

Owen Tank Replacement Project

Los Angeles County Public Works (Public Works) will begin work to replace a water tank at 2300 S. Tuna Canyon Road, in the unincorporated community of Topanga. Crews will demolish the existing 100,000-gallon tank and install a new 500,000-gallon tank. This new tank will improve water system reliability and ensure the health and safety of Los Angeles County Waterworks District 29 customers.

Construction is expected to begin May 2023 and be completed by March 2024. Construction hours will be from 7 a.m. to 3:30 p.m., Monday through Friday. Residents may experience minimal traffic impacts. Customers will be notified of temporary water service disruption prior to the connection of the new tank.
