

Six Regions in the Lahontan Funding Area Compete for Grant Funding

Proposition 1 Implementation Grant Schedule

IRWM 2016 Plan Standards Updates

IRWM Plan Standards	Updates to 2012 IRWM Plan Standards
Region Description	Update water quality conditions to include nitrate, arsenic, perchlorate, or hexavalent chromium contamination
Plan Objectives	Address changes in runoff and recharge, energy consumption, and options for carbon sequestration and renewable energy usage
Resource Management Strategies	Include the CWP 2013 Resource Management Strategies updates
Project Review Process	Update project list and approval by RWMG
Plan Performance and Monitoring	Add policies and procedures that promote adaptive management
Local Water Planning	Develop and incorporate a Stormwater Resources Plan to receive grants for stormwater and dry weather runoff capture projects
Local Land Use Planning	Facilitate information sharing and collaboration with regional land use planning
Climate Change	Address priority vulnerabilities and analyze the effects of sea level rise as they pertain to imported water supplies
