WEST COAST BASIN BARRIER PROJECT

Construction activities will be taking place along the Greenbelt at select locations in the Cities of Manhattan Beach and Hermosa Beach starting April 2021. See inside for details.

Please visit our website seawaterbarrier.com for proposed well locations.
(Well location above is along the Greenbelt at North Ardmore Avenue, approximately 500 feet west of Flourney Road)

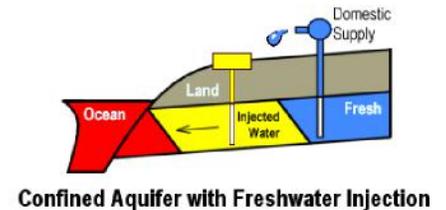

Dear Neighbor,

Construction activities will be taking place along the Greenbelt at select locations in the Cities of Manhattan Beach and Hermosa Beach. The project will construct 12 new and replacement wells as part of the West Coast Basin Barrier Project to protect the drinking water supply from seawater intrusion.

For your safety, pedestrian access along the Greenbelt may be detoured at select construction locations. We apologize in advance for any inconvenience you may experience during this project.

Construction start: April 5, 2021
Construction end: April 6, 2022*
**NOTE: each well location is estimated to last approximately 3 months*

Please visit our website seawaterbarrier.com for photos of all proposed well locations.
For more information, please contact Adam Lee, Project Manager, at (626) 458-6185 or awlee@pw.lacounty.gov

Replacement well locations along the Greenbelt
