Losing the only park they have at Glenelder and La Subida.

- Threatened with a new housing development project that will take over the only park space they have.
- This park is currently an island - accessible from only one street.
- It needs better connectivity.
- Connect this park to the trail, so people don't need to go through major streets.
- That is slippery and very dangerous for horses.

● Concerns:
- Busy intersections
- Chemical plants

● Quemetco lead battery smelter plant
- History of contaminating the soil.
- Worried about soil contamination.

● Gentrification concern:
- The new homes are not going to be affordable.
- The area is losing its identity as an equestrian community.

● Width of trails is a big thing:
- Make multi-use trails wide and safe for horses and others.
- Some existing trails can include not just equestrians but pedestrians, cyclists.
- Good example: City of Duarte trail - has walking/cyclist trail, other side is horse trail - safe.

● Looking forward to SGV Greenway Network being completed, so that they can commute by bicycles
to/from work.
- Live by the 10 freeway… compared to rush hour freeway traffic, with the greenway I can probably do the same commute by bicycle and get exercise!!
- Make them all interconnected, connect to the Emerald Necklace.
- Currently, they need to ride horses in the street to get to the Christmas parade. SGV Greenway Network will alleviate.

● Amenities
- Include not just water stops for dogs. Need water for people and horses!
- More trash cans on both sides.
- Need places to safely hitch the horses.
- Currently, on the trail there are no water areas for horses, no trash cans.

● Want interpretive signage: birds, wildlife.
- Want to do walks, rides with interpretive information.

Women's Club

Women's Club members have hosted six events with 74 documented responses through an estimated 280 interactions. The Women's Club chapters in the SGV are largely dark for events in the summer, and efforts have focused on dissemination of survey materials before and after receiving dedicated QR code, with more than 170,000 estimated digital impressions across a network of highly local groups inside and working with the organization.

Appendix A. WCA Engagement Summary

Women's Club members additionally facilitated a one-on-one conversation with Sierra Club Task Force representative, Joan Licari, who provided additional information to connect with local groups. Her feedback highlighted the following, also included in a digital submission through format provided by the Plan Team:

- Significant connection points:
    - San Jose Creek to the Whittier Narrows
    - San Jose Creek to the developing Puente Hills Regional Park
- Concerns about Battery Recycling Plant impacts on surrounding infrastructure and potential for water capture associated with facilities.
- Connections to local communities is very important, particularly opportunities for pocket parks.
- Key amenities
    - Stopping points for shade.
    - Include native plants along the trails.
    - Security—consider call boxes and points of escape for potential assault in narrow corridors.

10	City of La Puente Easter Egg Hunt	City of La Puente	501 Glendora Ave, La Puente, CA 91744	Jackie, Jennifer	4/16/2022	Saturday	10am-1pm	Completed	Recreation space	40

#	Location	Owner/ Agency responsible	Location Address	Staff	Date	Day	Time	Status	Impressions	Estimated people we spoke with
11	Earth Day		Andrews Community Park, 1010 Caraway Drive Whittier CA	Alfonso, Jackie, Jennifer	4/23/2022	Saturday	9am-12pm	Completed	were able to bring all the supplies over and then distribute the giveaways evenly thanks to sasha. and lots of people that were interested in the greenway project once again just had some difficulty pushing for people to complete the survey on the spot, since people are just learning about the project and needed some time to think of things to include. the tote bags and silver water bottles were really popular. people really liked them and the quality made sure to let everyone who got a flyer know that there was a survey on the back so that they could provide more comments and questions in depth people kept asking when the construction project along the 605 would be ready. Dirt Path for Running Lots of illegal dumping on trails Landfill conversion to park s/o 60 fwy More dog parks Difficult to report dumping b/c different agency responsibility Bike rental services along trails Safety – more security / Lots of shade and seating area for seniors	25

#	Location	Owner/ Agency responsible	Location Address	Staff	Date	Day	Time	Status	Impressions	Estimated people we spoke with
12	Hacienda Heights Earth Day	LA County First District	Steinmetz Park: 1545 S Stimson Ave, Hacienda Heights, CA 91745	Public Works staff Soledad, Jennifer	4/23/2022	Saturday	11am-2pm	Completed	Excitement in the new bikeway, equestrian trails, and walking trails Interest in the SGV Planning area, such as the distance from our current location (Hacienda Heights). I was thinking a little "you are here sticker would help at these events" - even just a little post it. Concerns with graffiti and maintenance came up - our PW graffiti abatement rep was tabled next to us Request to consider parking locations Questions regarding existing bikeways and completion date (most people were unaware of the open segments of bike paths) PEH – How will it be addressed Think it's a great idea , leave something nice for future generations Connect to peck and whittier narrows favorable Eminent domain concern Not aware of rio hondo bike path even though live locally Very popular whittier greenway – really like this Liked the idea of adding more recreational space usually go san Gabriel mountains to hike want to see more local paths Safe passive walking connections to parks, safe spaces for seniors More walking paths in la Puente Sustainability activities for the community/ kids – girl scouts Great idea – thank you	30

#	Location	Owner/ Agency responsible	Location Address	Staff	Date	Day	Time	Status	Impressions	Estimated people we spoke with
13	San Dimas Arbor Day	City of San Dimas	245 E Bonita Ave, San Dimas, CA 91773	Alfonso, Jennifer	4/30/2022	Saturday	10-1pm	Completed	Very excited about the project. A number of residents want to ensure that the path has plenty of shade. Another emphasized that the space should be inclusive of leisure use (for residents who just want to walk and not bike). Other residents identified that they would like to see proper use of signage to key destinations and locations such as Metro stations and parks. Others mentioned that there needs to be protection of wildlife and protection of people from wildlife (concerns with snakes). Others mentioned using native plant species, and having informative placards about wildlife and plants. Others mentioned they would like to see solar lighting fixtures. A councilmember who visited the booth indicated a future trail path along the San Dimas wash on N Walnut Ave and Foothill Blvd. may be tricky, due to the height of the road, and depth of the current existing channel. The future trail would be cut off by the road.	55
14	Father's day Ceremony Baldwin Park Community Center	City of Baldwin Park	4100 Baldwin Park Blvd, Baldwin Park, CA 91706	Ana, Alfonso, Sasha, Noe	6/18/2022	Saturday	8-5pm	Completed	Held during the Workshop - Use to direct people to the workshop	30
15	Baldwin Park Concert Series	Baldwin Park	4100 Baldwin Park Blvd, Baldwin Park, CA 91706	Sasha, Alfonso, Soledad	7/21/22	Thursday	5 pm - 9pm	Confirmed		100
16	El Monte Bus Station	Metro	3357 Santa Anita Ave, El Monte, CA 91731	Noe, Lyssa, Soledad	7/28/2022	Thursday	12 pm - 6pm	Confirmed	It was a slower time of day in between commuting time. Many cyclists were excited about the plan. A few families with younger kids seemed enthusiastic as well. A few people were concerned about the tent dwellers that may set up residence along the pathways. A cop suggested there be mile markers posted along the way for safety and location orienting purposes. A citizen suggested the planting of succulents and native plants along the paths.	50

#	Location	Owner/ Agency responsible	Location Address	Staff	Date	Day	Time	Status	Impressions	Estimated people we spoke with
17	Baldwin Park Concert Series	Baldwin Park	4100 Baldwin Park Blvd, Baldwin Park, CA 91706	Noe, Lyssa, Soledad	7/28	Thursday	5 pm - 9pm	Confirmed	Lots of foot traffic. People loved the swag esp the tote bags and metal water bottles. Large Spanish speaking population. Many were excited about having access to more green space and walk/bike paths. - Child safety for Falling over the railing - Planting native plants.	100
18	Gladstone Park	City of Glendora - Steven	600 E Gladstone St, Glendora, CA 91740	Alfonso, Noe, Soledad	7/30/2022	Saturday	8am - 1pm	Confirmed	Moderate food traffic. Strong approval and appreciation for the project, at both the local and regional (SGV) level. General concerns for the project are related to safety (homelessness and lighting), residents also mentioned a need for privacy (on homes with their property right next to a trail).	30

Poster 1

Poster 2

The San Gabriel Valley Greenway Network

GREENWAY FEATURES

Community benefits

Regional connections: A regional, interconnected network creates options for people to get around without having to depend on cars.

Environmental resiliency: Protecting our watershed helps create a resilient and healthy environment and provides opportunities for environmental education and stewardship.

Personal and community health: Outdoor socializing, recreational activities, community events, engaging with nature, and other activities can improve the physical and mental health of all residents.

Expanded local equity: Enhancing the greenway network helps bolster access by traditionally under-resourced communities to open space, recreation and exercise, and improved active and low cost transportation options.

Comments/Questions

Pop-up Talking Points

SGV Greenway Network Strategic Implementation Plan

What is the San Gabriel Valley Greenway Network Strategic Implementation Plan?

The San Gabriel Valley Greenway Network Strategic Implementation Plan was initiated by a Board Motion in 2017 to transform the existing Los Angeles County Flood Control District right of way in the San Gabriel Valley into a world-class Greenway Network.

What is a Greenway?

A greenway is a pathway or trail that communities can use for biking, walking, and other uses such as horseback riding, picnic areas, etc. A greenway network is a group of interconnected greenways that can help connect people and communities.

Who is funding the Plan?

The plan is fully funded by the Los Angeles County Flood Control District. Implementing the existing and future bikeways and greenways are your local cities, jurisdictions, and non-governmental organizations.

What is the current status of this Plan?

We are currently on Phase two out of the three Phases. Phase two is the Design Alternatives for Local Community input. We have two virtual pop-up events coming up where we plan to ask the community for further feedback regarding possible Design Alternatives.

Come to one of our virtual workshops!

Wednesday, February 16th from 3:30 PM-5:00PM or

Tuesday, February 22nd from 6:00 PM-7:30PM

Are there existing bikeways/greenways now that I can use?

Some parts are already built, other areas are in design, or are currently in the planning phase. However, the main objective is to connect to these existing greenways and bikeways.

- A map highlighting our Early Implementation Projects and indicated phases should be posted at the event.

What is the purpose of these Pop-up events?

Our goal is to spread awareness of this effort and collect and address the communities' comments, questions, concerns, and ideas. We encourage you to take our Map-Based Survey using the QR Code that is posted.

San Gabriel Valley Greenway Network
Strategic Implementation Plan

Community Workshops Summary

December 2021

Prepared by:

Public Works
LOS ANGELES COUNTY

Introduction

The San Gabriel Valley Greenway Network Strategic Implementation Plan (SGV Greenway Network or the Plan) aims to transform currently underutilized river channels, stormwater channels, washes, and creeks that stretch across communities in the San Gabriel Valley. The flood control channels were constructed to address flood events but currently sit underutilized. The Plan would leverage the existing infrastructure and create a network for multimodal transportation that uses the current channel adjacencies.

The goals of the Plan are to update the existing flood control channels, improve connectivity between communities in the San Gabriel Valley, and create green space and opportunities for active transportation in areas previously underserved. The four community workshops were hosted by the SGV Greenway Network Team, including The Los Angeles County Public Works and consultants Brown and Caldwell, MIG, and Studio-MLA.

Outreach Methodology

This series of four community workshops was the first effort for this plan and was intended for community members to familiarize themselves with the plan. The four workshops were held at varying times during the days with the hope of being accessible to varying audiences.

To promote attendance at the workshops MIG developed social media posts which were shared on the plan website and partner websites and created an email campaign sent to government and agency partners, community stakeholders, and partners and collaborators. These stakeholders and partners were identified through research and or previous engagement activities and projects.

Calendar invites with the zoom link were sent to all participants that pre-registered and the Zoom link was made available on all social media posts (Facebook, Instagram) and the plan website. Participants were able to enter the meetings freely and attend as many as they liked.

Workshop Format

The community workshops served to educate the community about the purpose and goals of the plan, build an understanding of the planning process, gather feedback on amenities, uses, and potential concerns, and promote the Plan. The SGV Greenway Team conducted four dynamic bilingual virtual workshops at various dates and times for broad and flexible engagement opportunities.

Workshop Schedule and Attendees:

Workshop 1	November 3rd, 2021, 6PM	31 Participants
Workshop 2	November 6th, 2021, 10AM	11 Participants
Workshop 3	November 17th, 2021, 3:30PM	36 Participants
Workshop 4	November 18th, 2021, 6PM	9 Participants

The workshops had identical agendas and were conducted in the same manner to ensure participants had similar experiences. There was Spanish interpretation from a third-party interpreter at each workshop.

The workshops were facilitated by MIG staff members as part of the Brown and Caldwell team who provided opening remarks and reviewed Zoom features including translation services. The team made a land acknowledgement before sharing videos from the LA County Planning and Public Works Team.

There were pre-recorded videos from the LA County Planning and Public Works District 5 Supervisor Kathryn Barger, District 1 Supervisor Hilda Solis, and Los Angeles County Public Works Director Mark Pestrella.

The facilitator provided an overview of the workshop agenda and asked participants to type where they were from in the zoom chat to get a sense of the communities present at each workshop.

Brown and Caldwell team members provided a short presentation which covered the history of the channels and washes, a view for the future of this area, and a review of collaboration efforts. This presentation was followed by Zoom polling questions.

Polling Questions

1. What would you most likely use the Greenway Network for? (Multiple choice)
2. What factors are most important to you for the Greenway Network? (Multiple choice)
3. On a scale of 1-5, how likely are you to use the Greenway Network once complete?

After the polling questions breakout rooms were enabled where MIG facilitators conducted small group discussions with support from the Brown and Caldwell team. The Brown and Caldwell provided wrap up remarks and next steps to finish out the workshop.

Breakout Room Questions

1. What amenities excite you the most about the Greenway? What amenities would be most beneficial for your community? These can include things like parks, shading, equestrian trails, etc.
2. Where would you like to see these amenities?
3. What concerns do you have with or about the Greenway Network?
4. How can we better spread the word about the Greenway Network?

Summary of Input

Results from zoom polling and open discussion key themes are summarized below. All polling questions and participation was optional.

Poll Results

Question 1: What would you most likely use the Greenway Network for?

Option	Number	Percentage
Recreational use	42	91%
Exercise	34	74%
Shopping	8	17%
Commute to work	15	33%
Commute to school	6	13%
Other	6	13%
N= 46		

There is a lot of interest about using the network for recreational uses and as a way to exercise.

Question 2: What factors are most important to you for the Greenway Network?

Option	Number	Percentage
Safety	33	70%
Cleanliness	18	38%
Connections to existing bikeways	31	66%
Recreational spaces	17	36%
Shade	20	43%
Other	11	23%
N= 47		

Participants were most concerned about safety and the network's connectivity to existing bikeways.

3. On a scale of 1-5, how likely are you to use the Greenway Network once completed?

Option	Number	Percentage
Very unlikely	4	8%
Somewhat unlikely	3	6%
Neutral	8	16%
Somewhat likely	10	20%
Very likely	24	49%
N = 49		

The majority of respondents said they would be very likely or somewhat likely to use the SGV Greenway Network once complete.

Key Themes

Lighting

- Provide ample lighting for user safety
- Consider light pollution and effect on neighbors and wildlife
- Consider LED lighting and other energy efficient options

Privacy

- Create environmental buffer along network for private homes
- No gates that need to be locked or unlocked

Multimodal use

- Create and support infrastructure for walking, running, biking, rollerblading and skateboarding
- Ensure network crossings along roadways are safe for all users
- Consider slow zones and signage for user safety

Connectivity

- Consider connections beyond the network, not all neighboring cities have existing bike lanes
- Connect network users to nearby local and regional parks and green spaces
- Connect to local schools and environmental education groups

Wayfinding and signage

- Signage to provide historical information and information on native plants and animals
- Maps to connect network users to local communities and businesses

Sustainability

- Use native plantings along the network to improve environmental health and restore natural habitat for wildlife
- Create shade by increasing tree canopy

Environmental justice

- Ensure underserved communities are given necessary attention and not negatively impacted
- Avoid green gentrification

Accessible to all ages

- Kids could use network to bike to school
- Create spaces to practice bike skills
- Create a network that is accessible to older users and those with different abilities

Amenities and upkeep

- Restrooms
- Water fountains and refill stations
- Bike racks
- Seating
- Parking
- Places to pump tires
- Address potential for graffiti and vandalism
- Upkeep network infrastructure after rain and flooding events
- Provide bags for pet waste to avoid water contamination

Unhoused neighbors

- Concerns over safety and potential for encampments
- Avoid displacement

Key Themes by Workshop

Workshop 1, November 3rd, 2021, 6PM

- Provide lighting to ensure user safety when using the network at night but balance this with the need to reduce light pollution for neighbors and surrounding area
- Create an environmental buffer or fence along the greenway to provide protection and privacy for homes up against the greenway trail
- Create a network that has the infrastructure to be truly multimodal, not just for bikes
- Create shade along the network for the comfort and safety of users
- Concerns about unhoused population and challenges this may pose to the network
- Concerns over vandalism and upkeeping network signage
- Consider larger network connectivity to the surrounding areas, not all cities currently have bike lanes that can link to the network
- Create safe route crossings for trails across streets
- Build enough parking for users to leave cars and use network
- Populate the network with native plantings that will provide shade and improve environmental health
- Build amenities like restrooms, water fountains, bike racks
- Build a multi modal network to reduce the reliance on vehicles and greenhouse gasses
- Ensure the network is maintained and remains in tact, rain/ flooding events and use will decay the network

Workshop 2, November 6th, 2021, 10AM

- Excited for a place to keep kids active
- Signage that provides historical and native information about the region and plants and animals
- Ensure underserved communities are not negatively impacted by the plan, use an environmental justice framework and avoid green gentrification
- Use social media channels like facebook and nextdoor neighbor to spread information about the network

Workshop 3, November 17th, 2021, 3:30PM

- Provide restrooms along network
- Connect community to local parks and greenspaces like Eaton Canyon Park
- Kids could use network to bike to school
- Pocket parks could be a place to teach bike skills to children
- Make sure the network is accessible to seniors and those with different physical abilities
- Provide enough lighting for the network

- Consider unhoused people in the area and avoid displacement
- Provide wayfinding maps that connect users to local communities and other green spaces
- Do not build gates that need to be locked/ unlocked
- Create safe network connections across roadways
- Support local businesses near the network
- Bring back native plant species and biodiversity
- Connect to schools and educational youth groups
- Plant trees along network to provide security and privacy for homes
- Build benches and seating areas along network

Workshop 4, November 18th, 2021, 6PM

- Build water fountains/ refill stations
- Excited about getting more people out of cars and onto bikes
- Provide bike amenities like racks, place to pump tires, and place to practice bike skills
- Consider disadvantaged groups and communities in placement of pocket parks
- Provide bags to pick up after pets
- Create slow zones along network to ensure safety for all cyclists
- Concerns over water contamination from pets and people discharging tanks from campers and mobile homes
- Provide lighting for user safety but consider impact on neighbors and wildlife
- Excited to use network for shopping needs to avoid having to find parking

Appendix:

Polling results by workshop.

All polling questions and participation was optional.

Workshop 1, November 3rd 2021, 6PM

1. What would you most likely use the Greenway Network for? (Multiple choice)

Option	Number	Percentage
Recreational use	11	85%
Exercise	10	77%
Shopping	2	15%
Commute to work	2	15%
Commute to school	1	8%

Other	1	8%
N = 13		

2. What factors are most important to you for the greenway network? (Multiple choice)

Option	Number	Percentage
Safety	10	71%
Cleanliness	6	43%
Connection	7	50%
Recreational spaces	4	29%
Shade	7	50%
Other	3	21%
N = 14		

3. On a scale of 1-5, how likely are you to use the Greenway Network once completed?

Option	Number	Percentage
Very unlikely	3	19%
Somewhat unlikely	0	0%
Neutral	4	25%
Somewhat likely	5	31%
Very likely	4	25%
N = 16		

Workshop 2, November 6th, 2021, 10AM

1. What would you most likely use the Greenway Network for? (Multiple choice)

Option	Number	Percentage
Recreational use	4	80%
Exercise	2	40%
Shopping	0	0%
Commute to work	0	0%
Commute to school	0	0%
Other	1	20%
N = 5		

2. What factors are most important to you for the greenway network? (Multiple choice)

Option	Number	Percentage
Safety	3	60%
Cleanliness	2	40%
Connection	3	60%
Recreational spaces	2	40%
Shade	2	40%
Other	0	0%
N = 5		

3. On a scale of 1-5, how likely are you to use the Greenway Network once completed?

Option	Number	Percentage
Very unlikely	1	20%
Somewhat unlikely	0	0%
Neutral	0	0%
Somewhat likely	1	20%
Very likely	3	60%
N = 20		

Workshop 3, November 17th 2021, 3:30PM

1. What would you most likely use the Greenway Network for? (Multiple choice)

Option	Number	Percentage
Recreational use	20	95%
Exercise	18	85%
Shopping	6	28%
Commute to work	11	52%
Commute to school	4	19%
Other	4	19%
N = 21		

2. What factors are most important to you for the greenway network? (Multiple choice)

Option	Number	Percentage
Safety	14	70%
Cleanliness	8	40%
Connection	15	75%
Recreational spaces	8	40%
Shade	9	45%
Other	8	40%
N = 20		

3. On a scale of 1-5, how likely are you to use the Greenway Network once completed?

Option	Number	Percentage
Very unlikely	0	0%
Somewhat unlikely	2	10%
Neutral	3	15%
Somewhat likely	2	10%
Very likely	13	65%
Very unlikely	0	0%
N = 20		

Workshop 4, November 18th, 2021, 6PM

1. What would you most likely use the Greenway Network for? (Multiple choice)

Option	Number	Percentage
Recreational use	7	100%
Exercise	4	57%
Shopping	2	29%
Commute to work	2	29%
Commute to school	1	14%
Other	0	0%
N = 7		

2. What factors are most important to you for the greenway network? (Multiple choice)

Option	Number	Percentage
Safety	6	75%
Cleanliness	2	25%
Connection	6	75%
Recreational spaces	3	38%
Shade	2	25%
Other	0	0%
N = 8		

3. On a scale of 1-5, how likely are you to use the Greenway Network once completed?

Option	Number	Percentage
Very unlikely	0	0%
Somewhat unlikely	1	12%
Neutral	1	12%
Somewhat likely	2	25%
Very likely	4	50%
Very unlikely	0	0%
N = 8		

Zoom Chat

Chats have been edited for clarity and to remove any identifying participant information.

Workshop 1, November 3rd, 2021, 6PM

- Welcome everyone. We will get started momentarily.
- We are offering live interpretation in Spanish during this meeting.
- If you wish to hear Spanish interpretation, please click the Interpretation button at the bottom right of your Zoom screen (you'll see a globe icon).
- If you are joining via the Zoom smartphone app, select your language by clicking "More" or the three dots in the bottom right corner of our screen. Select "Language Interpretation," then choose "Spanish" and click "Done." If you wish to hear only the interpreters and not the original speakers, be sure to click Mute Original Audio.
- Estamos ofreciendo interpretación en vivo en español durante esta reunión.
- Si desea escuchar la interpretación en español, haga clic en el botón Interpretation (interpretación) en la parte inferior derecha de la pantalla Zoom (verá un icono de globo terráqueo).
- Si se está uniendo a través de la aplicación Zoom para smartphone, seleccione su idioma haciendo clic en "More" (más) o en los tres puntos en la esquina inferior derecha de la pantalla. Seleccione "Language Interpretation" (interpretación del idioma), luego elija "Spanish" y haga clic en "Done" (listo). Si desea escuchar solo a los intérpretes y no a los oradores originales, asegúrese de hacer clic en "Mute Original Audio" (silenciar audio original).TODOS deben elegir un idioma. No se quede en la posición de apagado predeterminada.
  For additional information, resources, and suggestions, see: https://usdac.us/nativeland
- Para obtener información adicional, recursos y sugerencias, consulte: https://usdac.us/nativeland
- Rowland Heights
- Altadena
- San Dimas
- Altadena
- San Dimas
- Live in East Pasadena, work in Pasadena.
- Foothill Communities
- Live next to Eaton Canyon
- Live in East Pasadena, work in Pasadena.
- Foothill Communities
- Monrovia
- Live next to Eaton Canyon
- Monrovia
- La Puente
- Avocado Heights and County Areas
- Cultural awareness

- buffers from existing residential when too close.
- Historical tours
- ease of on-going maintenance
- Spanish please if possible
- Only if participants requested Spanish,
- having difficulties with mic
- Okay.
- What concerns do you have with or about the Greenway Network?
- I live in Torrance and have a couple of children and think would use for recreational purposes during weekends, but I would use instead of public transportation for commuting if it would be in my community.
- Where would you like to see these amenities?
- How can we better spread the word about the Greenway Network?
- Thanks!
- Survey: https://bit.ly/sgv-survey
- Website: www.sgvgreenway.org
- Email: sgvgreenway@pw.lacounty.gov
- Contact: Ernesto Rivera at (626) 458-6110

Workshop 2, November 6th, 2021, 10AM

- Welcome. We will get started shortly.
- We are offering live interpretation in Spanish during this meeting.
- If you wish to hear Spanish interpretation, please click the Interpretation button at the bottom right of your Zoom screen (you'll see a globe icon).
- If you are joining via the Zoom smartphone app, select your language by clicking "More" or the three dots in the bottom right corner of our screen. Select "Language Interpretation," then choose "Spanish" and click "Done." If you wish to hear only the interpreters and not the original speakers, be sure to click Mute Original Audio. Do not stay in the default off.
- Estamos ofreciendo interpretación en vivo en español durante esta reunión. Si desea escuchar la interpretación en español, haga clic en el botón Interpretation (interpretación) en la parte inferior derecha de la pantalla Zoom (verá un icono de globo terráqueo).
- Si se está uniendo a través de la aplicación Zoom para smartphone, seleccione su idioma haciendo clic en "More" (más) o en los tres puntos en la esquina inferior derecha de la pantalla. Seleccione "Language Interpretation" (interpretación del idioma), luego elija "Spanish" y haga clic en "Done" (listo). Si desea escuchar solo a los intérpretes y no a los oradores originales, asegúrese de hacer clic en "Mute Original Audio" (silenciar audio original). Deben elegir un idioma. No se quede en la posición de apagado predeterminada.
- For additional information, resources, and suggestions, see: https://usdac.us/nativeland
- Para obtener información adicional, recursos y sugerencias, consulte: https://usdac.us/nativeland
- Altadena
- Rowland Heights

- unincorporated Covina
- La Puente
- La Verne
- What excites you the most about the Greenway? What amenities would be most beneficial for your community?
- Where would you like to see these amenities?
- What concerns do you have with or about the Greenway Network?
- How can we better spread the word about the Greenway Network?
- Bicycle pathways that connect with each other without having to exit into roadways.
- looking forward to a safe, shaded area to keep the kids active
- I'm not excited at all about the Greenway. The impact it will have on myself and my neighbors in La Puente are being completely disregarded. If my neighbors or I want to exercise we can walk to our local park or walk to Temple which is where everyone walks now.
- I would like to see these amenities near Rowland Heights connecting to the San Gabriel River, perhaps.
- Rest, shaded areas
- bike rental along the route>
- Places to park
- My concerns are safety (homeless encampments, drug deals going on (I have witnessed them while biking).
- Bathrooms! Farmers markets and such would be great. Also, fruit stands and the like would be nice. I'd like to see robust connections with the greater community in terms of bike lanes, walkways, etc.
- Is there going to be money for those residents in La Puente who do not have fencing in their backyards to protect their privacy as the walkway will butt up right against our backyards?
- To get the word out, use all social media avenues, directly or through other partners such as safe streets Altadena: Nextdoor, Facebook, Instagram, etc.
- cameras along the way
- www.sgvgreenway.org
- Nextdoor Neighbor app
- My only concern is to think about environmental justice, as others have commented, paying attention to local community needs and concerns. I heard about this through a posting by Safe Streets Altadena.
- Include historical data of the neighborhoods throughout the pathways. For instance, the history of a city with a plaque where a rest bench/area is placed. Fauna/Flora etc.
- https://bit.ly/sgv-survey
- Website: www.sgvgreenway.org
- Email: sgvgreenway@pw.lacounty.gov
- Contact: Ernesto Rivera at (626) 458-6110
- Pocket parks for dogs would be great, too! Anything to create mini destinations so lazy people like me are motivated to get out, a place to go

Workshop 3, November 17th, 2021, 3:30PM

- Welcome. We will get started shortly.
- We are offering live interpretation in Spanish during this meeting.
- If you wish to hear Spanish interpretation, please click the Interpretation button at the bottom right of your Zoom screen (you'll see a globe icon).
- If you are joining via the Zoom smartphone app, select your language by clicking "More" or the three dots in the bottom right corner of our screen. Select "Language Interpretation," then choose "Spanish" and click "Done." If you wish to hear only the interpreters and not the original speakers, be sure to click Mute Original Audio. EVERYONE must choose a language. Do not stay in the default off.
- Estamos ofreciendo interpretación en vivo en español durante esta reunión. Si desea escuchar la interpretación en español, haga clic en el botón Interpretation (interpretación) en la parte inferior derecha de la pantalla Zoom (verá un icono de globo terráqueo).
- Si se está uniendo a través de la aplicación Zoom para smartphone, seleccione su idioma haciendo clic en "More" (más) o en los tres puntos en la esquina inferior derecha de la pantalla. - San Gabriel
- Altadena
- Altadena
- San Dimas
- Sierra Madre
- Altadena
- Covina/Azusa border
- Representing City of Industry
- unincorporated East SGV
- Altadena, Alhambra, Temple City, and Mission Hills
- Unincorporated Temple City
- Long Beach
- Los Angeles
- (There's a group of us participating)
- Avocado Heights
- Nature for All in the house!
- @Bryan ++++++
- Hi Bryan! and Rob!
- Wildlife observation, Wildlife research
- Connect to transit hubs

- Historical Tour
- Other: Backpacking or bikepacking to connect to the trails in the Angeles National Forest / Pacific Crest Trail
- Other: Safety from automobiles/vehicles.
- low maintenance design
- Logistics getting to a train station or bus stop safely and easily. Disability accessibility.
- Other: Snack hub/refreshments
- Habitat, nice-looking native landscape
- Inspire new networks for bicycling and walking in communities nearby.
- lighting. Safety and cleanliness are too broad categories that could target our unhoused communities
- Safe street crossings
- effective signage for both users and neighbors
- other - adequate infrastructure for locking up bikes, etc
- Hydration stations and bike fix stations
- TREES
- native plants
- Multi-benefit - water capture - native habitat corridors for wildlife
- restroom facilities
- Love the Santa Ana River Trail space for all users
- Whittier Greenway as landscaped model, but with more native habitat
- Agree Xana, definitely don't want this to have a negative impact on unhoused neighbors.
- The use will depend on where it takes me and where I want and need to go.
- Each arm of the Greenway should be community led and defined by the community in the region who live, work and play there. This will provide unique pathways customize by the community. It should feel like a park
- Really need a short, inspiring video to promote the SGV Greenway... see Active SGV's videography. Many residents have never been on the existing river walk/bike paths and are just fearful of this idea without knowing how joyful and wonderful they are.
- The Video should showcase our best existing greenways in LA County and happy children, families, diverse folks using them.
- Prioritize transit and community connections to place and sense of place :D
- Safe Routes to Schools and Parks!
- The County's renderings for Eaton Wash/Temple City from 2 years ago have landscaping, people... I haven't seen these in the workshop materials. Use the ones that show walkers, families, pets, trees as a priority to show this is a positive thing coming to their neighborhood.
- What is the timeline for the Plan?
- Can collect data to measure urban biodiversity and species health before and after the greenway is established, and depending on the species they can be indicators for human health RE urban heat index, air particulate matter, etc. This is very exciting from a community science/urban biodiversity perspective.
- Not at all, just being a nerd in the chat lol

- Maybe an APP can be added to “the Works” APP?
- Gather infö using your The Works APP or a new app?
- Have you reached out to the individual cities that are covered by this Plan? The City of Alhambra is great about outputting community engagement opportunities on their social media.
- I will link this on the Altadena Town Council website :D
- Social media and websites yessss <3 We added these meetings to the @NatureInLA accounts too and can continue to do so for future events.
- Survey: https://bit.ly/sgv-survey
- Website: www.sgvgreenway.org
- Email: sgvgreenway@pw.lacounty.gov
- Contact: Ernesto Rivera at (626) 458-6110
- Also need to include in policy -- how are we preventing green gentrification as these add beautification & amenities in communities as well

Workshop 4, November 18th 2021, 6PM

- Welcome, we will begin shortly
- We are offering live interpretation in Spanish during this meeting. If you wish to hear Spanish interpretation, please click the Interpretation button at the bottom right of your Zoom screen (you'll see a globe icon).
- If you are joining via the Zoom smartphone app, select your language by clicking "More" or the three dots in the bottom right corner of our screen. Select "Language Interpretation," then choose "Spanish" and click "Done." If you wish to hear only the interpreters and not the original speakers, be sure to click Mute Original Audio. EVERYONE must choose a language. Do not stay in the default off.
- Estamos ofreciendo interpretación en vivo en español durante esta reunión. Si desea escuchar la interpretación en español, haga clic en el botón Interpretation (interpretación) en la parte inferior derecha de la pantalla Zoom (verá un icono de globo terráqueo).
- Si se está uniendo a través de la aplicación Zoom para smartphone, seleccione su idioma haciendo clic en "More" (más) o en los tres puntos en la esquina inferior derecha de la pantalla. Seleccione "Language Interpretation" (interpretación del idioma), luego elija "Spanish" y haga clic en "Done" (listo). Si desea escuchar solo a los intérpretes y no a los oradores originales, asegúrese de hacer clic en "Mute Original Audio" (silenciar audio original). TODOS deben elegir un idioma. No se quede en la posición de apagado predeterminada.
- For additional information, resources, and suggestions, see: https://usdac.us/nativeland
- Para obtener información adicional, recursos y sugerencias, consulte: https://usdac.us/nativeland
- Baldwin Park/Irwindale
- Pasadena.
- Pomona
- Eagle Rock
- Pasadena
- South San Jose Hills
- They're a great place to teach kids how to ride a bike, and to develop bike skills.
- Just occurred to me: Other: amenities like restrooms or water fountains
- YES! ^ And water bottle refill stations
- And connections to the future Puente Hills Landfill Park.
- Two concerns I have - homeless encampments (a big can of worms, I know), and hard core cyclists using it as their personal race track. I was almost in a collision with a cyclist on the path near Griffith Park that is even signposted as a SLOW zone.
- Particularly excited about a possible bike path down the Eaton Wash. I would be able to ride from my home in Pasadena to Long Beach without the lengthy detour to Santa Anita.
- I'm in "park poor" Baldwin Park so I'm looking forward to 1.) more green space, native plants/trees & wildlife, 2.) shade or shelter, 3.) seating 4.) a place to lock a bike!
- Richard, we would love to connect and work with you and the Rio Hondo WASC as well as the other WASCs in the SGV. We will be in touch.
- Something else that would be a great amenity and attraction for youth, a pump park. These can

be used by skateboards, scooters or bicycles. Also noteworthy is that a bike skills park is included in the Puente Hills Landfill Park plan.

- Richard, I may have to disagree with you about shopping since I started doing more errands via bike as my city just added a few miles of bike lanes to our "downtown" area which is further away from the 10fwy. I like not having to fight for parking
- Cargo bikes, and particularly electric cargo bikes are capable of carrying a family's full shopping purchases. They are a growing segment, and with infrastructure in place more will be encouraged to use them.
- I hope it's well lit! solar LED lighting hopefully
- Yup, @Steve M. sustainable transportation with reduced carbon emissions
- I have to go feed my cats now. Thank you.
- Thank you Duncan
- I also think lighting along the bikeways and pedestrian paths is important for safety, but it must be balanced with light pollution concerns and night lighting impacts to wildlife in the areas that can support natural settings.
- Haha that's right Laureen!!! Love it!
- Hey Rich, definitely! Here's my email if anyone would like to connect.
- Survey: https://bit.ly/sgv-survey
- Website: www.sgvgreenway.org
- Email: sgvgreenway@pw.lacounty.gov
- Contact: Ernesto Rivera at (626) 458-6110
- It's exciting to be at this stage since we commented in support of the SGV Greenway Network Strategic Implementation Plan before the Board of Supervisors in 2017. Thank you.
- Very exciting. Thank you everyone for working on it!
- Looking forward to seeing the progress! Keep up the good work!!

Email Comment:

Hello,

I think that the greenway proposal is an excellent idea. I am unsure who much of the existing drainage wash infrastructure has the needed clearances for this to be done along the entire route of the washes. But if it can be done, I am fully in support of this.

With that said, there are a few concerns I have. First is security and safety. The existing San Gabriel River bikeway is far less used these days than it used to be, due to rider harassment and crime. Doing this project without providing enough security that people would feel safe using it might well be a waste of money.

Second, while these would be good 'arteries' to move longer distances,

to make this really useful, you would also lots to have lots of 'last mile' feeder bike lanes, and hopefully, some bike lanes that would interconnect between adjacent greenways.

You would also have to try to make this so that it is not perceived as 'taking away' any part of the existing (or needed) road infrastructure.

Look at this as a synergistic part of the local transportation system, and try to tie it into the rail, road, public transit, etc.

Thanks for your efforts on this!

San Gabriel Valley Greenway Network
Strategic Implementation Plan

Community Workshops Summary

February 2022

Prepared by: MIG, Inc.

Introduction

The San Gabriel Valley Greenway Network Strategic Implementation Plan (SGV Greenway Network or the Plan) aims to transform currently underutilized river channels, stormwater channels, washes, and creeks that stretch across communities in the San Gabriel Valley. The flood control channels were constructed to address flood events but currently sit underutilized. The Plan would leverage the existing infrastructure and create a network for multimodal transportation that uses the current channel adjacencies.

SGV Greenway Network Team, including The Los Angeles County Public Works and consultants, MIG Inc., and Studio-MLA, two community workshops. The goals of the workshop were to update the community on the plan overview, outreach activities, to introduce potential Bike Path Alignments and Project Components for group discussions.

Outreach Methodology

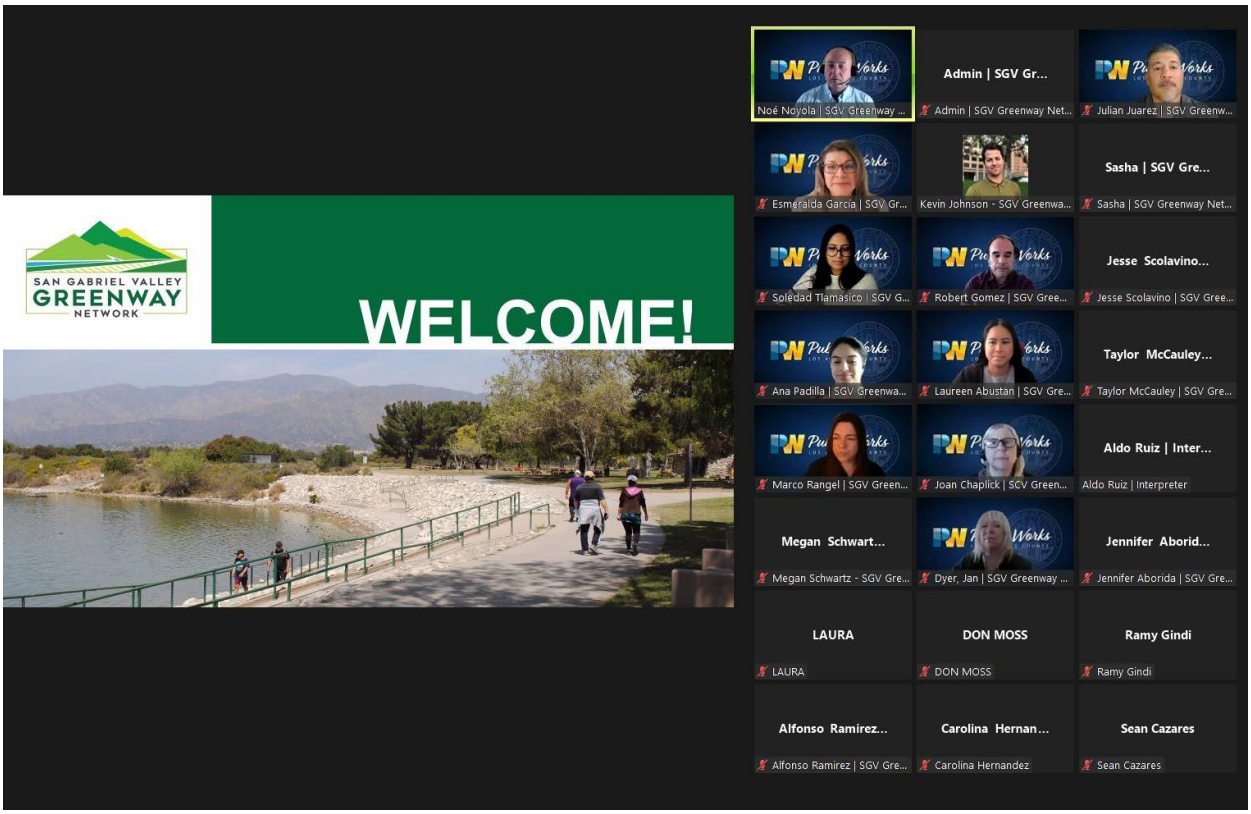

This is the second series of community workshops for this plan and was intended for community members to get an update on plan engagement and bike path alignment and potential project components. The two workshops were held at varying times on two different days with the hope of being accessible to varying audiences.

To promote attendance at the workshops MIG developed social media posts that were shared on the plan website and partner websites and created an email campaign sent to government and agency partners, community stakeholders, and partners and collaborators. These stakeholders and partners were identified through research and or previous engagement activities and projects.

Calendar invites with the zoom link were sent to all participants that pre-registered and the Zoom link was made available on all social media posts (Facebook, Instagram) and the Plan website. Participants were able to enter the meetings freely and attend as many workshops as they liked. The first of the two workshops held on February 16, 2022, at 3:30 PM, saw a total of 18 participants. The second of the two workshops held on February 22, 2022, at 6:00 PM, saw a total of 12 participants.

Workshop Schedule and Attendees

Workshop	Date	Participants
Workshop 1	February 16, 2022, at 3:30 PM	18 participants
Workshop 2	February 22, 2022, at 6:00 PM	12 participants
Total		30 participants

Workshop Format

The workshops had identical agendas and were conducted in the same manner to ensure participants had similar experiences. Both community workshops presentations were held via Zoom, the online video conferencing platform, and were made available to residents in both English and Spanish languages.

The facilitator provided an overview of the Zoom tools including Chat, raised hand, and Spanish language interpretation. The facilitator made a land acknowledgment of the first peoples of the ancestral land, an overview of the workshop agenda, and asked participants to introduce themselves in the chat to get a sense of the communities present at each workshop.

The meeting presentation recalled key findings from prior community engagement activities and described design alternatives for bike path alignments and project components. During the small group discussions, participants were able to decide which discussion they wanted to be a part of based on region; West (Alhambra, Rubio, and Eaton washes), Central (Little Dalton, Big Dalton, San Dimas, and Walnut washes), South & East (San Jose, Puente, and Thompson washes). Their selection could have been rooted on whether they lived, worked, or frequented any of the trails or washes within the specified regions.

Each small group was presented with the same set of key considerations and key questions.

KEY CONSIDERATIONS:

- Available ROW (Right-of-Ways)
- Major Crossings
- Early Implementation

KEY QUESTIONS:

- How would the on-street alignment impact your use of the greenway?
- What type of amenities would you like to see included in vacant parcels and/or park opportunities?

The notes gathered from the various small group discussions were collected using Mural, an online digital whiteboard platform.

Emerging Ideas

CONSIDERATIONS

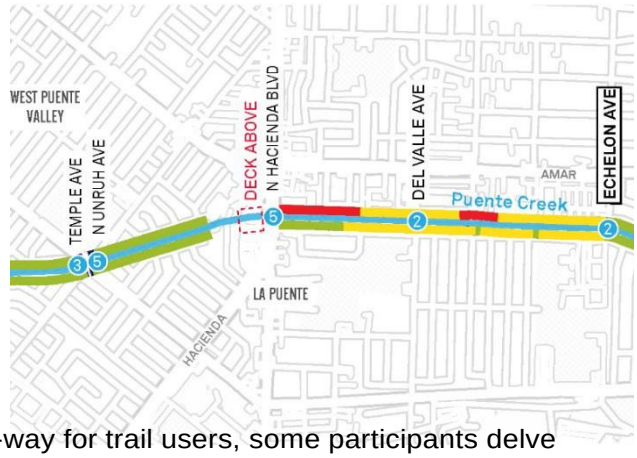

Preserve and maintain existing open space

Participants of the workshops highlighted the importance of preserving and maintaining all existing open spaces. Specifying access to trails (locked gates), shade, bike repair stations, and exercise stations.

Safe transitions to the right of way and the multi-use trails

Other participants noted that the safe transitions from the greenway trails to public rights-of- way and other multi-use trails were important. This means implementing the necessary measures and designs to protect both cyclists and pedestrians. Some participants noted expanding the bike lane on roads such as

Puente Creek and Hacienda Blvd., as well as other corridors that can connect trail users to shopping centers and other key destinations around Hacienda Blvd. Others focused on the expansion of trails to parks and natural areas such as Peter F Schabarum Regional County Park, by creating tunnels beneath the railroad tracks (from Gale Ave. to Puente Hills Mall, and then to Schabarum Park.)

Walkability

While still focused on the discussion of rights-of-way for trail users, some participants delve into the discussion of walkability along these corridors of key destinations. Participants wanted to ensure safety for pedestrians who choose to use the trails to get to other destinations such as schools and local parks. Noting that expansion of walkability can create spaces for gatherings and special events.

Concerns

Participants expressed their concerns over certain development efforts to expand access, explaining that some access opportunities are too close in proximity to pollution sites such as an existing battery recycling plant (located on Clark and Turnbull Canyon Road, in Hacienda Heights). As well as other major polluting facilities that pose threats to areas such as San Jose Creek.

ON-STREET ALIGNMENT

Access opportunities

Participants identified a variety of major streets and intersections where there is a potential for expanding bike lane access for cyclists (listed below by region):

- West San Gabriel Valley:
  - Ramona Blvd, Mission Road, Main St (Alhambra), Valley Blvd, Foothill Blvd
- South & East San Gabriel Valley:
  - 7th Street, Gale Ave, Hacienda Blvd, Echelon Ave, Temple Road, Salt Lake Ave, Clarke Ave, Workman Mill Road, Railroad areas

Align with the local active transportation plan

Several participants identified the importance of having these additional access opportunities align with local adjacent municipalities and utilizing local Active Transportation Plans as guides and tools for consideration.

TYPES OF AMENITIES

Wayfinding & Transit Connections

Participants of the workshop highlighted their desire for wayfinding signage along the greenway corridors, to help users identify locations such as food destinations, restrooms, historic landmarks, etc. Others mentioned wayfinding signage to improve transit connections throughout the region, by providing signage to nearby bus stops and train stations.

In West San Gabriel Valley, participants noted that there are no existing North and South transit stations through San Marino and that many residents utilize the El Monte transit station and Metro light rail stations (Gold line to Claremont). In South & East San Gabriel Valley, participants noted that there is a need for better connection to destinations such as the Fairplex, Thompson Trail, Schabarum Park, and Skyline Trail from transit stops and stations.

Equestrian trails

Participants who utilize the greenway trails for equestrian usage highlighted the expansion of equestrian trails from 7th Street to Avocado Heights, and that they would like to see an expansion of amenities such as staging areas, hitches, drinking water, etc.

Gathering spaces

Participants also identified key locations for amenities such as parks, recreation facilities, water fountains, lighting, rest stops, and picnic areas along the washes:

- Eaton Wash
- Little Dalton wash - 6 Acres of vacant space on Walnut Creek
- Puente Creek – Rest areas in Nelson, Hacienda, and Temple
- San Jose Creek

With regards to San Jose Creek, participants mentioned that park access in the area is limited to Sunshine Park on Fullerton Road, but there are opportunities to expand in vacant lots on the South end of 3rd Ave.

Shade/Tree coverage

Lastly, participants mentioned the need for more shade along the San Jose Creek in the Central San Gabriel Valley region.

ADDITIONAL ENGAGEMENT OPPORTUNITIES

Pop Up Event locations:

- Sunshine Park, Bassett, La Puente Live, Baldwin Park Woman's Club, Arbor Day/Earth Day, City of Monrovia Street Fair, Almansor Park, and Alhambra Farmers Market

Appendix

Zoom Chat

FEBRUARY 16, 2022

- About 10 years Baldwin Park and other partners received a grant for a bike path from SG River east along Walnut Creek. Why has
- Why hasn't that broken ground? Why does El Monte have access to the waterways but in Baldwin Park and Bassett everything is locked and fenced?
- Don't forget us in the east and our waterways - Big Dalton Wash, Walnut Creek, and San Dimas.
- Need a pop up in Bassett that we know about beforehand so we can promote and get people to attend.
- Eaton Canyon
- Classic Car Cruise Night in San Dimas every first Friday of every month.
- Metro stations
- That's a potential place to have a pop-up booth.
- I do conservation for Baldwin Park Woman's Club so please have WCA contact me.
- La Puente Live every Friday night is an open-air market that has good turnout.
- April 30th will be Arbor Day/Earth Day event for City of San Dimas. Great day for a pop-up booth as well.
- Is the Walnut Creek project at Flanner school site?
- Need east DACs - Bassett, Alvacado Hts.
- City of Monrovia has a Street Fair every Friday night in Old Town Monrovia - great for a pop-up booth!
- Baldwin Park Nature Park is on Walnut Creek
- Irwindale - Arcadia - Duarte Azusa
- Pasadena
- PTA co-sponsored at Bassett Unified
- Of course, I can help host a meeting in Altadena… we are on the western edge of the plan.
- For the west would be interested in south and east and Far East for commuting and recreation.
- Traveling east to El Monte Station is key to use Metrolink for example.
- What is close to Baldwin Park?
- In Avocado Heights we have an active an active equestrian environmental justice organization that would love to see proposed greenways actually make an effort to include equestrians in the planning process, especially those equestrians that are monolingual immigrants, often working class
- The name of our organization is Avocado Heights Vaquer@s en defense del Aire, el Agua, y la Tierra
- Don, reaching out to you since I don't have your contact, please shoot me an email would love to connect with you further on San Jose greenway. sorry to reach out so publicly
- Should be a walking path.
- How the system folds into transit stations - creating safe routes/neighborhood greenway routes to create calm networks to connect safely

- For Puente Creek, there was mention of Nelson Elementary school, there is a Puente Creek nature educational center right adjacent to the creek. Lengthwise connectivity might be possible.
- The lead battery recycling factory located there, Quemetco is the last remaining lead battery recycling factory west of the Rockies
- Amenities that would make the greenway more attractive to existing equestrian and pedestrian use could include, hitches to tie your horse, shaded gathering areas with benches, and maybe potentially a barbecue pit, drinking fountain for pedestrian use, but also a drinking fountain for horses and/or dogs because the water in the San Jose Creek is extremely contaminated
- Opportunity for trees for bird habitat.
- Can I get an email address to send in info about the 6 vacant acres on Walnut Creek?
- I also would like to share that San Jose Creek sits on top of a superfund site
- Puente Operational superfund site
- Isn't San Jose a nature water way? How did it get on top?
- The superfund site is on the bottom, its contaminated groundwater from city of industry, rocket fuel from factories like Northrup Gunman and hazardous wastewater released into the channel which seeped into the groundwater
- Laura, you can reach the Plan Team at sgvgreenway@pw.lacounty.gov
- The superfund site is so huge that its actually broken into six sections, but the Puente Operational Unit encompasses all of San Jose Creek and the residential areas north.
- Will there be any walk. ride assessments along these channels sections to talk/learn more?
- I wouldn't mind helping co-sponsor a pop-up event in Avocado Heights
- Thanks for the efforts, allowing us to share and will share with others to join next week's meeting 
- Thank you for facilitating

FEBRUARY 22, 2022

- For Belen and the planning team, the Schabarum Trail may be the method for folks in South San Jose Hills to access Schabarum Park.
- Thank you, Don. Noted.
- The Eaton Wash is so close to Walden Elementary School, Pasadena High, Wilson Middle School, and more so it can have such an impact on the schools that surround it for recreation, education, and safety.
- Thank you @Xana!
- Pop-up at Almansor Park and Alhambra Farmers Market

Group 3 SOUTH & EAST: San Jose Creek, Puente Creek, and Thompson Creek.

SAN JOSE CREEK

CONSTRAINTS

SAN JOSE CREEK

Understanding the physical constraints along each wash can help identify issues that should be accounted for in design.

Major intersection 7th / railroad

Existing battery recycling plant

Filter to reduce lead coming from factory. but still a large source of arsenic, other heavy metals being released into SJ creek

Encourages steering clear of this intersection for safety

Possibly use a detour to stay away from this plant and mitigate exposure

Toxic battery recycling plant (clark and turnbull)

Equestrian trail stops at 7th ave

Would be great to expand path for equestrian access

Path users can cross street to opposite side of road from existing ppaths

Shade is lacking tremendously in area; would like trees in area

Lots of trees in actual creek which is appealing, but does not provide shade cover

Equestrians use trails as natural paths that function as wildlife corridors as well;

Already lots of use of these trails by community;

Need a hitch to tie up horse;

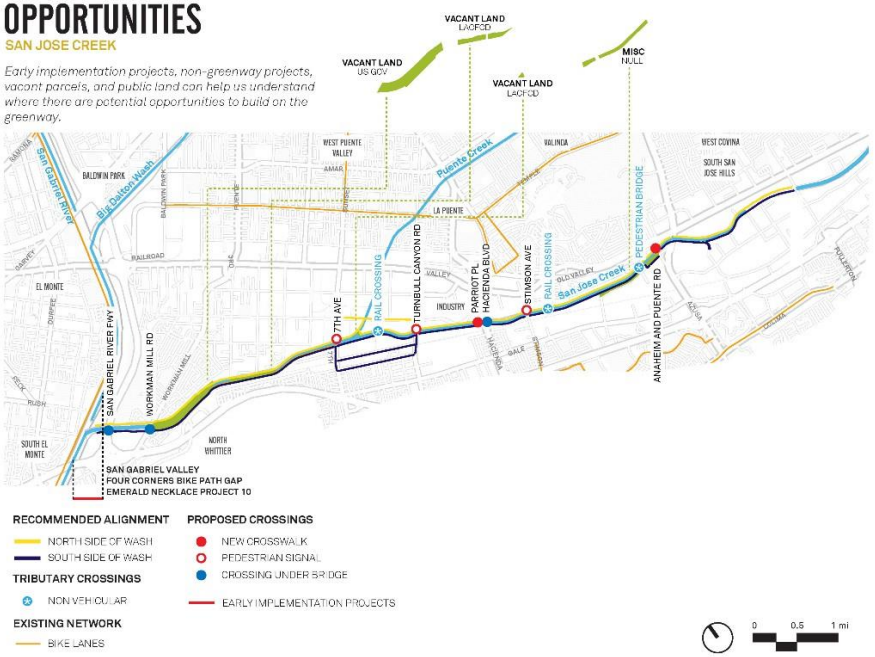

Need a drinking fountain for dogs, humans, horses

San Jose creek used as recreational gathering area; maybe add in a bbq, tables, etc;

OPPORTUNITIES

SAN JOSE CREEK

Early implementation projects, non-greenway projects, vacant parcels, and public land can help us understand where there are potential opportunities to build on the greenway.

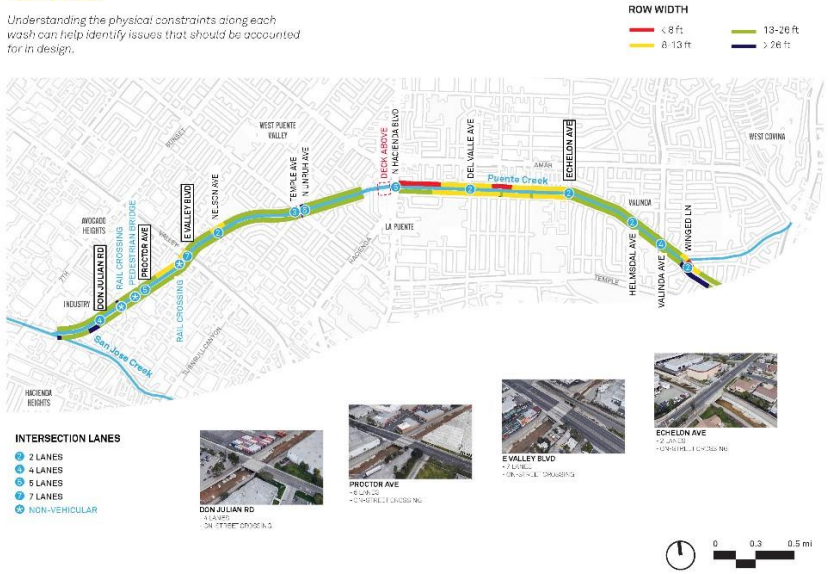

Mural Whiteboard Notes - Community Workshop – February 16, 2022

PUENTE CREEK

CONSTRAINTS

Would be west of 7th ave to community development

Equestrian trail in avocado heights that connects to SJ creek trail.

Equestrian staging area (14100 Don Julian Rd)

No place to park on Workman Mill road.

Busy/fast car corridor; land locked/limited

Starting at western end, vacant government land.

May look good on map, but access is very poor.

Area would only be accessible from trail, not from surface roads.

Vacant lots on south end of 3rd ave. should be focused on.

May already be plans on these two properties (bit more than 2 acres)

Industrial Plant is Eco-Back, lead recycling facility.

Don't see downside to trails going past it (actively cleaning up site).

2 options identified, first south of the creek is Salt Lake ave, second is Clarke ave.

Clarke Ave has active railroad tracks. Salt Lake is just N of RR tracks.

Community members would like parks in the area, but also access to other areas.

Those interested in community gardens want more benefits locally.

Work with South San Jose Hills community.

Small park in industrial area near fullerton road. Only community park for this area.

No direct access to other parks due to industrial area (no access to Shabarum Park).

Community would appreciate space additional to Sunshine park.

Sunshine Park would be a great pop-up location (Coordinate with Nature for All)

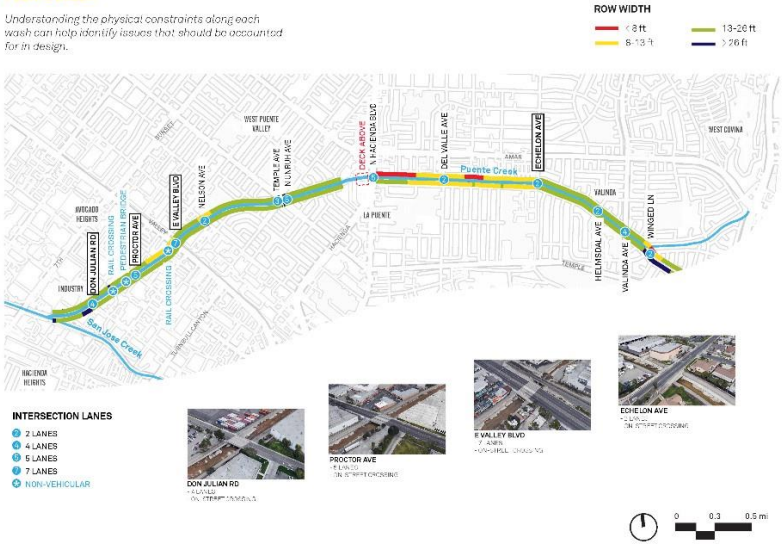

Mural Whiteboard Notes - Community Workshop – February 22, 2022

N side of channel sweeps up following puente creek.

Roadways would have to be accessed. Would require going on roadways

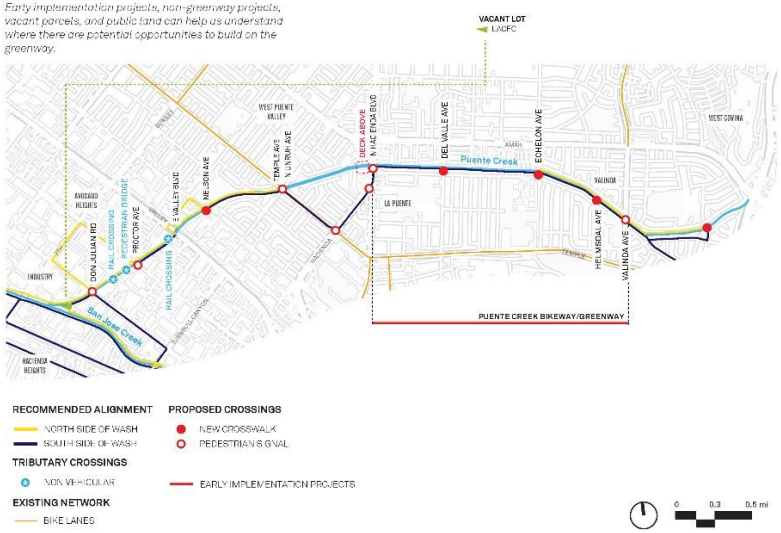

Shaberum trail (from shabarum park) goes towards San Dimas and cuts through Puente Hills Mall

Stoner creek tunnels under colima, follows stoner creek, crosses Gale avenue, goes through parking lot, tunnels under RR tracks.

OPPORTUNITIES

PUENTE CREEK

Early implementation projects, non-greenway projects, vacant parcels, and public land can help us understand where there are potential opportunities to build on the greenway.

RECOMMENDED ALIGNMENT

- NORTH SIDE OF WASH
- SOUTH SIDE OF WASH

PROPOSED CROSSINGS

- NEW CROSSWALK
- PEDESTRIAN SIGNAL

TRIBUTARY CROSSINGS

- NON-VEHICULAR

EXISTING NETWORK

- BIKE LANES
- EARLY IMPLEMENTATION PROJECTS

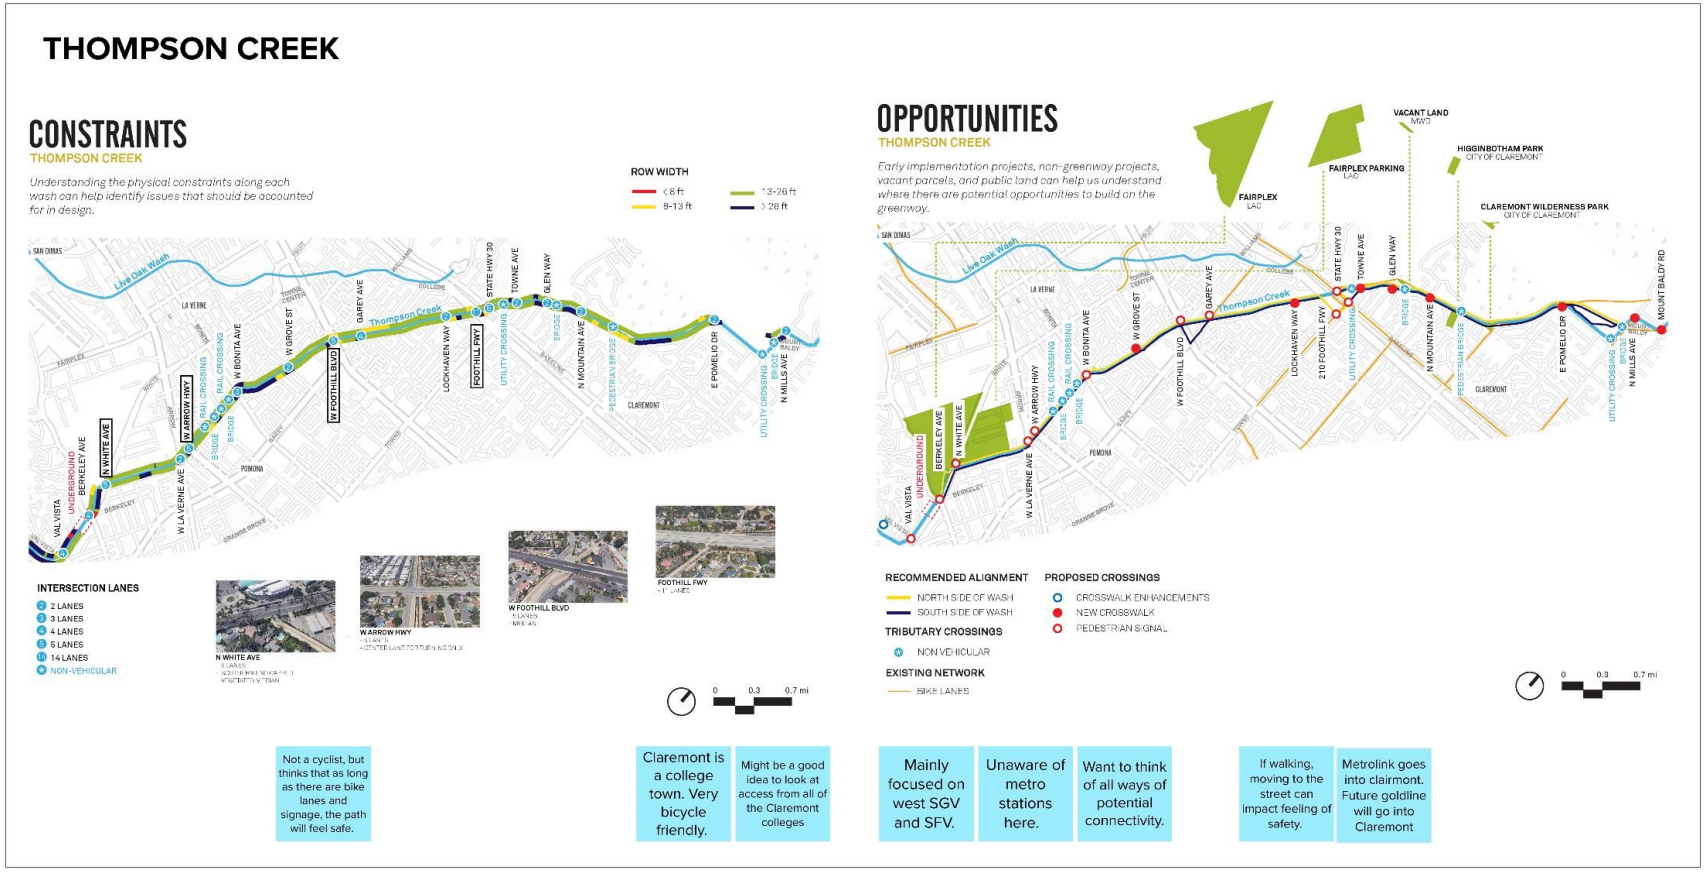

Reach out to owner of shopping center over creek on west side of Hacienda.

May be possible to route bike path through sopping center if owner agreed.

busy traffic area passing Hacienda to get back to channel.

Could be done at closest traffic signal.

Mural Whiteboard Notes - Community Workshop – February 22, 2022

Not a cyclist, but thinks that as long as there are bike lanes and signage, the path will feel safe.

Claremont is a college town. Very bicycle friendly.

Might be a good idea to look at access from all of the Claremont colleges

Mainly focused on west SGV and SFV.

Unaware of metro stations here.

Want to think of all ways of potential connectivity.

If walking, moving to the street can impact feeling of safety.

Metrolink goes into clairmont. Future goldline will go into Claremont

Appendix F: Community Workshop Series 3 Summary

Introduction

The San Gabriel Valley Greenway Network Strategic Implementation Plan (SGV Greenway Network Plan) aims to transform currently underutilized river channels, stormwater channels, washes, and creeks that stretch across communities in the San Gabriel Valley. The flood control channels were constructed to address flood events but currently sit underutilized. The Plan would leverage the existing infrastructure and create a network for multimodal transportation that uses the current channel adjacencies.

The Plan Team was led by Los Angeles County Public Works (LA County Public Works) and included the consultants, Brown and Caldwell, MIG Inc., and Studio-MLA, who facilitated two community workshops. The goals of the workshop were to update the community on the plan overview, outreach activities, and to introduce preliminary project concepts for group discussions.

Outreach Methodology

This is the third series of community workshops for this plan and was intended for community members to get an in-person update on plan engagement and bike path alignment and potential project components. The two workshops were held at varying times on two different days in different venues with the hope of being accessible to varying audiences.

All promotional material included, workshop date, time, venue information, and an RSVP link. To promote attendance at the workshops, promotional materials were shared on LA County Public Works' social media accounts (Facebook, Instagram) and stakeholder group social networks repeatedly leading up to the workshop dates. Mass email invitations were sent to government and agency partners, community stakeholders, and partners and collaborators.

Stakeholders and partners identified through research and or previous engagement activities and projects received emails and telephone calls inviting them to attend and promote the workshop and project.

People who pre-registered received calendar invites and served as a gauge for how many participants there would be. The workshop details were also shared on the plan website and partner websites.

Figure 2: Social media posts on Public Works' Facebook.

Workshop Schedule and Attendees

Workshop	Venue	Date	Participants
Workshop 1	San Gabriel Library, 500 S Del Mar Ave, San Gabriel, CA, 91776	Thursday, June 16, 2022, at 2:30 PM	10 participants
Workshop 2	Esther Snyder Community Center, 4100 Baldwin Park Blvd, Baldwin Park, CA 91706	Saturday, June 18, 2022, at 10:30 AM	7 participants
Total			17 participants

Workshop Format

Participants were able to enter the meetings freely and attend as many workshops as they liked. Both community workshop presentations were held in person and were prepared for English and Spanish language-speaking audiences. The workshops had identical agendas and were conducted in the same manner to ensure participants had similar experiences however the dates and times were selected with specific groups in mind.

Workshop 1, held at the San Gabriel Library, was targeted at city, agency, and non-profit partners from throughout the Greenway area to serve as part of their workday, slated to start at 2:30 PM participants were able to end their workday at the event.

Workshop 2 was meant for community members and was held at the Baldwin Park Community Center and was centrally located within the Greenway area. The Baldwin Park community center is adjacent to a park and is typically an active community hub in the City of Baldwin Park. The workshop also coincided with a large community event, and the Plan Team took the opportunity to host a pop-up to promote the workshop in the adjacent community center.

The workshop began and concluded with an open house period. The open house mainly included poster stations set up around the room and staff for people to engage directly with the participants. This additional time allows for some flexibility for people with limited time, but also the possibility of more in-depth conversations.

The presentation began with a welcome from the Plan Team and a land acknowledgment of the first peoples of the ancestral land, an overview of the workshop agenda, and asked participants to introduce themselves. The presentation recalled key findings from prior community engagement activities, described design guidelines, and potential project concepts. An open discussion period followed the presentation where community members were able to openly ask questions and make comments. Thoughts and ideas were recorded on wall graphic paper for the room to see.

Emerging Ideas

Safety & Security

- Protect all users – Consider conflicts between users: Pedestrians, Cyclists, and Equestrians. Concerns regarding restricted areas for specific users, speeds for E-Bikes/E-Scooters, and safe paths/facilities.
- Signage - Add and maintain signage for wayfinding and direction orientation.
- Lighting – Incorporate well-lit green spaces and paths for evening and early morning activity.
- Cameras - Consider including cameras and a monitoring program at key locations to promote safety.
- Privacy for neighbors - Establish noise, light, and physical barriers to ensure that neighbors directly adjacent to and around the Greenway maintain their privacy.
- Street Crossing – Integrate clear and seamless street crossings.
- Underpasses – Ensure spaces that have low visibility and lighting are safe for path users.
- Graffiti removal – Maintain and repair any vandalism to the facilities and green spaces.
- People experiencing homelessness – Concerns regarding the presence and engagement of people without homes along the channels. Discourage encampments through program activation, design techniques, transition services, and outreach.

Amenities

- How and who will be maintaining the spaces?
- Gateway Spaces – Create placemaking amenities near the street to make the greenway and facilities visible and easy to maintain.
- Shade - Incorporate more shaded spaces to help with the heat. What will the tree height be?
- Seating – Integrate seating and resting areas throughout the Greenway. Consider how people without homes would be impacted.

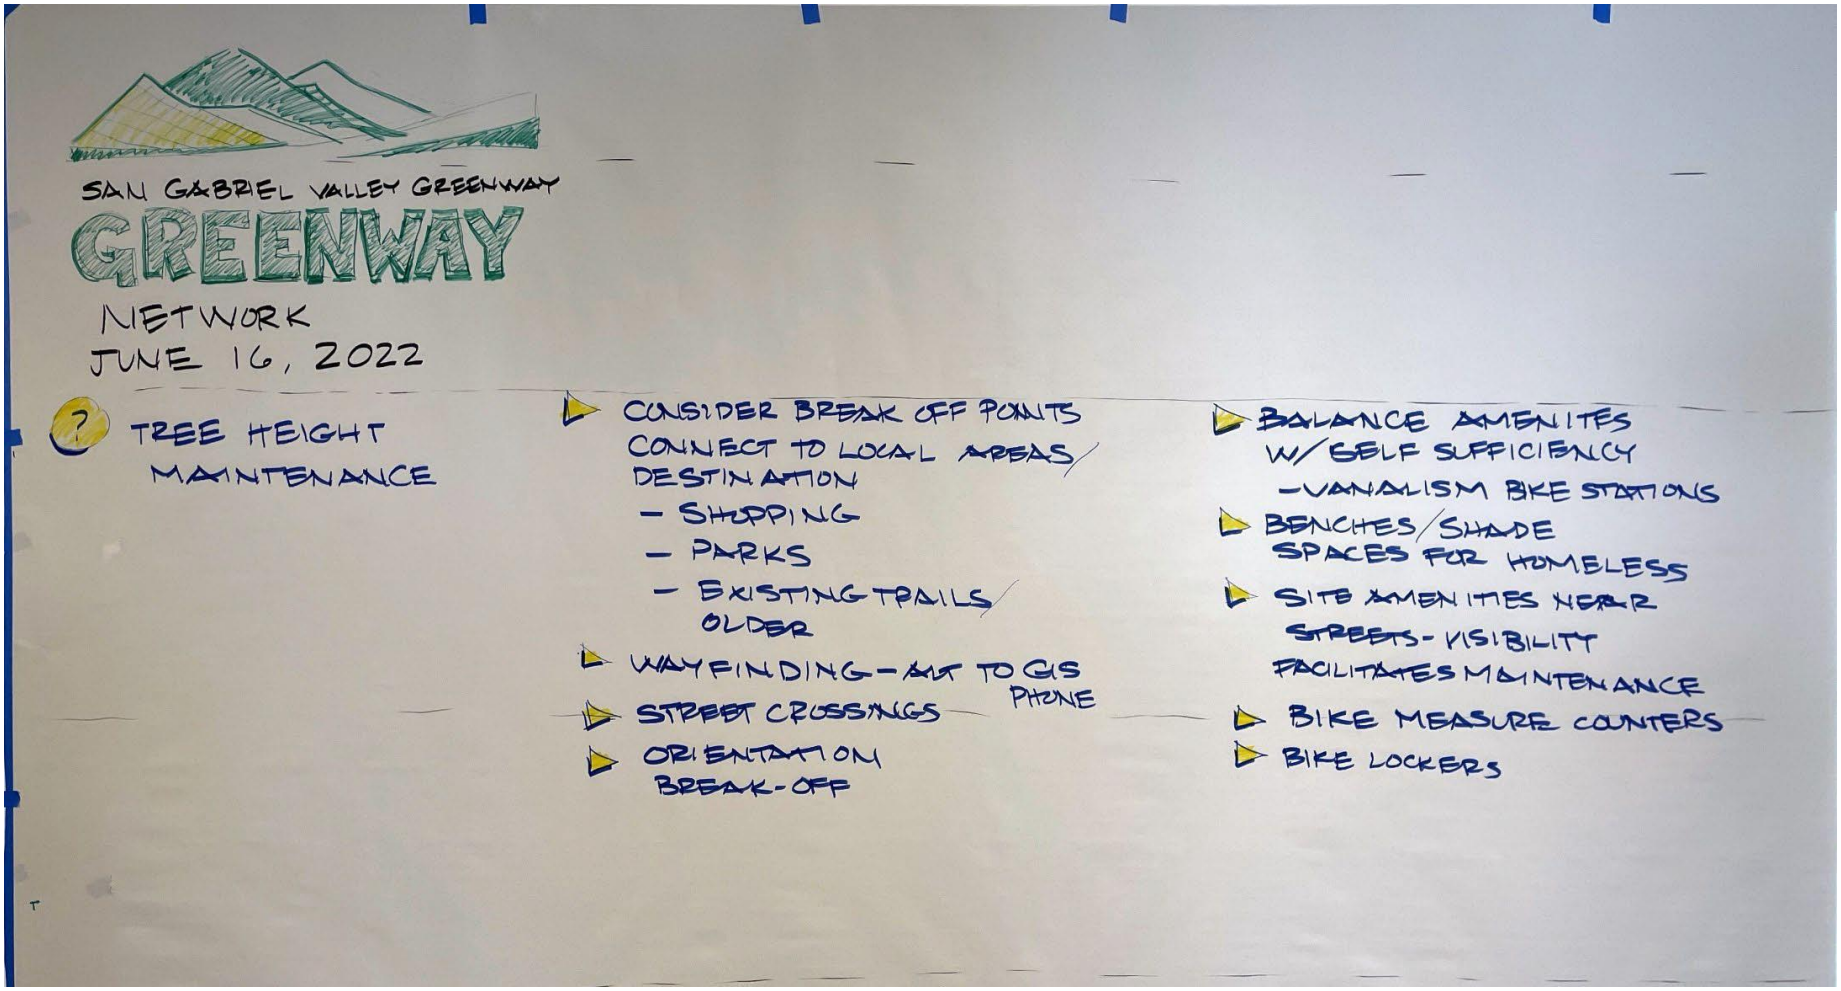

- Bike Amenities – Incorporate bike counters at various locations to measure the number of bicycles at a location for a certain period and bike lockers to promote bike use and visibility to greenway users.
- Consistent Signage and Amenities – Harmonize the wayfinding, destination signage, and Amenities to enhance and ease the greenway and gateway experience. Consider the various agencies and cities adjacent to and beyond greenway priority areas (Unincorporated Community).
- Online resources – Consider the potential for a dedicated map app or existing map apps for trip and destination planning. Consider webpage potential for local resources and events.

Connectivity

- Existing bike lanes and trails – Join proposed concepts with existing trails and bike facilities to create a continuous and seamless network of paths for pedestrians and cyclists.
- Destinations – Consider the location and positioning of potential destinations adjacent to the greenway; including but not limited to local and regional parks, schools, shopping, existing trails, etc.
- New connections – Create new connections by expanding trails to existing parks and natural areas and by making new gateways and parks.
- Informal Connections – Analyze opportunities for informal connections and placemaking

Next steps

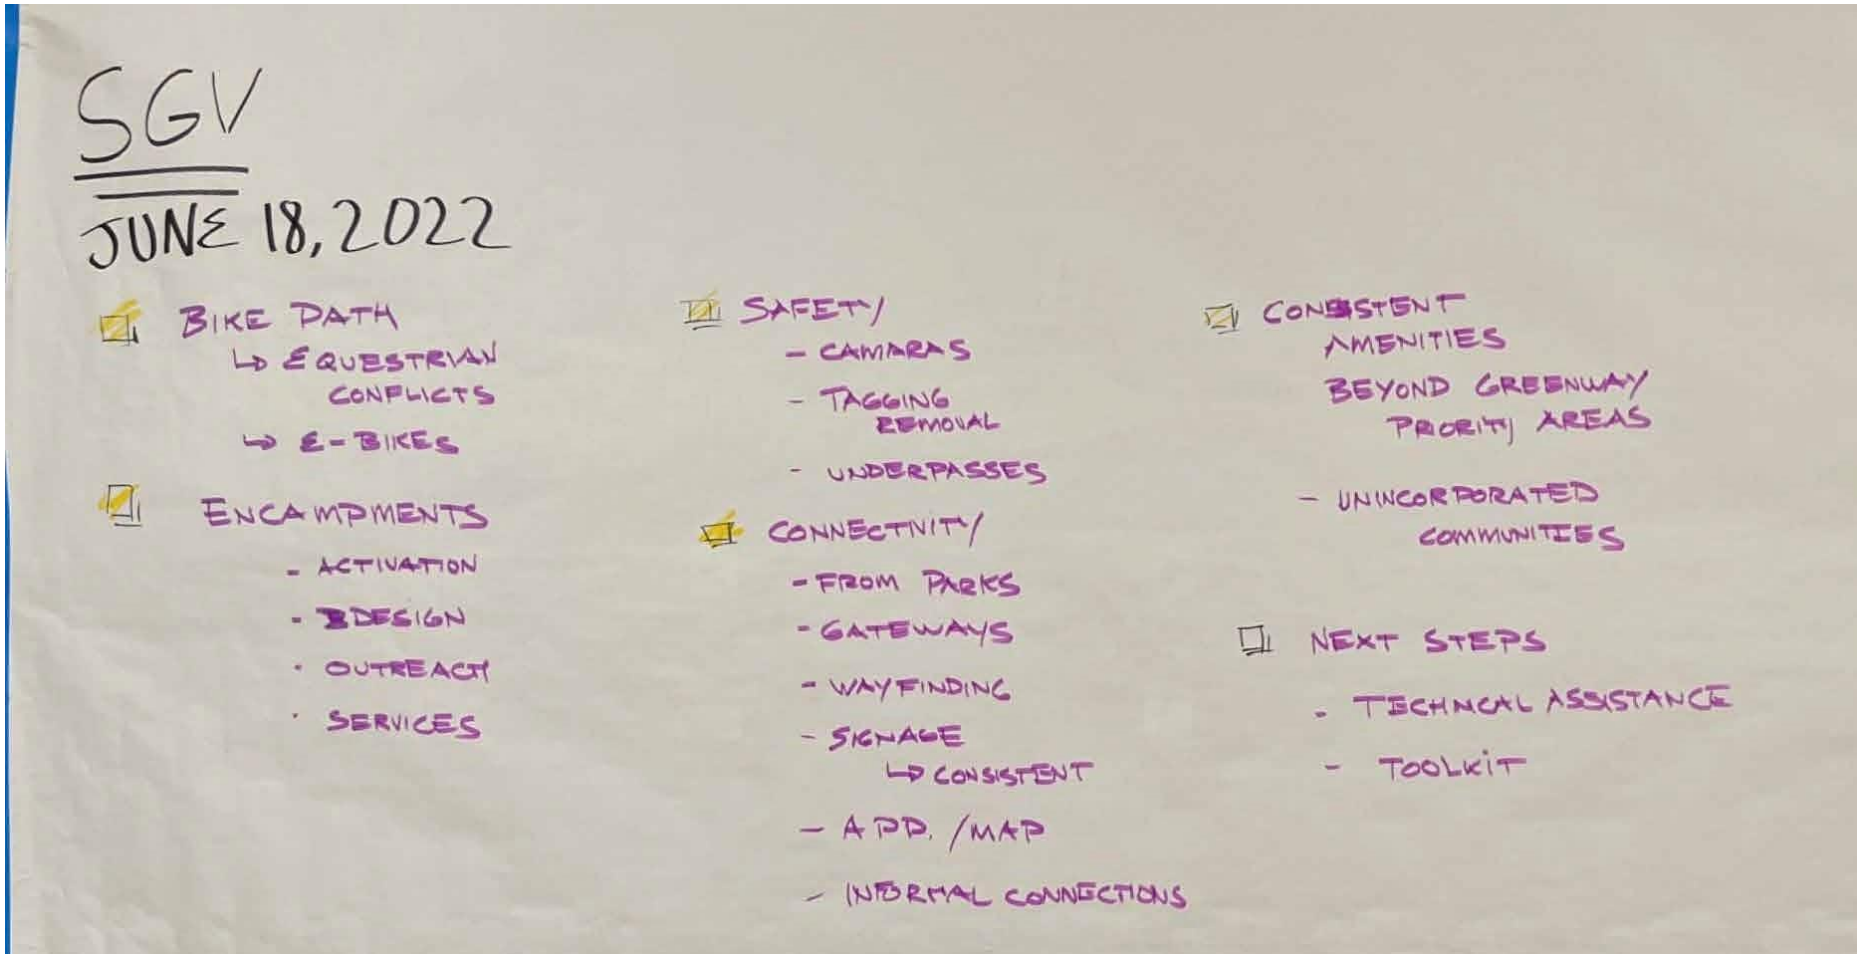

- Technical Assistance – Share resources and contacts with stakeholders and partners for questions, ideas, and concerns.
- Toolkit – Raise awareness of the planning and implementation process.

1	Julie	Hello. I live right up against the wash - on the west side of Ranch Lane. My children and their friends play in the background regularly and I am concerned about privacy and safety. I don't think a walking trail is a bad idea; however it is planned so close to homes that aren't set up for foot traffic (or bike, etc) Behind them. The cost we would incur to build a privacy fence or to wait for a hedge to cover a chain link - is something we can't currently afford. Homes along the wash are often chosen because of the privacy it affords (meaning, not having another home right behind you). So I can appreciate having more walking trails, but for people who would live mere feet from it - especially with prospects of encampments, trash, etc…it's a worry. Just would love to hear more from the city about what exact plans might be - if walls of any kind would be added for safety and security, how these issues will be monitored, etc. Thank you in advance for your time and consideration. I appreciate it!
2	Janelle	Hi. While I like the idea of the greenway path network, I don't like the idea of it backing up to my backyard, which is what it will do. I have young children and the idea of strangers constantly walking right next to my home is concerning and it definitely disrupts our privacy. We do not have a hedge or blocking type of fence along most of our property. To install a hedge/fence would cost a few thousand dollars. Is the county able to cover the cost for residents who will be affected by the pathway? It is an infringement on privacy and possibly house value. If someone could respond to my comments/concerns, I would appreciate it. Thank you. Janelle
3	Tina	Please do not open the connecting channels! It will destroy our neighborhoods! By allowing criminals and the homeless to get around just like in Arcadia big mistake. People can't even go golfing without running into criminals looking for an opportunity to commit a crime. If you have so much money to spend on this project. How about lowering or charging LA County employees high fees to charge their electric vehicles at work. This project will be a waste of money just like the bike paths that are empty taking up our streets. I have not seen one bike on those bike lanes. Other idea fix the road at Eaton Canyon going up to Henninger Flats so that more people can use it. Or getting the homeless a place to live. I beg you please do not allow this project to ruin our safety and neighborhoods!!!! Very concerned citizens.

4	Adriane	I would love to see these green spaces come to fruition lined with numerous large shade trees to counteract the heat-retaining effects of our buildings and paved roads. However, to successfully implement them, there will need to be concurrent plans addressing homelessness and coyote denning. 1) According to posts on local social media, the public's perception is that the light rail system has brought increased numbers of unhoused people into the foothill communities; these people might consider the greenway a good place to camp, particularly areas that are adjacent to open areas, such as near schools and parks. Encampments bring increased concerns about safety, sanitation, health, and litter. 2) Social media chatter is also rife with disputes over coyotes, with many people focusing on safety concerns for themselves, small children, and pets. A small number of people have reported seeing dens in the yards of empty houses; if that is true, then areas along the greenway might also be appealing den sites. Although few coyotes have shown aggression toward humans in this area, it's possible that people will raise concerns. It would be prudent to have some ideas ready for discouraging coyotes from "setting up house" along the greenways. 3) As a horse owner who boarded in San Dimas, I support having a section of equestrian trail in Glendora. I need to point out, though, that mixed-use trails were sometimes problematic because most of the public is simply not aware of how to behave safely around horses. Children on bicycles, people running, off-leash dogs (some attack horses), drones, RC toys, battery-powered ride-on toys, even something as benign as a baby stroller can create sudden safety issues by startling horses and causing them dart, bolt, or jump. And horses defecate at whim and while walking, which makes the trail less pleasant for non-riders. For those reasons, I suggest a small section of horses-only trail in the northeast part of Glendora, which would be convenient for people who board at the stable in that area or who keep horses at home in the surrounding neighborhoods. Parking that accommodates horse trailers at the trail's entry points would encourage people who live elsewhere to ride on that section of trail. Adding tie rails, mounting blocks, and push-button waterers for the horses at the ends and midpoint of the trail would be welcome amenities. However, if the trail needs to be mixed use, warning signs and restrictions need to be posted, and there would need to be a way for people to report violations. Perhaps a volunteer could be posted at each entry point to advise the public about trail courtesy and stop people from bringing dogs, bikes, and toys on the trail. People with strollers would simply need a quick lesson in safety, and riders would need to be advised that they could encounter them on the trail. Thank you for your consideration. I truly do hope this project becomes a reality.
5	Michael	In reviewing your "pathway Forward map" the legend does not define what the green sections of the trail are. Only the "Orange Complete", "Red Under construction", "Peach Design development" and "yellow Planning sections". Please explaln the Green sections are as they make up the majority of the pathways Thank you Mike
6	Michael	We needed this long time ago but atleast we are currently in the process of it all so progress. Your listening to the people that it is effecting as well listening to the people.

7	lynn	I see a lot of one-way trails not connected? Some trails are very close to another trail? Please make loops when at all possible. We love that you are adding more trails. We also would like more mountain biking trails of all ability levels. Sounds like some may be dirt trails. Thank you.
8	Brian	Hi, I have been working by my self for 2 years now to pick up trash and remove invasive species at Peck lake. I would love to meet with anyone and talk about this area and how it can be improved. I remove about 150 lbs of trash from the lake a week. Thank you Brian
9	Jack	Hello, I think that the greenway proposal is an excellent idea. I am unsure who much of the existing drainage wash infrastructure has the needed clearances for this to be done along the entire route of the washes. But if it can be done, I am fully in support of this. With that said, there are a few concerns I have. First is security and safety. The existing San Gabriel River bikeway is far less used these days than it used to be, due to rider harassment and crime. Doing this project without providing enough security that people would feel safe using it might well be a waste of money. Second, while these would be good 'arteries' to move longer distances, to make this really useful, you would also lots to have lots of 'last mile' feeder bike lanes, and hopefully, some bike lanes that would interconnect between adjacent greenways. You would also have to try to make this so that it is not perceived as 'taking away' any part of the existing (or needed) road infrastructure. Look at this as a synergistic part of the local transportation system, and try to tie it in to the rail, road, public transit, etc. Thanks for your efforts on this! Jack
10	Elizabeth	Hello, thank you for reaching out to residents in the San Gabriel Valley. I have a 33 year old with disabilities. My request is that you take into consideration people with a variety of abilities when designing and implementing your plans. Thanks!
11	Julie	Hello! I am on the Rio Hondo Watershed Coordinator team. Richard and I would love to be on the list to be informed about upcoming SGV Greenway activities. Rich will likely be able to join for workshop #4 tomorrow, 11/17, but moving forward we'd love to be in touch with the organization. Thank you!
12	Don	During tonights meeting I experienced audio difficulties due to cross connection in zoom. Please share an email address to submit feedback to the group. Thank you.
13	Richard	I am totally supportive of this plan, and any to increase bike paths across the SGV.
14	Annie	Hello, my name is Annie. I am a student at Cal poly Pomona in the landscape architecture master program. I am looking for a person or group to ask questions about the San Gabriel valley greenway project for my school project. If you can send me the contact person with whom I can talk about the project. I am looking forward to hearing from you. Thank you Sincerely, Annie
15	Daniel	Hello, I contacted LA Flood control a month ago about purchasing a small amount of land behind our home (sawpit wash lies directly behind) . I was advised that the land was donated to your project and to contact you to for further inquiries. Please advise
16	Daniel	Hello, I'd like to if these 125 miles of bike path has been fully funded and if it has started ? (Has the project began) Best regards Daniel

17	Darrell	For a few starter questions. Who is going to be responsible for policing these walkways? I have already know what kind of support we get from the Sheriff Dept. on Arrow Hwy. between Covina and Glendora. What is the plan when the homeless start setting up camps in these locations? What is your mitigation plan for lose in property value, increased noise, home owner security, and general negative effects?
18	Paul	The Museum is directly off San José Creek and can be a good visitation and rest area for users of a trail there.
19	Sally	I have been waiting for something like this my whole life!!! This seems like a terrific idea and I can't wait to hear more about it!
20	Hillary	Hello, I live along the San Dimas Wash and am very interested in participating in surveys and or workshops. Can you please let me know how I might get involved? I am excited by the potential of making our section of the wash more useful and better connected. Thank you for creating this project! Hillary
21	Claire	Thanks so much for taking on this initiative! I was born in LA County, raised in Walnut until leaving for the East Coast for college and work, where I've become an avid road cyclist. My parents and most extended family still live in Walnut. It's likely already been highlighted, but I wanted to add one more voice to how Walnut has beautiful equestrian trails—but now, rarely if at all ever any horses since the then-equestrian center changed ownership and ranch style homes have been destroyed by new developments. Perhaps these trails might be "rebranded" for graveling or mountain biking (I mean, it's something I already do, but I'm not sure other locals are aware of it), and another consideration is widening the bike lines in Walnut (which has beautiful rolling hills) to allow the greenway to tap into the potential of Walnut with its trails, many parks, gentle climbs—and proximity to the Mt Sac Stadium (of course, the local gem for the Mt. Sac relays!). Thanks so much for your important work, and hope you have great rides in the meantime! Best, Claire
22	Joy	I'm a busy mom of two young kids and the easiest exercise for me and others is running and walking, but there isn't really anywhere safe and lively nearby to run outdoors. I live near brea canyon and the 60 so I have to drive all the way to brea.
23	Ruben	Its a bad idea, West Covina tried this and has since shut down all trails, There will be too many bad incidents that will come about with these trails. Will your organization be responsible for the incidents that will happen on these trails? Bad idea
24	Peter	Do you have an approximate schedule for the three planning phases that you can share with me?
25	Monica	Tell me what I can do to help facilitate this project.
